

CONGRESS HEARS COOLIDGE MESSAGE

SENATE MUST MEET FLOOD OF PROBLEMS

Smith and Vare Seating Is Likely to Lead to Extended Debate by Members

HOUSE RUNS SMOOTHLY

Businesslike and Systematic in Contrast to Upper Chamber in Congress

BY DAVID LAWRENCE
Copyright 1927 by Post Pub. Co.

Washington—Orderliness and systematic approach to legislation in the house, but confusion in the senate—this is the status of affairs as the semi-annual congress assembles.

Unlike the situation years ago, when nobody knew just what appropriation measures would come first and what would be the priority given, the house already has had the ways and means committee at work on tax revision and an investigation of flood control. And the Republican majority is such that under house rules most of the major legislation can be disposed of before Feb. 1. The outlook is bright, in other words, for an orderly and expeditious session so far as the house is concerned.

But not so in the senate. The primary contests in Illinois and Pennsylvania—the unusual amounts of money spent to win seats—have over the whole upper house like a cloud. No matter what way one turns the problem is encountered. The question of eligibility to seats will doubtless be argued at length. The whole thing threatened to prevent the Senate from organizing and to postpone indefinitely the reading of the President's annual message when Senator Curtis, Republican leader, brought about a truce until after the preliminary routine was out of the way and the message had been presented. But the moment that is over the fireworks start.

HAVE STRONG BACKERS

The two senators-elect will have some staunch defenders who will argue the question on constitutional grounds, contending that once a state has sent its representative it is not up to the federal government here to question the process. Political prejudice and the traditional opposition to the expenditure of large sums in elections will, however, play a controlling part. Whether justly or unjustly, a majority of the senate feels that excessive expenditure is unwarranted. This was outlined in the famous resolution adopted by the senate denouncing the amounts spent to secure the election of Truman Newberry of Michigan, who subsequently resigned.

Dozens of side shows, so to speak, will be staged alongside of the main battle over the election of senators from Illinois and Pennsylvania. The committees are ready to receive all sort of regulatory measures, and there is the usual demand for investigations on which to go into a presidential and congressional campaign.

Something like 24,000 bills were introduced in both houses last session, but all that were not passed have to be introduced over again with the new

WALTON LEAGUE LOSES PLEA IN NAGLER CASE

GAME HEAD IS EMPLOYEE, HIGH COURT RULES

Sustains Nagler Contention That He Is Not Wisconsin Official

Madison—(AP)—The state supreme court Tuesday denied the motion of attorneys for the Izak Walton league of Wisconsin for permission to start action in quo warranto against L. B. Nagler, conservation director. This refused permission of the high court to file action against the former secretary to Governor Zimmerman under which action Mr. Nagler would have been required to reveal his qualifications for holding the office.

The high court held with the Nagler attorneys that the appointee of the now six-man non-salaried conservation committee is not a state officer but a state employee.

The league maintained that Nagler did not come up to the requirements set by the new conservation law that the director be expert in conservation work and an experienced administrative head.

Attorneys for Mr. Nagler maintained that as he was appointed by the commission any action to remove him should not be brought as against a state officer, but he filed with the commission, his employer.

PROVE "EMPLOYMENT"

The supreme court held that "unless it clearly appears that the legislature intended that only citizens of the state should be employed it must be held that the conservation commission can select its director from any state in the union in order to secure the best services. By providing for the exemption of the conservation director from the civil service, the legislature evidently construed the position as employment and thought it necessary to create exemption."

"Public officers are not subject to chapter 10 (the civil service act) it is true that the act says 'he shall continue in office' at the pleasure of the commission. This would seem to indicate that he is a public officer but one or two words in an act cannot control its meaning or effect if it is apparent that the words chosen are not proper ones. The word 'employee' used in the act instead of the word 'appoint' is not conclusive by any means of the fact that he is in the employment of the state and not an officer. In the present case the legislative intent to put the conservation director under control and subject to the conservation commission as an employee doing expert work is so clear and obvious that single words cannot control having made the earlier answer and insisted her Monday's testimony was correct.

Changing his testimony of last week, Harry Sanderson, traveling salesman from Sidney, Ohio, Tuesday identified Beach as the man he had seen emerge running from the woods near the spot where Dr. Lillendahl was killed.

ROCKNE SCORES FACULTY FOES OF COLLEGE GAMES

Ripon—(AP)—College professors who are attempting to abolish college athletics were denounced by Knute Rockne, Notre Dame mentor, in a speech at a Ripon college football banquet here Monday night.

"Nothing in my investigation has proved that class standing of athletes become lower during the football season," Rockne said. "As for the magnitude which the games assume, a thing which is big is not necessarily bad. The trusts are big and yet they seem to be giving excellent satisfaction."

Football has not increased drinking, Rockne said, averring that "men who will drink anyway; their natures are so constructed that nothing can stop them."

Announcement was made at the banquet that Frederick Hein Milwaukee, was elected captain of the 1928 Ripon football squad.

CONTINUE TO HUNT FOR NEGRO WHO KILLED MAN

Beloit—(AP)—Wisconsin and Illinois authorities Tuesday continued their search for Horace Brown, Negro, alleged to have slashed to death William Woods white, in South Beloit, Ill. Saturday.

Police say that Brown escaped on an eastbound freight out of Beloit shortly after he fatally wounded Woods, who died in a Beloit hospital Monday morning. An argument, police were told, resulted in an attack by Brown on Woods in a South Beloit, Ill., alleged bootlegging establishment Saturday night.

EIGHT ARE KILLED IN BOARDING HOUSE FIRE

Williamson, W. Va.—(AP)—Eight persons met death in a fire which destroyed a boarding house here Tuesday. Six of the victims were residents of the Chinese section of Williamson, who had come to Williamson to testify in the murder trial of Elijah Wellman and his three sons.

The fire originated in a hallway between two sections of the rooming house about 6 o'clock in the morning and spread so rapidly that the eight were trapped when flames cut off the stairway at the front of the building. All the bodies were found in a dark room on the upper floor to which the victims had fled.

Two girls nabbed for passing five checks

Kenosha, W. Va.—(AP)—Eight persons met death in a fire which destroyed a boarding house here Tuesday. Six of the victims were residents of the Chinese section of Williamson, who had come to Williamson to testify in the murder trial of Elijah Wellman and his three sons.

The fire originated in a hallway between two sections of the rooming house about 6 o'clock in the morning and spread so rapidly that the eight were trapped when flames cut off the stairway at the front of the building. All the bodies were found in a dark room on the upper floor to which the victims had fled.

High relief when you are sick. That not a soul's been missed. And you can rest the last few days. With cleaned up shopping list.

East And West Battle On Cal's Election Position

Washington—(AP)—President Coolidge does not stand with his friend William Butler, chairman of the Republican national committee, in endorsing Kansas City for the next national convention broke out Tuesday as the committee began to hear formal arguments from a dozen cities seeking the convention.

Harrison Garnett, committeeman for North Dakota, an advocate of Detroit for the convention, declared that it was not necessary for any committee to follow the suggestion of Butler and that he was greatly displeased that the chairman had shown a preference. James E. Davidson, national committeeman for Michigan, asserted that Butler's statement was "provoking."

Already the chairman's position has come under fire within the committee itself, which will select a convention city Wednesday. Party leaders have declared the chairman promised to be

providing.

President Coolidge was represented Tuesday at the White House as having no particular preference of his own. He thinks there should be full hearing of the contesting cities before any decision is made.

Mr. Coolidge has assumed that Chairman Butler's position in the matter would be the same.

The fight maintained that Nagler did not come up to the requirements set by the new conservation law that the director be expert in conservation work and an experienced administrative head.

Attorneys for Mr. Nagler maintained that as he was appointed by the commission any action to remove him should not be brought as against a state officer, but he filed with the commission, his employer.

PROVE "EMPLOYMENT"

The supreme court held that "unless it clearly appears that the legislature intended that only citizens of the state should be employed it must be held that the conservation commission can select its director from any state in the union in order to secure the best services. By providing for the exemption of the conservation director from the civil service, the legislature evidently construed the position as employment and thought it necessary to create exemption."

"Public officers are not subject to chapter 10 (the civil service act) it is true that the act says 'he shall continue in office' at the pleasure of the commission. This would seem to indicate that he is a public officer but one or two words in an act cannot control its meaning or effect if it is apparent that the words chosen are not proper ones. The word 'employee' used in the act instead of the word 'appoint' is not conclusive by any means of the fact that he is in the employment of the state and not an officer. In the present case the legislative intent to put the conservation director under control and subject to the conservation commission as an employee doing expert work is so clear and obvious that single words cannot control having made the earlier answer and insisted her Monday's testimony was correct.

Changing his testimony of last week, Harry Sanderson, traveling salesman from Sidney, Ohio, Tuesday identified Beach as the man he had seen emerge running from the woods near the spot where Dr. Lillendahl was killed.

BLIZZARD FROM CANADA HITS MONTANA PRAIRIES

Denver, Colo.—(AP)—The first severe blizzard of the season rolled southward from Canada Tuesday to cripple traffic and leave more than a score of persons trapped on the prairies of central Montana. With thermometers standing at zero marks, the storm struck in Alberta Monday. Snow soon filled cuts to paralyze railroads and traffic in cities as well as rural districts. The storm was the worst experienced in several years.

Driven across the Montana border by a strong wind, the snow whirled over the prairies Monday night to maroon a construction crew of 25 men seven miles south of Shelby. Mont. Reports Tuesday indicated the storm lost little of its force in the short order, midnight, starting a blaze from derailed gasoline tank cars that for the time threatened to destroy the entire train. T. Byers, engineer, was not expected to live.

WANT CUDAHY HEARING CONTINUED TILL MEET

Milwaukee—(AP)—Five present members of the Missouri Valley conference, two of whom will be members of the new Big Six circuit next season, and a well-known eastern aggregation are included on the 1928 football schedule of Marquette university, as announced here Tuesday by Athletic Director C. M. Jennings. Marquette will meet Holy Cross at Worcester, Mass., and Grinnell College at Grinnell, Ia., while the other games will be played at home. The schedule: Oct. 6, Lawrence in Milwaukee; Oct. 13, Drake in Milwaukee; Oct. 20, Oklahoma A. & M. in Milwaukee; Oct. 26, Holy Cross at Worcester, Mass.; Nov. 3, Grinnell at Grinnell; Ia.; Nov. 10, Kansas in Milwaukee; Nov. 17, Creighton in Milwaukee; Nov. 29, Iowa State in Milwaukee.

SIX MEN BADLY BURNED IN RAILROAD ACCIDENT

Atlanta, Ga.—(AP)—Six men were severely injured, one probably fatally, when the locomotive and 12 cars of an Atlanta, Birmingham and Coast freight train left the tracks near here shortly after midnight, starting a blaze from derailed gasoline tank cars that for the time threatened to destroy the entire train. T. Byers, engineer, was not expected to live.

Atlanta, Ga.—(AP)—Six men were severely injured, one probably fatally, when the locomotive and 12 cars of an Atlanta, Birmingham and Coast freight train left the tracks near here shortly after midnight, starting a blaze from derailed gasoline tank cars that for the time threatened to destroy the entire train. T. Byers, engineer, was not expected to live.

Want Cudahy hearing continued till meet

Milwaukee—(AP)—Cudahy women Tuesday brought forth the white flag and prepared to press their demand that a truce, if not a peace treaty, be effected in the dispute over the ousted Edward C. Seifert, superintendent of Cudahy schools.

With the temporary injunction against the ouster of Seifert, returned to district court Tuesday, members of the Cudahy Women's Club have petitioned Judge John J. Gregory to continue the hearing "at least until after Dec. 12" when a school board meeting will be held.

"It is permitted to continue along present lines, the controversy will result in indefinite prolongation of the present trouble, further litigation and additional harm to our schools," the clubwomen's petition reads.

CONTINUE TO HUNT FOR NEGRO WHO KILLED MAN

Beloit—(AP)—Wisconsin and Illinois authorities Tuesday continued their search for Horace Brown, Negro, alleged to have slashed to death William Woods white, in South Beloit, Ill. Saturday.

Police say that Brown escaped on an eastbound freight out of Beloit shortly after he fatally wounded Woods, who died in a Beloit hospital Monday morning. An argument, police were told, resulted in an attack by Brown on Woods in a South Beloit, Ill., alleged bootlegging establishment Saturday night.

Eight are killed in boarding house fire

Williamson, W. Va.—(AP)—Eight persons met death in a fire which destroyed a boarding house here Tuesday. Six of the victims were residents of the Chinese section of Williamson, who had come to Williamson to testify in the murder trial of Elijah Wellman and his three sons.

The fire originated in a hallway between two sections of the rooming house about 6 o'clock in the morning and spread so rapidly that the eight were trapped when flames cut off the stairway at the front of the building. All the bodies were found in a dark room on the upper floor to which the victims had fled.

High relief when you are sick. That not a soul's been missed. And you can rest the last few days. With cleaned up shopping list.

REMUS ROARS PROTEST AT TRIAL JUDGE

Court Threatens Alleged Murderer With Contempt Charge at Hearing

Cincinnati, Ohio—(AP)—George Remus started the court room and aroused the ire of Judge Chester R. Shook, presiding in his murder trial, as an outburst that required the combined efforts of three men and his daughter Romola to subdue. Remus roaring voice was heard over the tumult of rushing feet toward the man who bellowed: "My life is at stake, my life is at stake, and I know my legal rights."

Judge Shook had threatened Remus with contempt of court proceedings to which Remus replied in admonishing terms:

"Your honor, I have tried criminal cases through this country, and I know how to couch and phrase objections correctly." Remus had been overruled in an objection and instructed not to give evidence in an objection.

"Don't arraign the court," thundered Judge Shook with unexpected severity, and he was about to proceed when Remus cut in:

"But your honor—" "Sit down and keep quiet. Don't make me warn you again, or I'll cite you for contempt of court," Judge Shook cried in a voice that brought sheriff William A. Anderson and another deputy running to crowd about Remus.

ATTEMPT TO QUIET HIM.

Remus' own bailiffs, assigned to guard against any outbreak, crowded about him urging him to sit down. Judge Shook ruffled through books angrily as though about to rule against the belligerent Remus. To Sheriff Anderson, who was repeating the Judge's order that he sit down, Remus cried:

"It's the court's privilege but my life is at stake and I know my legal rights."

Romola Remus, the daughter sitting beside her father, tugged at Remus' sleeve and seemed to prevail. Remus sat down contritely. Judge Shook soon instructed the jury to disregard the court's orders to Remus, saying that the court had been under a misapprehension as to the situation. Remus arose and apologized to Judge Shook. He stated he was "under nervous tension at the time."

The furor was precipitated over a question Walker K. Sibbald put to Connors in cross-examination. The percentage of interest that Remus owned in the Jack Daniels distillery was in question.

"Didn't Remus own 63 barrels of this distiller?" asked Sibbald. Connors replied uncertainly: "Wasn't it 60 per cent of the stock?" At this point Remus arose to object, but Sibbald interrupted to ask the court to tell Remus that if he was going to give testimony that he take the witness stand himself.

Washington—(AP)—New storm clouds gathered over capitol hill Tuesday as the new congress, in the second day of its session, assembled to hear the reading of President Coolidge's annual message.

Not only did the presidential message disclose a chief executive standing pat on those controversial subjects which have been the source of his greatest opposition in senate and house, but the senate itself uncovered a new element of uncertainty and political controversy in its own ranks.

Just before the annual message was received at the capitol by messenger to be read to each house separately by its clerks, senate Republicans all but threw down the gauntlet to the group of five western Independents who are demanding certain legislative changes.

Rep. George Remus, the son of the man who was missing nearly two weeks and on her reappearance was said to what Mrs. Van Dorf had sold to her. A 10-year sentence was imposed on each charge. The sentences run concurrently.

Mrs. Van Dorf, who faces a charge of attempting to procure the commission of perjury, was in court and heard her husband sentenced. The charge against her is the result of her alleged attempt to induce the two girls not to testify.

RECOMMENDS DISMISSAL OF STANDARD OIL CASE

Chicago—(AP)—Charges of violating the Sherman Anti-Trust law, contained in a federal suit against the Standard Oil company and 50 other oil companies, are not justified and the suit should be dropped, a master in chancery has recommended to the United States Circuit Court of Appeals.

This development, added to the Smith-Vare case, gives promise of plenty of trouble before the senate actually gets down to business.

The house, however, was in a more serene mood. A few minutes before arrival of the presidential message, in which the president stood four square behind Secretary Mellon's tax reduction program, the ways and means committee formally submitted its tax bill for early house consideration.

Nearly all of the secretary's recommendations were scrapped by the committee in preparing a bill that would accomplish a reduction of \$234,000,000 or \$14,000,000 more than the arrangement by which a farm board would use a revolving fund to prevent

High Lights Of Coolidge Message To U. S. Congress

TAXPAYERS BENEFIT BY CITY MANAGER FORM GOVERNMENT

Two Rivers Manager Tells
Lions of Plans in His
City

City manager form of government as it has worked out at Two Rivers was discussed at the Appleton Lions club meeting Monday noon by Richard Biel, city manager of that city.

The city manager form of government was adopted in Two Rivers two and a half years ago, and in his address Mr. Biel told of the reorganization of city departments and how they have worked out under the new system.

In opening his address the speaker gave a brief resume of what a city manager was supposed to be and what he does not do. A city manager, the speaker said, should first of all be an engineer and secondly an executive with all the elaborate titles of such an individual. The city manager does not act the rôle he is however, for under the plan adopted by the city of Two Rivers the city council of nine men elected at large is the governing body to which the manager is responsible.

HELD RESPONSIBLE

Under the plan of administration it

Two Rivers the council appoints the manager and he in turn is directly responsible for the six major departments of the city government finance, public works, safety, health, outdoor relief and law. All offices under the various departments are responsible to the city manager.

Under the department of finance is listed the city clerk, auditor, treasurer and treasurer department of public works the city engineer superintendent of the light and water department, superintendent of streets and the section of streets of safety, the fire and police chief's department of health, health commission, department of outdoor relief, city physician, probation officer and department of law, city attorney. The city council acts in advisory capacity recommending improvements and changes which the city manager carries out.

COUNCIL GETS CREDIT

The city manager form of government works on the principle that the legislative body as far as possible cannot adequately administer after making laws and recommendations. The city manager is responsible for these things and he is the "goat" if things go wrong. If a program is successful the council gets the credit.

In citing some of the accomplishments of the city manager form of government in Two Rivers Mr. Biel said that in the time he has been there the city's portion rate has been cut from \$1.73 in 1924 to \$1.65 in 1926 and that there would probably be another reduction this year. Two Rivers is assessed at 55 per cent of its actual value, the speaker said, and in making the assessors office an annoyance the assessors office can be held over a long period of years, many faults under the elective assessor system have been eliminated.

SAVE IN PURCHASING

In this connection Mr. Biel said, assessed valuations in Two Rivers are as near correct as possible because assessors feel that they will not lose few votes and their job probably if they give a true assessed value rather than a low one.

All purchasing for the city is done by the city engineer, according to Mr. Biel, and has resulted in a saving of over \$39,000 in the last year. Invoices come with every article bought and in this manner cash discounts can be taken advantage of and the money used for other purposes. Bills are all paid and then passed on by the council. In this connection he cited new sewers were put in at lower costs, fire hose bought cheaper and pavements laid a lot costs.

Sewer certificates are all bought and held by the city to save interest money. Mr. Biel said, cement for paving purposes is purchased by the city for contractors and a tremendous saving is made there.

LOWER TAX RATE

Practically all of the city departments were reorganized under the manager from of government according to Mr. Biel. Departments that showed deplorable lack of efficiency years ago have been made to return to the city several thousand dollars more than their cost. Years ago he said officers were poorly paid and did little as for instance the city clerk who now draws a respectable salary and does work that three persons did before.

**SUES EX-MATE'S WIFE
FOR STEALING HIS LOVE**

Chicago — At — Even before the death of her own husband Mrs. Dorothy Vinton Ruhn of Minneapolis attempted to kill off Mrs. Sam Ruhn in the interests of her mate. So Mrs. Ruhn of Milwaukee, charged in her \$50,000 alimony of effectiveness with which is expected to come up for hearing before Judge W. W. Dickey.

Mrs. Ruhn, 35, in the 17th floor in her home former Milwaukee attorney, and the two Miss Vinton were keepers company before the latter's husband lost his life in a fireman's boat. A month after the fatigued Ruhn secured a divorce the couple were married.

**PAPER COMPANY SERVICE
MEN IN MEETING HERE**

The service department of all the Wisconsin mills of Kimberly-Clark Mills held a general meeting meeting Dec. 12. It was attended at the headquarters of the YMCA. The meeting was preceded by a dinner for the members and their wives at the restaurant. Plans for a new membership drive, at which an increase in the number of members and their wives at the restaurant.

**NEW BUILDING CODE IS
PROGRESSING SLOWLY**

The members voted to go over the proposed building code ordinance which is a small part of its work at a meeting in the city hall Monday night. City officials will be present before the new ordinance is voted to present to the city council for its consideration.

Radio, 7 tube single dial, wall finish console model, 62 inch air column built in. No batteries. \$175 complete installed. Path Auto Shop, Phone 35.

TWO SPEEDERS FINED \$10 IN COURT MONDAY

Two men arrested over the weekend for speeding were fined \$10 and costs by Judge Theodore Berg in municipal court Monday afternoon. They were George Mignon, 22, W. Lawrence st., arrested Saturday night for traveling 34 miles an hour on W. College ave.; Julius Balles, route 11, Neenah, arrested for driving 40 miles an hour on S. Cherry st. Saturday night. Both arrests were made by Officer Fred Arndt.

ARTILLERY BAND TO PLAY CONCERT IN MEMORIAL CHAPEL

Nixon Male Quartet to Sing
and Request Numbers Will
Be Played

Seven instrumental selections, all special numbers chosen from a list of requests from local residents, and songs by the Nixon quartet are included in the program to be given by the 190th Field Artillery band at a concert Tuesday evening at Lawrence Memorial Chapel. The concert will start at 8:15.

The opening number will be a selection from Verdi's opera, *L'Iroviere*, by V. F. Sarafian. In spite of the great strides made in opera-making, the work has been popular and despite its lack of modernism, it is still performed in the largest opera houses of the world. The second number will be the concert waltz, *Symphonia* by Abe Holzman played in memory of the composer who conducted the first grand tournament ever held in Wisconsin.

A novelty number, Six Mill River, read by Harry Turner, from the Vanderbilt Producing company's production of the musical comedy hit, *Glory*, is third on the program. The fourth is *The Waggon King* by Rudolph Frund, a musical comedy selection that comprises all the song hits of the popular show of that name which had a continuous run of over a year on Broadway. Intermission will follow the fourth number.

HUMOROUS SELECTION

The first number after the intermission will be the feature of the program, *The Wedding of Heinie and Karolina*, by Harry Alfred. The selection follows the young couple from the home in a "fiver," through the church ceremony and the honeymoon in the "wild and wooly west" where Indians and beasts enter the scene, through a storm and train wreck, home again and a serenade by friends and the trip is over.

This will be followed by the vocal selection Just a Cottage Small, by the quartet consisting of George Nixon, tenor; Carl McKee, second tenor; Fred Nixon, first bass, and William Johnson, second base. The grand descriptive fantasia, Columbus, by Andrew Herriman will complete the program outside of the closing selection, *The Star Spangled Banner*.

The grand opening fanfare of the selection announces the approach of the king and queen and it is followed by a torchlight parade. The departure of the ship follows, with entertainment on the ocean, a storm, prayer, quietness and melancholy, the return of the crew, Columbus quelling the mutiny, the joy as land is sighted and the greetings from the Indians.

DISCUSS PLAN OF MARKETING TOOLS

Delegates to State Convention
Differ on Handling
Competitive Lines

Milwaukee, Dec. 10 — The question of giving the Wisconsin small farm implement manufacturer a fair opportunity to market his goods was one which delegates to the Wisconsin Implement Manufacturers association prepared to discuss Tuesday.

Should a dealer represent a number of competing manufacturers in one territory? is the question the delegates are being asked to decide.

The answer in the opinion of many delegates is "Yes." They claim the privilege of handling more than one line of implements, averting that the Wisconsin farmer has a liking for machinery of various makes. But a group of manufacturers insist that handing of a single line would be better. To this some of the delegates reply that under the present conditions small manufacturer has as much opportunity to market his product as a large manufacturer. If certain representation were put in, it would mean that many small manufacturers throughout the country and other states would find difficulty in marketing their products.

Congress has plenty of work to do but the outlook is that December will be spent arguing the Vare-Smith election contests in the senate while the house frames a new revenue law for the senate's consideration after New Year.

BANKERS MEET TO TALK OVER THEIR PROBLEMS

No bankers from Appleton or Kimberly attended a conference of bankers of northeastern Wisconsin Monday afternoon at the Hotel Northland, Green Bay, to discuss a possible reduction in interest rates on savings deposits in banks in this state. Among those attending however was Arthur Zuehle, president of the Sheboygan bank, who represented Sheboygan and Black Creek banks. The session was called by Carl F. Schwenker, Madison, state commissioner of banking, and proved to the forest service that the people were becoming conscious of their ownership and rights. The roads were not built. The stopping of the road program in the Superior was a mere trifle compared to results that followed. They did, however, give impetus to a move within the bureau ranks which has resulted in an entirely new phase of national forest use receiving full recognition.

WORLD INSURE POWER

And now appears E. W. Backus, a Minnesota lumberman who has come closer to tying into a knot the resources of the center of the American continent, lying partly in Minnesota, and partly in Canada, than any man ever has or ever is likely to. He already controls the water levels of Rainy and Namakon lakes by means of dams.

He proposes that a series of dams

be constructed at the outlets of various lakes, on the sites of the present natural waterfalls. He wants these dams in order to raise the levels of the lakes and thus use the water so impounded as storage to insure a steady flow through the various power and mill units owned by the Backus interests on the Rainy and Winnipeg rivers, for creation of electric power at the new dams, and to stabilize water transportation! Further he asks that the two governments stand half of the cost of construction! And now the fight is on.

Approximately 50 bankers attended the meeting.

It was pointed out that banks at present are paying such a high rate of interest on deposits and loans money at such a low rate of interest that many of them are finding it difficult to make ends meet.

Most of the 50 who unmet by the banks of Iowa and North Dakota recently, it was said, was caused by the fact that they were living high interest rates on savings deposits and loans were too high.

The conference had been arranged

through the efforts of the Wisconsin

Bankers Association.

**BRING ANOTHER CHARGE
AGAINST INDIAN SUSPECT**

The state department of all the Wisconsin Woods of Kimberly-Clark Mills held a general meeting meeting Dec. 12. About 20 persons attended. For the first time ever all were represented. A. S. Niemi, director of the Wisconsin Woods of Kimberly-Clark Mills, presided.

**KIWIANIANS MEET TO
ELECT 1928 OFFICERS**

Ashtabula, Ohio — The Kiwanis Club of Ashtabula, Ohio, held its annual meeting Dec. 12. About 20 persons attended. For the first time ever all were represented. A. S. Niemi, director of the Wisconsin Woods of Kimberly-Clark Mills, presided.

NIENSTEDT READS PAPER

The Rev. F. J. Nienstedt, pastor of Emmanuel Episcopal church, will read a paper at a meeting of the Fox River Kiwanians to be held at the YMCA Building Dec. 13. The paper will be on the subject of "The Church in the Community." Dr. Nienstedt is to speak on the subject of "The Church in the Community."

**DENIES PLEA TO QUASH
WRIT IN BRIDGE CASE**

La Crosse, Dec. 10 — A motion to discontinue a writ of habeas corpus which was filed in the case of the bridge across the Mississippi river at La Crosse, was denied by Judge W. S. Condie, circuit court judge.

Judge Condie ruled that the writ

should not be granted.

CHI-LO BREAKS UP

Coronado, Calif., Dec. 10 — Earl J. Hargan, 21, of San Jose, Calif., has been sentenced to 10 years in prison for breaking up the Chi-Lo gang.

He was sentenced to 10 years in prison

for breaking up the gang.

REALTY TRANSFERS

"EYES OF THE WORLD" ASSAY MRS. LILLIENDAHL

WISCONSIN STILL WITHOUT HISTORY OF ITS WAR EFFORT

Legislature Has Appropriated
Money for Purpose but
Work Isn't Done

Madison—Wisconsin is still without a history of its world war record, and although the legislature made an appropriation for the compiling of such a work in 1923, a history of Wisconsin's war activity is still far away, according to Dr. Joseph Schaefer secretary of the Wisconsin Historical society.

The 1923 appropriations were made "to provide for the necessary research and for the publication of a history. As a result of this appropriation there appeared in 1925, 'Wisconsin's gold star list,' published by the Wisconsin Historical society, listing the soldiers, sailors, marines, and nurses from Wisconsin, who died in federal service during the world war."

GOLD STAR LIST COMPILED

John G. Gregory compiled the list through the "war history" department of the society, which has since discontinued. Mr. Gregory, author of other books of Wisconsin history, had previously contributed material on the participation of Wisconsin troops in the Aachen campaign.

THE RULES

1.—The idea of letter golf is to change one word to another and do it in par, a given number of strokes. Thus to change COW to HEW, in three strokes, COW, HOW, HEW, BEN.

2.—You can change only one letter at a time.

3.—You must have a complete word, of common usage, for each jump. Slang words and abbreviations don't count.

4.—The order of letters cannot be changed.

Y. M. C. A. DORMITORY MEN TO BE ENTERTAINED

Robert Neller and his doll, Isador, will entertain dormitory residents of the Y. M. C. A. with a ventiloquist act at a dormitory dinner Tuesday evening at the association building.

Plans for a dormitory Christmas party will be started and a report will be made on the interior volleyball tournament to date.

Plans are being made for an attendance of 60 men at the dinner.

UNIVERSITY MEN REMEMBERED

However, the University of Wisconsin will have an accurate history of the war but the bill was vetoed by Gov. Fred R. Zimmerman, and at present neither the state nor the historical society have plans for carrying on such a work.

Y. M. C. A. DORMITORY

Men to be entertained

Robert Neller and his doll, Isador,

will entertain dormitory residents of the Y. M. C. A. with a ventiloquist act at a dormitory dinner Tuesday evening at the association building.

The complete work will be a huge volume in manuscript to be preserved in the new Memorial Union building, and will not be published.

**CONSIDER LEASING
"Y" YARD TO CITY**

Whether the city of Appleton will be allowed to use the Y. M. C. A. tennis courts on the corner of S. Appleton and W. Lawrence sts. for a public parking place will be decided at a meeting of the Y. M. C. A. board of directors at 1:30 Thursday afternoon at the association building. A recommendation of the tennis group of the physical department committee, which was formed in existence through the information published by the department of agriculture, and especially through banks and others who supply credit refusing to finance on acreage manifestly too large.

The complete work will be a huge volume in manuscript to be preserved in the new Memorial Union building, and will not be published.

PLAN FOR MEETING

The executive committee of the Y. M. C. A. was to meet Tuesday afternoon at the Y. M. C. A. to plan for the meeting of the club Wednesday evening. A program for the next few weeks will be started by the executives.

DINNER 11:30 to 1:30

Friday, Dec. 8, M. E. Church.

(Table service).

U.S. TRAILS IN BUILDING OF TRADE SHIPS

Britain Builds 41 First Class Merchant Ships to One in America.

Washington — (AP) — For every first class merchant ship built in the United States since 1921, Great Britain has built 41, Germany 12, Italy 5 and France and Japan approximately four each.

These figures were contained in the annual report of the shipping board made public Sunday, which also showed that its operating loss for the year ended last June 30 was \$16,000,000 as against \$10,000,000 the year before, although the United States lines, which the board operates, had a profit of \$37,000.

The United States lines are the Leviathan, the George Washington, the Republic, the President Harding and the President Roosevelt. They lost \$96,000 before.

ALSO LACK SPEED

Foreign building, the report said, provided foreign competitors not only with more ships but also with faster ones, for the modern trend in shipbuilding all has been in the direction of speed, with economy of operation due to the use of up-to-date machinery.

"We are thus being outclassed not only in tonnage, but also in the character of the service rendered the shipper," the report continued. "More and more are we likely to get the less desirable classes of cargo—the commodities invariably handled by slow ships and with low freight rates."

The board possessed 300 ships, 307 in active operation and 516 laid up, at the end of the year. Since 1921 it has sold to American citizens 1,134 ships, representing 4,993,334 tons, for \$84,411,023.39, including nine established ship line services disposed of on a basis of guaranteed operation for a fixed number of years.

If congress wants the merchant marine turned over immediately to private ownership, substantial government aid will be required, the report said. After holding hearings in 33 cities it found opinion unanimous that the United States should have an adequate merchant marine for national defense and commerce. With almost equal unanimity it was held that this merchant marine should be privately owned. Until it is possible for private interests to successfully own and operate an American marine, the federal government must continue to do so, the board concluded.

PLAN TO STANDARDIZE TEACHING OBJECTIVES

Plans for a standardization of the objectives of high school teachers were discussed at a meeting of representatives of various state teacher's organizations in Madison Saturday. A. G. McLean, Outagamie-co superintendent of schools and president of the state rural teacher's organization, represented that body at the meeting. It is the aim of this committee to provide a standardized plan which will be adopted by all teacher schools in the state. In this manner it is hoped that all graduating teachers will have the same objectives in view, even though the method used in reaching the objective is different. John M. Callahan, state superintendent of schools, was elected permanent chairman of the committee and it was decided to hold another meeting in Madison sometime in January.

HIGHWAY COMMITTEE TO OPEN EQUIPMENT BIDS

Bids for snow removal equipment will be opened at a special meeting of the county highway committee at the courthouse Friday afternoon. Bids for several new plows, two trucks and approximately 30,000 feet of snow fence have been sought. After the bids are opened and the contracts awarded if the prices are satisfactory, the members of the committee will discuss a plan for keeping all the highways clear. It is proposed to establish five districts in various sections of the county for snow equipment. After snow storms, crews will start from each of the five points and in this manner, it is believed, the roads will be opened to traffic much sooner than if all the equipment was quartered at one point.

Loosen Up That Cold With Musterole!

Have Musterole handy when a cold starts. It has all of the advantages of grandmother's mustard plaster without the burn. You feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief.

Made of pure oil of mustard and other simple ingredients, Musterole is recommended by many nurses and doctors. Try Musterole for bronchitis, sore throat, stiff neck, pleurisy, rheumatism, lumbago, cramp, asthma, neuralgia, congestion, pains and aches of the back or joints, sore muscles, colds of the chest. It may prevent pneumonia and "flu."

Attorney General Shows Queer Twists In U. S. Law

Washington — (AP) — Some queer twists in the laws were submitted Monday in the annual report of Attorney General Sargent who submitted numerous recommendations for speeding up justice and relieving the clogged calendars in federal courts.

The attorney general pointed out that while it was a federal offense to assault, beat or wound a United States officer, it was not a federal offense to kill him, and the department of justice wants this situation corrected.

Among recommendations contained in the report was one that the law be amended to permit speedy removal from one district to another of persons indicted for federal crime. Another would authorize the presence of a stenographer before grand juries and still another would increase the number of federal judges.

In her report on prohibition enforcement, Mrs. Mabel Walker Willebrandt, assistant attorney general, said that approximately six million dollars in federal judgments, fines and penalties were imposed during the year and there was a "definite increase in the percentage of fines collected."

The records showed a very substantial increase in civil court business and a noticeable decrease in criminal business under the national prohibition act, she said. The aggregate amount of judgments in favor of the United States was \$252,097, or \$34,612 more than the year before, while criminal prosecutions showed penalties of \$5,640,709 or about \$1,847,845 less than the previous year.

Trials by jury as well as pleas of guilty fell off during the year while

the number of prosecutions instituted and later dismissed remained about the same.

Rum runners, the assistant attorney general said had changed their chief base from Canada because of the new Canadian regulations and on the east coast were conducting extensive operations from the French islands of St. Pierre and Miquelon and on the west coast they are experimenting with the Society Islands as a base.

The main source of smuggled liquor, she added, was by means of small, speedy American craft that originated from foreign ships and oceanic bases and were able to elude government craft by their speed. During the year 320 American rum running vessels were seized compared with 359 for last year.

J. Edgar Hoover, director of the Bureau of Investigation, the police section of the department, reported that his bureau had procured during the year ten life sentences, other sentences aggregating 7,000 years, fines totaling \$1,149,045 and recovered property valued at \$6,014,483. His bureau operated on an expense of \$2,112,860, the smallest since 1923.

The records showed a very substantial increase in civil court business and a noticeable decrease in criminal business under the national prohibition act, she said. The aggregate amount of judgments in favor of the United States was \$252,097, or \$34,612 more than the year before, while criminal prosecutions showed penalties of \$5,640,709 or about \$1,847,845 less than the previous year.

Trials by jury as well as pleas of guilty fell off during the year while

STATE CONTROL OF INDIANS IS URGED

New Measure Would Provide for State Agencies Handling Their Funds

Washington—A bill to authorize Secretary of the Interior Work to enter into contracts with the states whereby the latter would take over the administration of Indian affairs is urged in the annual report of Secretary Work.

The measure would provide that the state agencies would handle the funds provided by the federal government "under proper safeguard." Secretary Work points out that many state boards of education, health, agriculture and welfare are well equipped to take over the administration of Indian affairs.

"This method would tend to make the Indians a part of the body politic," Work declares, "rather than encourage the isolation which now characterizes the government's method of Indian administration."

CONFER IN WISCONSIN

During the present fiscal year, according to Charles H. Burke, commissioner of Indian affairs, whose secretary is incorporated with the secretary's, federal and state officials will hold conferences in Wisconsin to at-

tempt to assume a share of the responsibility of preparing the Indians for full citizenship.

Greater appropriations for the Indian service are asked by Work, who points out that the Indian population of the country is 554,940. These are divided into 193 tribes living on 290 reservations in twenty-eight states.

There are 11,622 Indians in Wisconsin, of which 2,587 are full blood. These are divided as follows: Menominee, 1,241; Oneidas, 2,376; Stockbridge and Munsee, 606; Potawatomi, 743; Rice Lake Chippewas, 1,160; Red Cliff Chippewas, 587; and Winnebagos, 1,368. Of the Wisconsin Indians eligible to attend school, 1,619 are enrolled and nine are not. The five civilized tribes have a population of 101,306.

HOLD VALUABLE LANDS

The total individual property of the Wisconsin Indians amounted to \$4,606,495. The total individual and tribal property amounted to \$15,527,125. The Menominees were the richest group, owning \$11,120,708 of the total tribal and individual property.

Immediate disposition of all public lands in Wisconsin situated within three miles of the shores of Lakes Michigan and Superior and all located near meandered lakes is urged by Secretary Work.

According to the report of the secretary the land area of Wisconsin is 55,365,819 acres and the water area

WILL LET CONTRACT FOR REPAIRING COUNTY BOOKS

Plans for repairing the county records will be made at a special meeting of the buildings and grounds committee at the courthouse Thursday afternoon. Supervisor John Niesen of Kaukauna, a member of that body, was in Milwaukee last week and secured prices from several companies which do this type of work and it is expected that the committee will let the contract Thursday. The county board appropriated \$1,000 at its recent annual meeting for this work. The committee also will take the necessary steps to secure the title to the property adjacent to the Ottagamee Rural Normal school at Kaukauna which is being donated to the county by the Timmery Pulp and Paper company.

A mule that strayed away from an army post in Panama was found 47 days later in a ten-foot hole, with saddle and bridle still on. He had subsisted on vegetation that grew in the hole.

is 518,490 acres, making a total under the state of 62,664,690 acres.

Wisconsin is one of the few states which has been completely surveyed. There are still 521,338,670 acres in the country which have never been surveyed.

FRIDAY LAST DAY FOR REFERENDUM BALLOTS

Members of the chamber of commerce have been urged by Hugh G. Corbett, chamber secretary, to return their ballots on Referendum No. 31 of the national chamber of commerce by Friday, if they wish to have them counted. Friday is the final day as the ballots must be canvassed and the local vote sent to Washington, D. C., by next week. Because of this rule, no ballots returned to the local chamber after Friday will be counted, Mr. Corbett said.

A total of 70 votes, a record, were returned within two days after the ballots were sent out, but since that time they have been coming in slowly, Mr. Corbett said. The referendum is on flood control on the Mississippi River.

PILES TREATED and a Cure Guaranteed

Any form of Piles (itching, Blind, Bleeding or Protruding) and dangerous if neglected. Dr. L. L. Ladd, 100 W. Main Street, P. O. Box 100, will treat them with the understanding that money will be refunded if it fails to cure. In tubes with pile pipe, 75¢; or in tin box, 60¢.

NEWS OF NEENAH AND MENASHA

SOCIETY

ONE BUILDING, NOT
TWO, TO HOUSE HIGH
AND TRADE SCHOOLS

Plans for Structure Are Submitted at Educational Board Meeting

Neenah—The proposed new senior high school and vocational school will be all in one building, in new sketches submitted by Architect Chubb Chubb, Monday evening at the monthly meeting of the board of education. Mr. Chubb submitted three preliminary sketches of revised plans which would come within the money available to erect a high school building, estimated at about \$300,000. The plans were examined by the board which authorized Mr. Chubb to complete the one which they selected. The new plan calls for the gymnasium-auditorium which will do away with an extra building. Vocational and academic departments will be under the same roof.

Milk will take the place of oranges as the daily lunch in the lower grades, it was said in a report by Ada Garvey, school nurse. The milk lunch will be next year. The report showed public health here is good. A motion was adopted to pay all school employees before the Christmas vacation. Fifty-five bills amounting to \$15,752.02 which included salaries and payment of \$5,000 on the new McKinley school building, were authorized.

There has been a gain of 95 pupils in the public schools since the opening of the school year in September, according to a report on enrollment presented by Superintendent C. F. Hedges.

The enrollment:

	Sent	Nov 23
High school	420	419
Washington	420	429
Lincoln	336	326
Roosevelt	351	358
McKinley	129	148
Total	1506	1548

NEENAH SOCIETY

Neenah—Kimberly-Clark office employees are making arrangements for their second annual dancing party to be held on the evening of Dec. 13 at the Young Women's club. Committees have been appointed.

The Evening Birthday club surprised Mr. and Mrs. Henry Kramer Sunday evening at their home on Third street to celebrate their seventeenth wedding anniversary. A supper was served after which the evening was spent in playing cards. Prizes were won by Mrs. Gilbert Rawl, William Swentner, Mrs. Swentner, Albert Jung, Mrs. Miller Robinson and Gis Blank.

Earl Thompson was elected worshipful master of Elks' Kent Lodge of Masons at a meeting Monday evening at Masonic temple. Other officers elected were James Reilett, senior warden; Alvin Staffel, junior warden; Owen Jones, treasurer; John O. Roberts, secretary and Frank Mac, trustee for three years. Installation will be conducted at the Dec. 27 meeting.

BURNSIDE SELECTED AS BASKETBALL REFEREE

Neenah—George Burnsides of Neenah is included in the list of referees assigned to officiate during the basketball season. The selection was made Saturday at a Conference of Fox River Valley coaches held at Fond du Lac. Coaches Christopher and Denny of Appleton, will work in games where Oshkosh is concerned. The complete slate of conference arbiters is Wite of Appleton; Christopher and Denny of Lawrence college; Appleton; Sutherland of Marinette; Wright of Oshkosh; Neu of West Green Bay; Poehling of Ripon; Burnsides of Neenah; Miller of Milwaukee; Zussman of Appleton and Johnson of Manitowoc.

LEGION ENTERS TEAMS IN BOWLING TOURNAMENT

Neenah—The American Legion at its monthly meeting Monday evening in S. A. Cook armory decided to enter several bowling teams in the state tournament which is to be held in March at Green Bay. A committee, with Ray Vanderwalker as chairman, was appointed to organize as many teams as possible. An effort will be made to increase the post membership to 300. The committee appointed some time ago to conduct a drive reported that the work was progressing. Following the meeting a caterina lunch was served to the Legion auxiliary. Cards were played after the supper.

OSHOKSH MAN HEAD OF VALLEY SAFETY MEETING

Neenah—John H. Kimberly of Oshkosh, formerly of Neenah, was elected general chairman of a committee of Fox River valley safety council at a meeting Saturday evening in Oshkosh. Arrangements for the fourth annual safety conference which will be held June 27 at Oshkosh, were started. Mr. Kimberly will be assisted by a group of seven other members which will include W. W. Johnson, Kimberly, W. E. Schatz, Elmer P. Rider, O. L. Schatz, W. J. Johnson, E. L. M. Schatz, O. L. Johnson, and divisional and George Neenah, a woodworker, as co-chairmen. The group of six will be responsible for the meeting. A total of 1100 men, 300 from each of the two cities, will be present. The first meeting will be held in Oshkosh, W. L. Johnson, president of the Oshkosh Kiwanis club, will preside. The first meeting will be held in Oshkosh, W. L. Johnson, president of the Oshkosh Kiwanis club, will preside.

NEENAH GRADE SCHOOLS DEPOSIT \$110 IN BANK

Neenah—A total of \$110.17 was deposited Tuesday morning at the four grade schools by 620 pupils during the weekly bombing period. However, school with its fifth, sixth, seventh and eighth grades had a total deposit of \$114.74 by 240 pupils. Washington school reported \$85.15 deposited by 144 pupils. Lincoln school with its fifth, sixth, seventh and eighth grades had a total deposit of \$114.10 by 240 pupils, and McRae school with third, fourth and fifth grades had a total deposit of \$106 per cent, reported \$83.10 by 360 pupils.

METHODIST MINISTER TALKS TO NEENAH CLUB

Neenah—Rev. T. J. Rydell, pastor of Methodist church, was the speaker at the annual meeting of the Neenah club at the First Methodist church Monday evening. The speaker gave a talk on the subject of "How to Handle Men." The speaker advised that there were more than 100 men in the audience and professional men.

NEENAH
BOWLINGSELLER PRESIDENT
OF KIWANIS CLUB

Luncheon Club Members Prepare for Safety Campaign This Month

Neenah—Dr. T. J. Seiler was elected president of the Kiwanis club Tuesday at the weekly noon meeting and luncheon at the Valley Inn. Other officers elected for the year were George E. Sonde, vice president; William Campbell, treasurer and E. G. Hubert, district trustee. Seven directors will be elected. Final arrangements for the carrying out of the safety week program with the Menasha Kiwanis club were made. An effort will be made to induce every automobile driver in the Twin Cities to have the brakes of his machine examined and adjusted. Guarding the lives of children was the topic for discussion.

NEENAH
PERSONALS

Neenah—Ambrose Owens, Byron Schreiber and Miss Marion Elliott were in Oshkosh Monday evening to take part in the production of "Smiles" given by the Episcopal church at Fischer theatre.

Mrs. H. A. Luske and son have returned from a two month visit with relatives in California.

George and Louis Hanson who have been visiting relatives here the last three weeks, left Monday for their home at Palo Alto, Calif.

Mrs. Kimberly Stuart has returned from a visit in the east.

Mrs. Hattie Besser of Milwaukee, is at the home of E. A. Bessex, her son, to spend the winter.

Lucille Fredericks and Jennie Sorenson spent Monday evening with relatives at Oshkosh.

Everett Brandow submitted to an operation Tuesday morning at Theda Clark hospital.

A son was born Tuesday morning to Mr. and Mrs. M. J. Hren, route 14 Larsen.

Edward Labombard is at Theda Clark hospital with injuries received while at work at Burstein waste factory.

WOMANS BENEFIT GROUP ELECTS NEW OFFICERS

Neenah—Mrs. Minnie Eisenach was elected president of the Womans Benefit Association at a meeting Monday evening in Danish Brotherhood hall. Others elected were Caroline Bergmann, vice president; Florence Knaggs, past president; Ruth Babbitt, junior supervisor; E. Wilbur, secretary; Edna Ihrig, press correspondent; Elizabeth Aude, treasurer; Mary Owen, financial secretary; Mary Rollins, chaplain; Hannah Peterson, lady of ceremony; Florence Henning, sergeant at arms; Myrtle Merkley, outer hostess; Alice Maletoff, inner hostess; Elsie Skendore, musician; Marie Heany, musical director; Marie Heany and Alvina Hartzheim, color bearers.

POLICE ISSUE WARNING AGAINST PETTY THEFTS

Neenah—A series of petty robberies during the last few nights has prompted the police department to issue warnings to people to keep valuable under cover. The robberies consisted of articles from autos parked about the city, refrigerators, clothes lines and articles left upon back porches.

TWIN CITIES PICKED FOR FRATERNAL MEETING

Neenah—Neenah-Menasha has been selected as the site for the next Odd Fellow meeting which will be held in March. Appleton was selected as the place for the next district meeting, which also will be held in March. The selection of the next meeting places was made Saturday evening at the annual district convention held at Oshkosh. A large delegation from Neenah, Menasha and Appleton attended the convention.

TWIN CITY DEATHS

MILTON CHRISTENSEN

Neenah—Milton Christensen, 12, son of Mrs. Zena Christensen, died at 1 o'clock Tuesday morning at his home in Carthage. The boy had been an invalid practically all his life. His mother is the only survivor.

CONSIDER BUDGET

Neenah—City finances are to be reviewed Wednesday evening at the monthly meeting of the council when the budget for the coming year will be made up.

"GOLF" BUCK ILL

Neenah—H. D. "Golf" Buck will be a Miami, Fla., hospital patient indefinitely, according to a report received here.

He suffered a heart attack Dec. 1, 1926, while playing golf at the University of Wisconsin.

He was admitted to the hospital Dec. 1, 1926, and has been a patient ever since.

GIRL CAGERS IN GAME

Neenah—A local ball game between the Appleton and Neenah Young Women's clubs will be played at 7:30 Wednesday evening at the club hall.

The Girls' cagers association will conduct a bridge and poker evening at the club, to which the public is invited.

SHIP CAR OF FIRE

Neenah—The car of Walter E. Cook, pastor of First Presbyterian church, was set afire at the first meeting of the Neenah club at the First Methodist church.

Short fuse were used to start the fire.

A Lecture
On
Christian Science
Entitled
**Christian Science and
the Winning Christ**

By

Rev. Andrew J. Graham, C.S.B.
Of Boston, Massachusetts

Members of the Board of Lectureship
of The Mother Church, The First
Church of Christ, Scientist,
in Boston Mass.

TESTIMONY OF HEALING

In the human measurement of time, fifteen years have passed since I was instantaneously healed through Christian Science; and it seems but a day. Three and a half years of peridotical suffering and mental distress had overwhelmed me; terrors were on every side; hope and courage were well-nigh dead. Those who had known me for years never would have dreamed that I would turn to Christian Science. I myself saw nothing beautiful or winning about it, and my only words about it were words of condemnation. It may be of help to some who are sick weary and heavy-laden—and I was all that—to know that when I was healed in Christian Science I had no faith in it whatever. I believed it was a fraud, and I thought I hated it. I did not willingly receive treatment, but seemed to have been drawn into it by divine Love. But when that healer came, physical pain and fear and anguish fled, and the pledge of the prophet appeared with striking reality: "Thine eyes shall see the king in his beauty" and the vision of the "land that is very far off." The beauty and joy which I saw in Christian Science on the day of healing have not dimmed with the passage of years. Never by the space of the wink of an eye has confidence in it been shaken. Not only have I found Christian Science beautiful and winning, as to love, but winning also as to logic. It stands the closest test of reasoning and not only meets one's spiritual aspirations, but also satisfies his intellectual demand for God. Christian Science clarified thought and enabled me to see very clearly that either there is no unyielding problem among men or God is not omnipotent. Multitudes of men and women have had courage renewed, and joy and peace and health restored, and understanding given through Christian Science, after it had seemed that all was hopeless.

CHRISTIAN SCIENCE HEALING

To mankind in general Christian Science appeals for the same reason that Jesus' work appealed to the early Christian, that is, its feature of physical healing. The vast majority of people who appealed to Jesus for help desired relief from physical suffering. It is a precious commentary on Jesus' work that he seems never to have criticized such appeal. Sickness is unnatural, for God is not its cause. It is abnormal to man and it is always right to seek to be rid of it and always wrong to think that it cannot be destroyed. A correct view of the unreality of sickness follows as an inevitable conclusion from a correct view of man. Man made in God's image and likeness is forever unfallen. The very essence of the definition of Truth is that it can never become a lie, nor the life ever become death, so man can never become less than man. Any quality, attribute, or characteristic which is unlike God is no part of man and is unreal. It is an excrecent thought or belief or illusion, and can be put off. When one sees and accepts a thing as true, he cannot see and accept its opposite as true. In the realization of man as unfallen, sickness fades away. Christian Science healing is the overcoming of disease by the same method which Jesus employed, that is, by understanding and utilizing the infinite power of God, who, according to the Psalmist, healeth all our infirmities.

Christian Scientists abide by the fact written in the Bible that "the effectual fervent prayer of a righteous man availeth much." In one of her books, "Miscellaneous Writings," page 98, Mrs. Eddy says of Christian Science healing: "It is not one mind acting upon another mind; it is not the transference of human images of thought to other minds... It is not of the flesh... It is not one mortal thought transmitted to another's thought from the human mind that holds within itself all evil... It is Christ come to destroy the power of the flesh; it is truth over error." This definition of Christian Science healing is a partial exposition of Jesus' words: "Ye shall know the truth, and the truth shall make you free."

To those who feel the need of healing it may be said that a sincere and obedient thought will do much toward placing them in a receptive mood, even though they know nothing of Christian Science. The ordinary method of procedure is to seek a Christian Science practitioner through a list of names always found in the current number of The Christian Science Journal. However, many persons are healed through simply reading the textbook of Christian Science, "Science and Health with Key to the Scriptures." Healings are often experienced at Wednesday testimonial meetings and not infrequently we learn of persons being healed at Christian Science lectures.

Perhaps it may be helpful to mention one such case. When lecturing abroad a few years ago a barrister and his wife attended a Saturday lecture and another the following Sunday afternoon. The lecturer did not know of the incident here related, until six weeks after its occurrence, when he received a letter from the barrister, containing substantially the following: "Dear Sir: My wife insists that I should write you about my healing. When you lectured at—about six weeks ago, my wife and I attended the Saturday afternoon lecture. Perhaps you will remember us as we both have gray hair and sat on the front seat left hand. When we entered the church we were both feeling quite poorly but seemed entirely free when the lecture was over. On the way home I said to my wife I was feeling so well I believed my rapture was healed. On reaching home I removed the support I had been wearing and found no rapture. The next afternoon we started to your lecture again. My wife went into the church but I would not enter. Instead walked about and as I was

walking it dawned on me that in some way the lecture had something to do with my healing. And so my wife insists that I should write you about it, but I want you to know that I do not believe it was you who healed me, but God." This letter showed that the man was not only healed of rupture but also was healed of leaning on personality. Christian Science healing is the vestibule of heaven.

WORK IN CHRISTIAN SCIENCE

The activities in the Christian Science movement are peculiar, unique. The work of the genuine Christian Scientist is not done from the push of duty, but from the winning power of love. The Christ power is a drawing power; the kingdom of heaven is not taken by violence. What we used to call missionary work, in the old methods, is taken care of in Christian Science by the quiet distribution of literature, through the opportunities afforded by the Christian Science Reading Rooms, and by the Christian Science practitioners. The work is done unobtrusively. People accept Christian Science because they are hungry, not because it is forced upon them. The purpose of Christian Science is not primarily to add members to the church, but to offer the opportunity for health and peace and usefulness. It does not demand something, but seeks to bestow. This is genuine missionary work. The word "missionary" comes from the Latin motto, to send out. All the physical activity in the world which does not behind it the activity of right thinking about God and man, is void of good. The unselfish, loving healings performed by Jesus were the best religious advertisement ever published abroad. And the marvelous influence of the Christian Science movement, and its quick and increasing acceptance by mankind, grow out of the love and unselfishness of individual Christian Scientists.

It may be well for the sake of the strangers present to enlarge somewhat on the missionary agencies of Christian Science already mentioned.

1. The literature distribution. Foremost in this department is the textbook, "Science and Health with Key to the Scriptures," the healing influence of which has already been alluded to. The periodicals established by Miss Eddy, The Christian Science Journal, Christian Science Sentinel, and The Christian Science Monitor, are informing, elevating, and healing with every issue. To those desirous of learning about Christian Science these periodicals are of great value, for a considerable proportion of the people healed in Christian Science were led to this truth through reading some article or testimony of healing in one of these publications.

2. The Christian Science Reading Rooms are quiet centers of great missionary activity. I myself approached Science through the door of a little Reading Room in Oxford, England. If a stranger desires information about Christian Science or seeks a practitioner for special help, he may find supply for both needs through the attendant in a Reading Room.

3. Christian Science practitioners, striving to do as Jesus commanded, in healing the sick, are the busiest missionaries in the world. A practitioner who heals one case in a year has set in operation a missionary power which will reproduce itself over and over again.

The joyous activity in the Christian Science movement is largely due to the fact that its adherents are not primarily urging people to join the Christian Science church, but are just seeking to awaken them to some realization of the blessed fact that there is a balm and a healing for their sorrows, their sicknesses, and sins, here and now, and this is the elemental work of Christian Science practitioners.

FROM DARKNESS TO LIGHT

The loving acceptance of and willing obedience to the divine Principle of Christian Science carries one out of the valley of depression into sunlight and peace. Jesus sojourned for a period in the wilderness. Mrs. Eddy gives two definitions of this word on page 597 of Science and Health: (1) "Loneliness: doubt; darkness." This is the mortal mind definition. (2) "Spontaneity of thought and idea; the vestibule in which a material sense of things disappears, and spiritual sense unfolds the great facts of existence." This is the Christian Science definition.

Human beings, from the very nature of their beliefs are subject to many distressing experience. Discouragement, seeming loss, separation, grief, and anguish assail them. One does not free himself from these painful situations by saying they are unreal, but by knowing it. This knowing is the precious gift of Christian Science to him, who, in great need, knows not where to turn save to God. Some years ago, while visiting one of our large penitentiaries, I had a visit with a man who was condemned to execution on the gallows. He was a murderer, but during the months of confinement he had learned Christian Science and there was no murder left in his heart. His manner was perfectly composed and peaceful. He talked as quietly and confidently about Christian Science as though no shadows were impending. We conversed for half an hour and I went away with a strong sense of affection for the man who seemed so free in the truth. As I left the grounds my companion said: "You would hardly believe that the man with whom you have just visited had about an hour before you saw him received a message that the petition for pardon had been refused by the governor, and the day set for the execution." Yet in the man's talk with me, nothing but Christian Science was mentioned. This man, through Christian Science, had come to see that he was God's child, pure and unfallen. He was so filled with gratitude and the sense of life that he had no time to think of life's unlikeness. This power to lift one out of the valley and set his feet upon the rock is Christian Science demonstrated.

Pertinently then rises the question of our Saviour: "Why seek ye the living among the dead?" The gentle life-bearing, peace-bearing Christ, as taught and understood in Christian Science, rules even so-called death and the grave of their vaunted victory.

"For suddenly the worst turns the least to the bravest.
The blind voices that rave,
Shall dainful, shall blend,
Shall change, shall become first
A peace out of pain,
Then a light,
And with God be the rest!"

FAMILY QUARRELS ARE BLAMED FOR MURDER SUICIDE

Of 19 Murders and Accompanying Suicides in Two Months, Three Are Unsolved

Milwaukee—(UP)—Murder and accompanying suicides have taken a toll of 19 lives in Wisconsin during October and November, records compiled today by the Associated Press show.

Of the 13 murders, three were attributed to family quarrels, three to love affairs which ended in the suicide of the slayers, and the others to

causes ranging from anger after arguments to insanity, despondency, and robbery.

In three instances, ineffective clues have been found to the murderers. The mystery of the slaying of Helen Lang, 14, at Portage; of Lillian Graef, 19, at Milwaukee, and of John Korba,

56, near Rhinelander, still being unsolved. A fourth unsolved murder was cleared up when Alvin Greenwald, 38, Mt. Horeb bootlegger, confessed that he hired Arthur Betzhold, 24, Milwaukee taxi driver, to choke his wife, hoping to collect on her \$10,000 insurance policy.

Murders in Wisconsin during October and November follow:

October 1—Herbert E. Peters, 26, West Allis farmer, killed by Henry Mantefal, 48, mentally deranged laborer who committed suicide.

October 15—Mrs. Rudy Oettel, 26, of Rice Lake, killed by Harold Nord,

23, also of Rice Lake, who committed suicide.

October 27—Frank Bastile shot at Cranendon, "Squire" Ritchie, of Cranendon, to be tried on charge of slaying Bastile next spring.

November 1—John Korba, 56, of Friendship, found shot in the head near Rhinelander, Wis., with \$300 in cash gone. Murderer not found.

November 3—Lillian Graef, 19, found choked after being taken on a blind date by a young man named "Jack," who is still missing.

November 8—Mrs. Emma Greenwald, 35, Mt. Horeb, choked to death by her husband, Alvin, 38, and Arthur Betzhold, 24, his accomplice. They were sentenced to imprisonment.

November 14—Helen Lang, 14, year-old high school girl, found shot in the head at Portage. Her slayer is unknown.

November 15—Fred L. Schulze, 35, shot and killed his wife, Emma, and

fatally wounded Gordon Goetzinger, 16, at Milwaukee. Schulze tried to take his own life and was blinded by the action.

Harrel Parker, Negro, killed by another Negro, William Brown, at Milwaukee.

November 19—W. J. McNeil, Stevens Point grocer, shot and killed his daughter, Margaret, 6, and son, William, 9, and then attempted to take his own life. He is held on a murder charge.

November 23—Gust Zeller, 38, mediator in a family quarrel, shot and killed at Milwaukee by Arthur Stern, who died later from a self-inflicted wound.

Richard Karge, Ixonia, Wis., 24, shot and killed Florence Sprecher, 27, at Milwaukee, and then committed suicide.

Gust Olson, 30, at Superior, shot and killed Julia Culm, 25, then committed suicide.

STATE GAINING IN

SCIENCE GRADUATES

Madison—(UP)—The University of Wisconsin conferred next to the largest number of degrees as doctors of science in 1926, according to an article by J. McKeen Cattell in the current number of *Science*. Wisconsin gave 53 degrees while the University of Chicago led with 78.

The increased prestige of the west and of the state universities in science is shown, for Mr. Cattell points out that prior to 1910 seven eastern universities granted three-fourths of all the degrees granted. In 1926, these same universities granted fewer degrees than seven state universities of the central states and California.

Wisconsin university ranks ninth in the number of distinguished scientists on her staff. Harvard, Chicago,

Columbia, Yale, California, Johns Hopkins, Cornell, and Michigan exceed Wisconsin in the order noted.

Native sons of Wisconsin are not lacking in scientific ability, Mr. Cattell points out, for Wisconsin has produced 21 of the men whose names have been added to the Biographical Directory of the Men of Science since 1910, ranking seventh among the states as producers of scientists.

Eighteen of those named from Wisconsin took their doctor's degrees here.

REAPPOINT MR. ESCH

There will be a vacancy on the Interstate Commerce commission the first of January which is of importance to Wisconsin and the Northwest. It will be caused by the expiration of the term of John J. Esch, member from this state. Mr. Esch is one of the most valuable members of the commission by reason of his long experience in congress and as a member of the house committee on interstate and foreign commerce, making him an authority on the intricate problems of the nation's commerce, with an intimate knowledge of such matters in the northwest.

This section of the country is constantly involved in proceedings before the Interstate Commerce commission touching freight rates, which are of vital concern to its development and prosperity. In many cases, notably those touching coal rates, it is more or less on the defensive. It is in danger of having its interests adversely affected by the imposition of rates and differentials which tend to destroy rather than promote sound competition between the great coal producing sections of the country for this market.

It is not to be inferred that Mr. Esch is or would be a partisan to the claims of the Northwest in questions of this kind, for he must and does represent the nation as a whole, yet it should be kept in mind that his usefulness to the Northwest as a member of the commission lies considerably in the direct information he necessarily possesses of its industries and commerce. The commission as a whole is organized with reference to such sectional information and residence, all portions of the country, from coast to coast, being represented in its membership.

Wisconsin and the Northwest should naturally desire the reappointment of Mr. Esch to the place he now occupies on the commission. No state in the Union is more directly affected by changes in freight rates and the problems constantly presented by applications to the commission for rate revisions. We ought, therefore, in this state to unite and urge upon President Coolidge the reappointment of Mr. Esch. We are certain a continuance of his services in this capacity would be satisfactory to the portion of the country he now in a sense represents. It would be well if chambers of commerce and business men generally throughout Wisconsin would draft resolutions indorsing Mr. Esch and use such other means as may be proper to bring the matter to the attention of the president or those who have influence with him.

THE NEW MORALITY

"The new Morality," says Dean Inge, "will have nothing to do with the old saying that where God sends mouths He sends meat. We cannot throw onto the Deity the responsibility for bringing unwanted children into the world and leaving them to the state to clothe, feed and support by outdoor relief. The morality of birth control depends upon the motive."

The dean of St. Paul's is not orthodox and his beliefs, while certainly shocking to many, are obviously in accord with other manifestations of the times. Especially is this true in the matter of birth control. There was a time, not so far distant, when the mere mention of the phrase was an offense. Today it has become a subject for serious consideration individually, nationally and internationally. And Dean Inge is only one of numerous prominent persons high in science, state and church who are, both publicly and privately, aware of its imminent importance.

To the old morality birth control is a crime base and revolting. It answers the question of the jobless needs with the assurance that it is the will of God. Who positively knows the will of God? And in the absence of absolute knowledge how dare we presume to lay at his door the re-

sponsibility for hunger, sickness, sorrow and death?

The new morality holds that to bring into the world children for whom we cannot adequately provide is a crime base and revolting and that birth control in this instance is a moral duty. And the new morality has gained a large and influential following. In any event, the question has assumed an importance that forbids it to be put aside without serious consideration.

FEDERAL SHIPS

Government operation of ships is both lauded and assailed. It is held by many that the Shipping board's investigation of a year ago produced abundant proof of the overwhelming desire of the American people for a merchant marine privately owned and operated. Defenders of government operation of ships point out that the government took advantage of an emergency created by the World war to assure American shippers transportation of their goods at reasonable rates and has built up a fleet that would be ready in a national emergency. Likening the government's action to that of the United States Steel corporation at the start of the century when, at the mercy of foreign ships, the corporation organized its own fleet to be in a position to contract for delivery of its goods with assurance that such contracts could be fulfilled at reasonable cost.

Captain Warren S. Purdy of Washington, assistant to Gen. A. C. Dalton, vice president of the Shipping Board Merchant Fleet corporation, makes the statement that government ownership of the ships has not cost the American people a single dollar. The peak of expense has been passed, he says, and the cost of government operation is steadily dropping, while the service is improving. A profit has not yet come because wages are maintained at a high level, men are not readily available for sea service and the building up of a large fleet from a starting figure of twenty ships must suffer an initial period of loss.

It is Capt. Purdy's opinion that the obstacles that have been put in the way of the Shipping board have been put there by interests "not primarily American," and that American importers "have not been entirely cooperative."

On the other hand few men with good business judgment have confidence in the ability of the government to operate a merchant marine economically, efficiently and profitably. Nine out of ten of them are convinced it cannot be done. The tolls and interferences of politics are too great. In the face of large operating deficits, private capital is not anxious to go into the business, yet there is hardly any doubt that if we are to have a really successful merchant marine which keeps pace with foreign competitors in growth, service and traffic, it can only be had through private ownership.

The insuperable difficulty so far has been to create a condition which would invite the investment of capital in the enterprise with even a reasonable prospect of profit. It is solely a question of reducing topheavy overhead to which American shipping is subjected, as compared with that of rival fleets. In the meantime, and until a transfer of ownership is feasible, the government should, of course, continue to operate the nucleus of an American merchant marine created by the war. We should not give up that potential mercantile and defense advantage because of deficits. In other words, we should carry the load until a satisfactory solution of the problem is evolved.

OLD MASTERS

He is gone on the mountain,
He is lost to the forest,
Like a summer-dried fountain,
When our need was the sorest.
The font respawning
From the mountain still flows,
Doubt us comes no drought,
To Duncan no morrow!

First foot on the corner,
Safe Counsel on summer,
Red hand in the frost,
How sound thy timber!
Like the dew on the mountain,
Like the foam on the river,
Like the bubble on the fountain,
They are gone and forever!

Health Talks

BY WILLIAM BRADY, M. D.
Noted Physician And Author

Dr. Brady will answer all signed letters pertaining to health. Writer's names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

THE BREAD AND MILK CLUB REDIVIVUS

An inquiry from an old reader printed here October 14, has revived the Bread and Milk club. This reader said he had gained much from his membership in the club 8 years ago and his doctor had approved of it when he found the blood pressure reduced. Also the reader's silhouette had been improved, so his wife testified. Finally, to make an all around sang up testimonial, our friend declared that since practicing the simple tenets or rules of the club he no longer suffers from bilious spells (whatever they may be).

We invited readers who are just scared but not sick to join the club. I am afraid we did not give a hint about the joys of membership by casually mentioning a flock of most attractive symptoms—e. g. "stomach trouble," "liver complaint," "gas," "biliousness," " acidity," "auto-intoxication," "indigestion" or what have you and then, to take the curse off this atrocity, we added a veiled insinuation that people complaining of these fond symptoms are perhaps in the preneuritic stage of cardiovascular degeneration, the incipient stage of arteriosclerosis, or the beginning of slow heart failure. One can crowd a tremendous amount of anxiety into a few lines like that.

The by-laws of the Bread and Milk club are yours for the asking, provided, to wit and as follows: (1) That you do ask for 'em; (2) That you mention no symptoms in the letter; (3) That you enclose a properly stamped and addressed envelope for my convenience, and (4) That you ask for nothing else in the letter except the by-laws of the Bread and Milk club.

We don't want any sick folks hanging around our club. If you're sick keep away. If you're just scared, come right in. Sit down. Meet the folks. Have some crackers. Have some milk.

This club tolerates no nuisances, so members always check their symptoms with the door man as they enter. We have only one strict rule with which members must comply or get the gate: No member shall make a hog of himself.

There are several ways in which outsiders make hogs of themselves. I am not going to enumerate them, but if you're not a member of this club, think it over and see how many ways you can mention off hand in which you or your neighbor do make hogs of yourselves.

Of course the Bread and Milk club is purely for the improvement of the individual health of the member and the increase of his or her longevity.

Another thing—no one in this club cares a hoot whether you brush your teeth and bathe every Saturday or not, so don't start boasting about your practices in that line if you hope to join.

QUESTIONS AND ANSWERS

Physiology Textbook

Will you please give me the name of the physiology text which you recommend for use in schools? (Principal Junior High.)

Answer—I know of no good textbook of physiology for grade or high schools. Howell's "Text-book of Physiology" published by W. B. Saunders company, Philadelphia, is the best book I know for college students. But this is not adapted to preliminary schools. Some ambitious teacher ought to collaborate with Dr. Howell in the preparing of a suitable textbook for school use.

Expressive Ability

What should one avoid eating in order to eliminate excessive acidity in the urine? Do any of the cooked vegetables or stewed fruits contain acid? (R. T. A.)

Answer—Avoid nothing. Eat freely of all fresh vegetables and fruits, especially the so called "acid" fruits, for fruit acids are oxidized in the body into carbonic acid and this forms alkaline carbonates which tend to make the blood more alkaline and the urine less acid.

Rockefeller Institute

Is there a Rockefeller research institute? If so, where is it located? (K. W. R.)

Answer—Rockefeller institute is located at Sixty-sixth street and Avenue A, New York city, and has in connection a 50 bed hospital and an out patient department.

Cracked Lip

Every winter I suffer from a cracked lower lip. Just about as I get the crack healed with camphor zinc ointment or a again and one other things I have used it cracks again . . . (W. M. E.)

Answer—Don't smile. If you must smile, first remove all grease and moisture and then carefully seal the crack with a coating of flexible colloidion. Apply a fresh coating of this two or three times each day.

(Copyright John F. Dille company.)

LOOKING BACKWARD

TWENTY-FIVE YEARS AGO

Tuesday, Dec. 9, 1922

Herbert M. Peck of Beaver Dam, who played left end on the Lawrence eleven for the previous three seasons, was elected captain of the team for 1923 at a meeting of the squad the previous night.

George C. Sherman was to leave the following morning for New York and for London where he was to visit for three months. He was to sail on the Oceanie on Dec. 17.

Articles of incorporation of the Kaukauna Sugar Co. were filed the previous afternoon with the register of deeds. The articles provided for a capital stock of \$2,000 which was to be divided into 200 shares of \$10 each. The signers of the articles were James T. Toner, F. M. Charlesworth, C. E. Raught, F. J. Solar, Frank F. Baker and C. D. Boyd.

John Dardis, a teamster employed by Charles Smith at the stone quarry, fell from a stone wagon the previous afternoon and both legs were run over by the heavily laden vehicle. He was taken to St. Elizabeth hospital.

TEN YEARS AGO

Tuesday, Dec. 4, 1917

In spite of the fact that Appleton's share of the state and county tax was approximately \$20,000 larger than the previous year and that the city budget for the year of 1918 contained an appropriation of \$75,000 for a new vocational school building, the tax rate in Appleton for the following year was to be lower than a year previous, it was announced that day. The total tax for the year was \$14.63 for each thousand dollars of valuation as compared with \$17.70 in 1916.

Nearly \$100,000 for improvements on the Fox River and \$22,500 for maintaining the river was included in the estimate for rivers and harbor improvements submitted to Congress the previous day, according to a report from Washington.

Miss Carroll Clark was to entertain at Odd Fellow hall that evening for the benefit of the Red Cross.

Fred Holtz was surprised by a number of friends the previous Sunday afternoon at his home on Pleasant Street. Guests were Mrs. Fred Holtz and Robert Schuler.

Officers of Kaukauna Lodge of Odd Fellows elected at a meeting the previous night were: Noble grand, Z. H. Smith; V. grand, Alfred Henry; recording secretary, Florian Harriman; financial secretary, A. J. Fraser; treasurer, Charles Clark; trustee for three years, Richard Van Winkle.

While working in the Appleton Wood Products Co. that morning, John Van Caster suffered an injury to his thumb above the first joint and the index finger was amputated above the second joint.

While playing football on the football field, the boy got his thumb above the first joint and the index finger was amputated above the second joint.

The Maine woman who knits 70 pairs of mittens every year must be an adept at handing out the written.

HE'S CHANGED HIS NAME

HASKEIN WRITES TODAY
ON—

MEASURING OCEAN DEPTHS BY ECHO

Washington, D. C.—An apparatus

capable of measuring ocean depths ranging from a few feet to 2500 fathoms or more while the vessel on which it is installed proceeds at full speed has been perfected by the United States Coast and Geodetic Survey during the past year, according to the annual report of the director, Colonel E. Lester Jones. It is regarded as one of the most important contributions to deep sea surveying and navigation that has been made in recent years.

For some time engineers and scientists in this country and in Europe have been working on apparatus for measuring ocean depths in terms of time required for a sound wave to travel from near the surface to the bottom and the echo to return to the surface. It had been discovered previously that the sea bottom would give back an echo from a sound produced just below the surface and that with suitable apparatus this echo could be heard from the greatest depths of the ocean.

"While the primary purpose of this bureau in going into this subject and cooperating with a commercial firm in the development of the fathometer," says Colonel Jones, "was to secure an apparatus that would enable the bureau to speed up its hydrographic surveys, it was nevertheless influenced by the belief that the perfection of this apparatus would be of great benefit to mariners everywhere and would contribute toward greater safety at sea. I am glad to report that our estimate of the device has been fully justified and that our cooperation has been of perfect assistance in bringing to perfection a very important contribution to navigation."

While all the hydrographic parties of the Survey were successful during the fiscal year, according to the director, was the delegation to the Coast and Geodetic Survey of the task of producing airway maps authorized under the air commerce law of 1926. An effort is being made, it is stated, to produce accurate maps without going into the field to make special surveys for that purpose. The maps are on small scale and the aviator does not require a high degree of accuracy with respect to multitude of minute details which

probably to greater depths. Its advantage for survey service, accordingly, is that soundings can be taken as rapidly as desired — as frequently as four per second — with the vessel steaming at full speed. For it has been found that more than twice as much area can be surveyed in a day with this apparatus than would be possible by any other means.

Important as it is in his work, however, the device is not confined to the use of the surveyor. On the contrary, it is said to be of even greater value to the navigator, since the master of a vessel equipped with an echo sounding machine can feel his way at night and in stormy weather without stopping the ship. He can also find his position at sea by comparing a series of soundings with the depths shown on his chart, and with this information lay out a safe course to his port of destination.

"While the primary purpose of this bureau in going into this subject and cooperating with a commercial firm in the development of the fathometer," says Colonel Jones, "was to secure an apparatus that would enable the bureau to speed up its hydrographic surveys, it was nevertheless influenced by the belief that the perfection of this apparatus would be of great benefit to mariners everywhere and would contribute toward greater safety at sea. I am glad to report that our estimate of the device has been fully justified and that our cooperation has been of perfect assistance in bringing to perfection a very important contribution to navigation."

"Recent transatlantic flights have greatly stimulated the interest of the American people in aviation," says Colonel Jones. "Already practical and permanent results of this interest are being manifested and it seems reasonable to expect that the demand for airway maps will increase faster than they can be produced under the program on which we are at present working."

"Provision for this increased demand should be made and covered in the estimates for the coming fiscal year."

Jefferson Davis, later president of the Confederate States of America, helped as an army officer, to build old Fort Winne

The BENSON MURDER CASE

by S. S. VAN DINE © CHARLES SCRIBNER'S SONS

Characters Of The Story

PHILIP VANCE

JOHN F. MARKHAM—District attorney of New York County.

ALVIN L. BENSON—Well-known Wall Street broker and man-about-town, who was mysteriously murdered in his home.

MAJOR ANTHONY BENSON—Brother of the murdered man.

MRS. ANNA PLATZ—Housekeeper for Alvin Benson.

MURIEL ST. CLAIR—A young singer.

CAPTAIN PHILIP LEACOCK—Miss St. Clair's fiance.

LEANDER PFYFE—Intimate of Alvin Benson's.

MRS. PAULA BANNING—A friend of Pfyfe's.

ELSIE HOFFMAN—Secretary of the firm of Benson and Benson.

COLONEL BIGEY OSTRANDER—A retired army officer.

WILLIAM H. MORIARTY—An alderman.

GEORGE G. STITT—Of the firm of Stitt and McCoy, Public Accountants.

MAURICE DINWIDDIE—Assistant District Attorney.

ERNEST HEATH—Sergeant of the Homicide Bureau.

BURKE SNITKIN, EMERY—Detectives of Homicide Bureau.

BEN HANLON—Commanding Officer of Detectives assigned to District Attorney's office.

PHILIPS, TRACY, SPRINGER—HIGGINBOTHAM—Detectives assigned to District Attorney's office.

FRANK SWACKER—Secretary to the District Attorney.

CURRIE—Vance's valet.

S. S. VAN DINE—The Narrator.

THIS HAS HAPPENED

Vance eliminates Miss St. Clair as a suspect and prevents Markham from arresting Leacock when Pfyfe's statements strengthen the case against the captain. It is brought out that Pfyfe had forged Alvin Benson's name to a check.

Paula Banning admits to Vance that she had loaned her jewels to Pfyfe to put up with Benson as security.

NOW BEGIN THE STORY

CHAPTER XL

(Wednesday, June 19, 1 p m)

When we were again outside Markham asked:

"How in heaven's name did you know she had put up her jewels to help Pfyfe?"

"My charming metaphysical deductions, don't you know?" answered Vance.

"As I told you, Benson was not the open-handed, big-hearted altruist who would have lent money without security, and certainly the impudentious Pfyfe had no collateral worth \$10,000."

jewels are gone; and Pfyfe tried to cover up his tracks that night."

Vance sighed hopelessly.

"Markham, there are altogether too many trees for you in this case. You simply can't see the forest, y' know, because of 'em."

"There is the remote possibility that you are so busily engaged in looking at one particular tree that you are unaware of the others."

A shadow passed over Vance's face.

"I wish you were right," he said.

It was nearly half past one, and we dropped into the Fountain Room in the life of the Ulysses when he told us of stopping over in New York to murmur au revoir to some one.

"When a man like Pfyfe fails to specify the sex of a person, it is safe to assume that the feminine gender. So I suggested that you send a Paul Pry to Put Washington to peer into his trans-matrimonial activities: I felt certain bonnie amie would be found.

Then, when the mysterious package, which obviously was the security, seemed to identify itself as the box of jewels seen by the inquisitive house-keeper, I said to myself, 'Ah' Leander's misguided Dulcinea has lent him her gewgaws to save him from the yawning dungeon.'

"Nor did I overlook the fact that he had been shielding someone in his explanation about the check. Therefore, as soon as the lady's name and address were learned by Tracy, I made the appointment for you . . ."

We were passing the Gothic Renaissance Schwab residence which extends from West End Avenue to River-side drive at Seventy-third street, and Vance stopped for a moment to contemplate it.

Markham waited patiently. At length Vance walked on.

" . . . Y' know, the moment I saw Mrs. Banning I knew my conclusions were correct. She was a sentimental soul and just the sort of professional good sport who would have handed over her jewels to her amorous oso."

"Also, she was bereft of gems when we called—and a woman of her stamp always wears her jewels when she desires to make an impression on strangers. Moreover, she's the kind that would have jewelry even if the larder was empty. It was therefore merely a question of getting her to talk."

"On the whole, you did very well," observed Markham.

Vance gave him a condescending bow.

"Sir Hubert is too generous. — But tell me, didn't my little chat with the lady cast a gleam into your darkened mind?"

"Naturally," said Markham. "I'm not utterly obtuse. She played unconsciously into our hands. She behaved Pfyfe did not arrive in New York until the morning after the murder, and therefore told us quite frankly that she had phoned him that Benson had the jewels at home."

"The situation now is Pfyfe knew they were in Benson's house, and was there himself at about the time the shot was fired. Furthermore, the

shot was fired. Furthermore, the

"Sir Hubert is too generous. — But tell me, didn't my little chat with the lady cast a gleam into your darkened mind?"

"Your guessing luck is holding out, I see."

"Rather," agreed Vance. "It would appear that the late Alvin, like Warren Hastings, resolved to die in the last dyke of prevarication."

"In any event," replied Markham,

"the Major was unconsciously added another link in the chain against Pfyfe."

"You seem to be making a collection of chams," commented Vance firmly. "What have you done with the

ones you forged about Miss St. Clair and Leacock?"

"I haven't entirely discarded them—that's what you think," asserted Markham gravely.

When we reached the office Sergeant Heath was awaiting us with a beatiful grin.

"It's all over, Mr. Markham," he announced. "This noon, after you'd gone, Leacock came here looking for you. When he found you were out he phoned headquarters, and they connected him with me. He wanted to see me—very important, he said; so I hurried over."

"He was sitting in the waiting room when I came in, and he called me over and said: 'I came to give myself up. I killed Benson.' I got him to dictate a confession to Swacker, and then he signed it. Here it is." He handed Markham a typewritten sheet of paper.

Markham sank wearily into a chair. The strain of the past few days had begun to tell on him. He sighed heavily.

"Thank God! Now our troubles are ended."

Vance looked at him lugubriously, and shook his head.

"I rather fancy, y' know, that your troubles are only beginning," he drawled.

When Markham had glanced through the confession he handed it to Vance, who read it carefully with an expression of growing amusement.

"Y' know," he said, "this document isn't at all legal. Any judge worthy the name would throw it precipitately out of court. It's far too simple and precise. It doesn't begin with 'greetings,' it doesn't contain a single word before 'be it' or 'be it known' or 'do hereby,' it says nothing about 'free will or 'sound mind' or 'disposin' mentis'; and the Captain doesn't once refer to himself as 'the party of the first part.' Utterly worthless, Sergeant. If I were you, I'd chuck it."

(To Be Continued)

COMMITTEE TO REPORT ON AIRPORT PROGRESS

Committee reports and discussion will occupy the time for directors of the chamber of commerce at their regular meeting Friday noon at Hotel Northern. The most important reports are those of the new airport committee on progress to date in securing an airport for Appleton and that of the special committee for securing better express service.

Stop Colds at the Start

A few drops of Arzen in each nostril and relief comes instantly. All druggists guarantee Arzen. Only 5¢. Try it when you buy it. Get relief or don't pay. Pleasant and harmless. Simple to use.

ACTS INSTANTLY

It was a mocking Fate indeed that created this situation. On one side a youth supposed to be a paragon of virtue, on the other, on the one side an notorious woman, on the other the beautiful and popular girl who had jilted the youth because he was "too slow." (From "Hell's Highway," January True Story Magazine)

When Flaming Youth Steps Out!

[II]

IN the main lounge of a college fraternity—a youth reading quietly. A friend enters. "What's up?" "Big boy! Not stepping out tonight? Aw right—so long. Got a red-hot mamma that craves attention."

[III]

Two co-eds on the campus. First girl: "I'm taking that good-looking fraternity boy to the dance." Second Girl: "What? That poor sap? He'd no more think of kissing a girl than strangling his grandmother."

[IV]

The fraternity lounge few months later. The studious youth, his face now white and drawn

gets up to leave. "Where to?"—a friend inquires. "Who knows—who cares?"—he replies coldly. He goes to his room and with the chilling laugh of a man whose soul is sick and screaming, he smashes the picture of a beautiful co-ed.

[V]

Just as a spark may start a terrible conflagration, so these cynical youths are soon to stand agast at the violence, terror, shame and ruin that follows. The whole story is frankly, fearlessly told in "Hell's Highway," January True Story Magazine. No true chronicle ever published weaves such a spell of pity for thoughtless, reckless, pleasure-mad youth.

Stories of Real Life Thrillingly Told

The romantic doings of imaginary people in a world of make-believe may interest all of us at times. But for stories that really grip the imagination and thrill the emotions, we must turn to the thrilling drama of life itself. The stories in True Story Magazine are of living, breathing human beings who love, hate, struggle, suffer, rise and fall in the whirling battle of life.

Besides numerous fascinating special departments, you will find fourteen thrilling narratives in January True Story that are actual transcripts of human experience. This issue

Magnificent New Period Creations by Everett

Christmas Exhibit of Exquisite New Everett Art Model GRAND PIANOS

at the Interestingly Low Price of

\$850 WITH BENCH

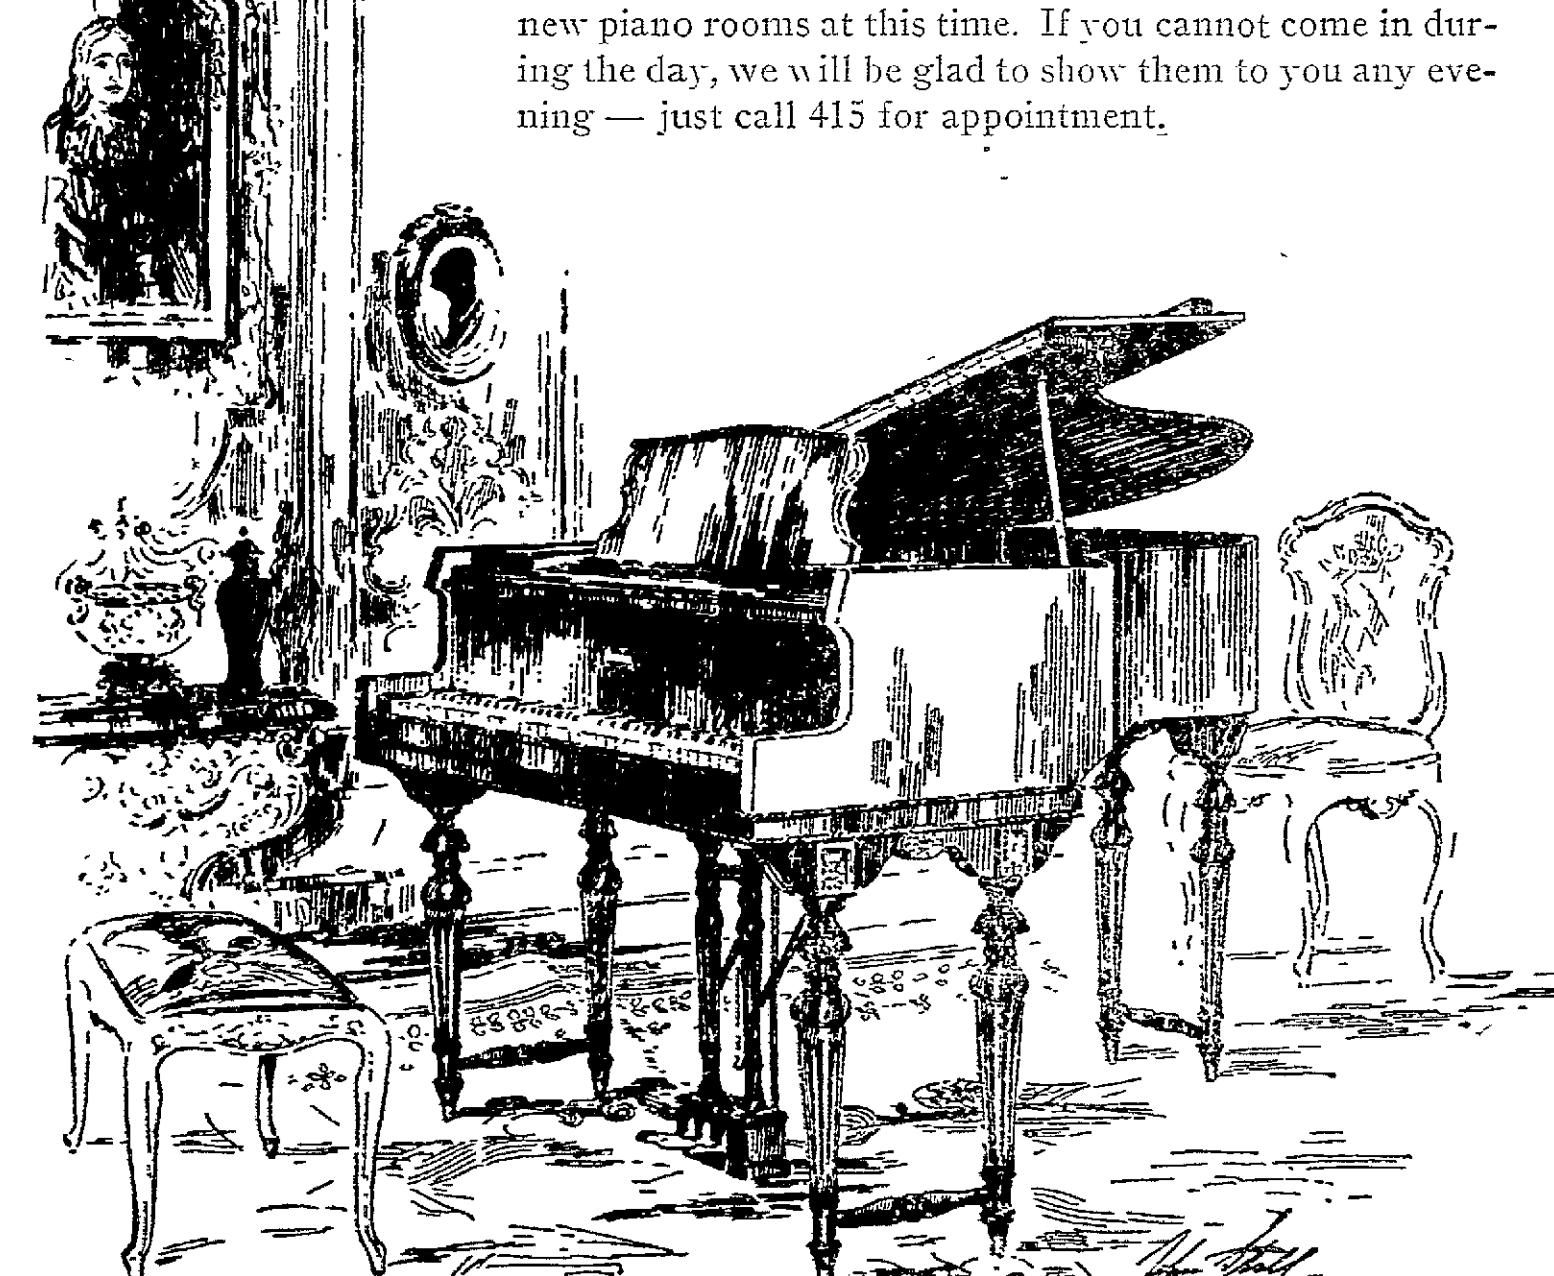

FOR years the old and distinguished name of EVERETT has stood for the highest achievement in musical excellence. Countless musicians of discrimination have regarded it as the finest in musical art; and literally scores of the world's most famous pianists have played upon it with delight.

Now come eight smart and authentic Art styles of EVERETT series 50, five-foot Grand Piano Encasements.

Each one of these exquisite models is very purely authentic in its designs. Each is the work of Mr. Peter Van Dommelen of Grand Rapids, Michigan, and each correctly interprets its own peculiar period atmosphere.

But art encasement is by no means the only recommendation of these little gems. The tone is bewitchingly clear and rich—an unusual achievement in an instrument of so small a size. The encasement embodies outstanding craftsmanship possible only to a cabinet-making organization of the highest grade. The finish itself is a marvel of smartness, hiding and yet revealing in highlighted effects the warmth and pattern of the genuine walnut and mahogany.

Now you will have the opportunity of personal inspection; we invite you to see this beautiful display in our new piano rooms at this time. If you cannot come in during the day, we will be glad to show them to you any evening—just call 415 for appointment.

Style Trend Has Not Been Stationary, Says Patou
Straight Lines, However, Persist Year In, Year Out

BY JEAN PATOU
PARIS — Although it has been widely accepted during the past few years that the trend of feminine fashion had become practically stationary, an observant eye can see that this is not true. Lines have been shifting every season, and the present mode shows a decided change from last year.

The general idea of straight lines to follow the figure has been maintained. The modern woman demands freedom and grace and she will, I hope, continue to demand them. Neither she nor her dressmaker wants to go back to the horrid old days in dress. But fashions are by no means at a standstill.

THE WELL-DRESSED WANT CHANGE

Well-dressed women want changes, but that insistence for freedom was a challenge to the couturier. I have been trying to free myself the fetters of uniformity and at the same time give fashion a tone of stability.

If you examine a collection of sketches covering the period of the past five years, you are certain to detect, however inexperienced your eye, a gradual change in line from year to year. I think there has been an improvement each season, and yet the flowing lines have been maintained.

In the winter season of 1923 we had the exaggerated low waistline. The next season the waistline was lifted with the aid of pointed effects. In 1925 came the pronounced influence of sport in women's dress. This was manifested in afternoon and evening frocks alike. The realm of afternoon and evening dress was overwhelmed.

Last year I struggled to get away from this and women finally began to see the advantage of a more feminizing movement. A definite reaction set in and has been continued this year. We now have very feminine afternoon and evening dresses, but nothing much has been sacrificed in freedom of movement.

A GRADUAL MOVEMENT

We have witnessed a new evolution of La Mode. The movement has been gradual because women adopt slowly, though progressively, a style that remains in favor longer than anything that is heralded with too much enthusiasm. The sport style was quickly greeted with enthusiasm, but it is not surviving.

Women are dressing again for afternoon parties. This trend is quickly discernible in any gathering of smart women. If at the Ritz at tea-time you see many women faithful to tailored suits, those will be in velvet and with them is worn a lame blouse. Not so very long ago I trembled to see women arrive at a tea-party in sports suits.

We are stabilizing fashion. Each frock is studied for the moment and the environment in which it is to be worn. This is the first requirement of any creation in order that it may help to make up an ensemble of elegance and good taste.

SISTER MARY'S KITCHEN

BY SISTER MARY
BREAKFAST—Apple sauce, cereal, cream, sausage cakes, raised buckwheat pancakes, syrup, milk, coffee.
LUNCHEON—Baked macaroni and cheese, steamed tomatoes, Boston brown bread, date pie, milk, tea.

DINNER—Baked and stuffed haddock, egg sauce, buttered green beans, grape fruit salad, custard pudding with lemon sauce, milk, coffee.

DATE PIE

One cup stoned and chopped dates, 1-2 cup sugar, 1 egg, 2 tablespoons flour, 1 cup milk, 1-4 teaspoon salt, 1-2 teaspoon vanilla.

Pour boiling water over 1 package dates. Drain, dip in cold water and remove stones. Chop fine. Mix and sift flour, sugar and salt. Beat eggs until light beat in dry ingredients and then beat in milk. Add dates and vanilla and turn into a deep pie dish lined with plain unbaked pastry. Bake about thirty minutes in a slow oven. When the custard is firm to the touch the pie is done. Serve cold with whipped cream.

READ THE STORY, THEN COLOR THE PICTURE

"No matter where we'll ever roost, I think this water-melon home will always be the best we've had," said Clowny, with a grin. "It's just as cozy as can be, and I'll gladly stay. I'll wake you all at break of day." And so the Tinies snuggled down and shouted loud, "Goodnight."

When morning came the giant cried, "Wake up, you Tinies! Come outside. I've fixed you all some breakfast food. It's ready, now, to eat." In just a moment they were there to sit down to a breakfast rare. When they had finished, they agreed, it surely was a grand meal.

"How to begin?" asked Clowny. "I'll tell you what," the giant said.

"The Tinymites meet the Toy Toy Wooden Soldier in the next story."

BEAUTY HOW AND WHY

CLEANLINESS IF THE BASIS
Ann Alysis

CLEANLINESS IS THE BASIS
JUDGING by the immense sums spent year in year out on beautifiers of all kinds and descriptions, there is one great, personal question always before the American people, men and women:

How to improve personal appearance, to approach as nearly as possible the standards of beauty accepted by the civilized world.

This is not to be considered vanity. Far from it. Cleanliness and good health form the basis of our ideas of beauty of body, so the more we know of these subjects, the better we shall understand the secret of true beauty.

HOW TO BEGIN

When the world was young and the human race appeared upon it, the Lady of the Caves saw herself mirrored in the clear pool where she had come to bathe. She discovered herself refreshed, revived and beautiful, her skin satiny and tingling; her hair in ringlets. And so, from that moment the quest for beauty was on. Coincident with the lady's discovery of her improved appearance came her recognition of the great universal beautifier, water.

That discovery has spelled progress for the world. Today, though hundreds of creams, powders, lotions and hair preparations are used, water is still the universal medium through which beauty may be obtained. For no one will dispute the fact that the foundation of all beauty is simple cleanliness. Scrupulous and immaculate cleanliness and cleanliness are the first steps toward the ultimate goal of loveliness.

THE ONE ESSENTIAL

Clothes, decoration and adornment may follow later, but as the first step in our quest the bath in water, by which all impurities are removed from the body, is essential. Famous beauties have at times used other cleansing mediums than water—milk, cream and even ungents. While these may have proved wonderful beautifiers, the fact still remains that water is the best solvent for the waste deposited on the body through the numerous sweat and oil ducts.

Under certain circumstances it is necessary to use other solvents than water, as well as helpful toilet requisites.

SILENCE IS GOLDEN BUT--

BY OLIVE ROBERTS BARTON

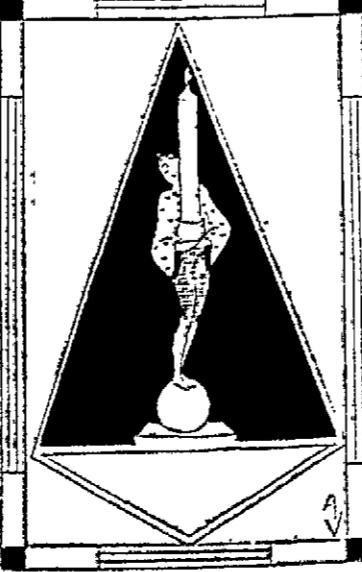

A MAN giving an account of a man in a certain club remarked, "It wasn't so bad at first. A couple of members had a little personal differences of opinion. Others took sides, and now it can never be patched up, because each side has said and done things that can never be forgotten, even if they are forgiven. There is nothing any real feeling of fellowship after a quarrel."

I remember a church fight when I was a little girl. It started at a missionary tea. The hostess happened to say to a member of the refreshment committee who was parking her church in a basket on the floor, "That isn't nice, you know." There are two churches now where she had been before.

I was a school girl up once. Two teachers had the same grade. On the annual tests one came out with a higher average than the other. The latter went in and told the former she could have given the same thing if she had tried a smart & wise. And she meant to be modest & wise, and trying to

SAINT AND SINNER

BY ANNE AUSTIN

Rhoda and Joy were giggling over some kitchen-shared secret when they appeared in the archway between dining room and living room, but almost instantly the girl's soft, sweet laughter was extinguished like a phonograph record suddenly cut off. Joy tugged at her hand, still giggling uncontrollably, but Rhoda shook her head impatiently, the look of intense listening deepening on her plump, pretty face.

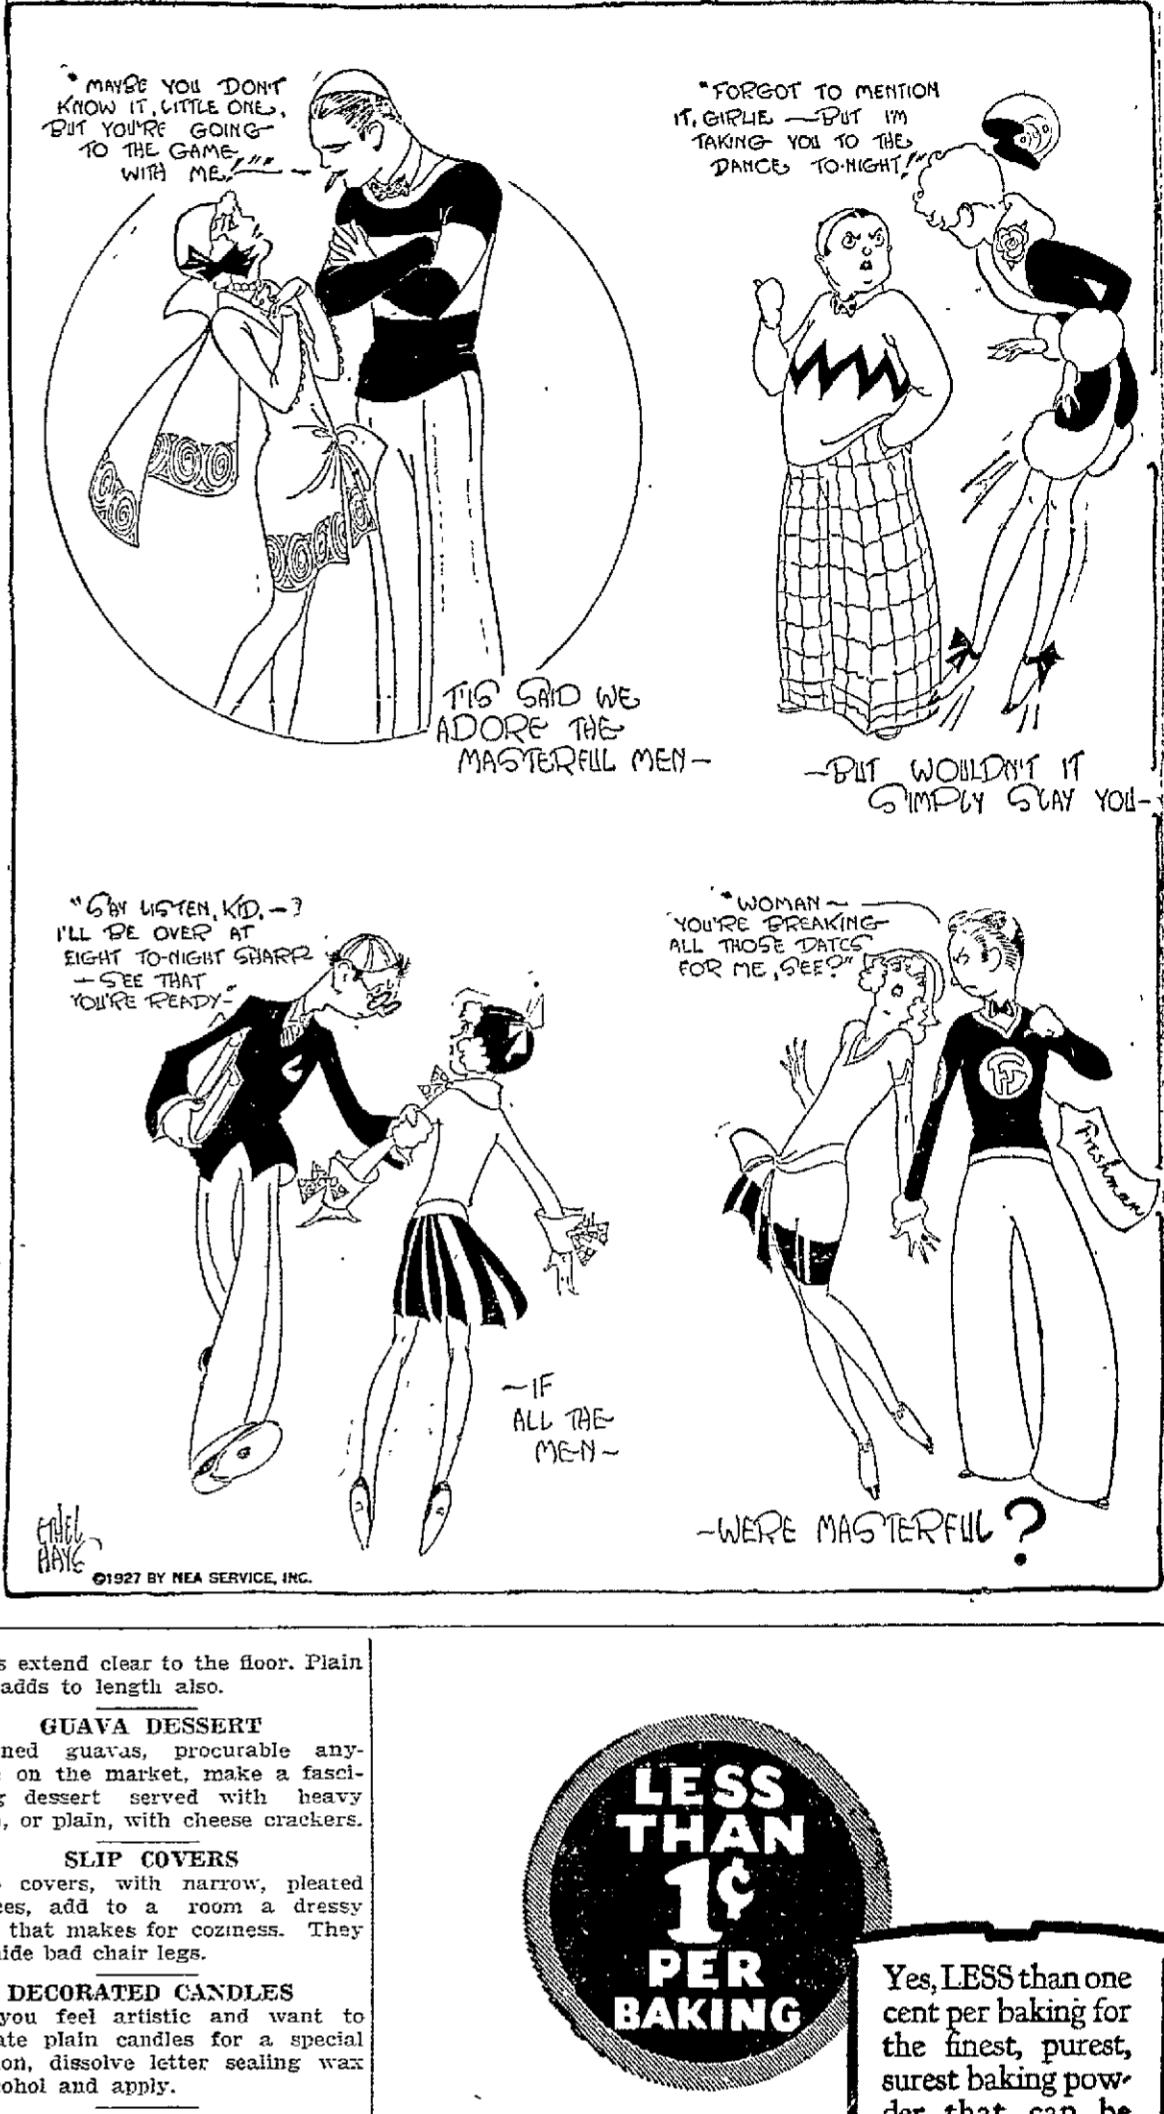

Faith, watching her, saw that she had been struck dumb by the music from the radio. A famous soprano, broadcasting from Chicago, sang note coming pure, rounded, pearly-perfect, as if the singer were in the room. Into the turquoise-blue eyes, which Faith had thought a little shallow and stupid, for all the girl's sweetness, there came a look of ecstasy, the like of which Faith had never seen in her eyes before. Bob, who was sitting beside Faith on the couch, within hearing distance of the radio dial, saw, too, and his hand went out and clapped over Faith's, squeezing it hard to call her attention to the miracle which she was watching. The country girl's room was quiet and falling rapidly. Her breath coming between her parted lips like a muted accompaniment to the song.

Suddenly Faith remembered Bob's first words about Rhoda: "Lord, what a voice! Where did a maid ever get a voice like that?" The truth came to her in a dazzle of light. Excitement enriched her own voice as she called to Rhoda: "You sing, don't you, Rhoda? I'm sure you do!"

Color flooded Rhoda's plump face, her eyes starting with confusion. "Yes, ma'am, a little," she faltered. "I ain't had any lessons, but I can carry a tune pretty good. Miss Bass—she faltered again, blushing more rosy, afraid of being thought conceited. "Miss Bass says I got a voice just like Gail Gurd's, but of course I ain't."

"Won't you say haven't instead of ain't?" For heaven's sake!" Chorus

BEAUTIFUL GRACE

Grace is not always beauty — but here's one who is. Which is to say that this is Grace Moore, the Metropolitan Opera songster, snapped up on her return to New York on the S. S. Majestic for the winter warbling season.

EAGLES MEET TO ARRANGE FOR BIG INITIATION HERE

Arrangements to initiate a class of candidates on Dec. 14 will be discussed at the meeting of Fraternal Order of Eagles at 8 o'clock Wednesday night in Eagle hall. A report will be given at the meeting on children's Christmas party. Nels Gallupe, chairman of the committee in charge, will give the report.

Forty members of the local aerie of Fraternal Order of Eagles attended the initiation of 68 candidates at Fond du Lac Sunday. The initiation ceremony was exemplified by the officers and drill team of the Milwaukee aerie. A parade was held before the business meeting. The drum and bugle corps of the Beaver Dam aerie led the first section of the parade and the local drum and bugle corps led the second half. More than 1,000 members took part.

Judge Thomas O'Donnell of Kansas City, representative of the grand aerie organization department was the principal speaker. Other officers who gave short talks were Grand worthy chaplain, Robert Schmidt of Milwaukee; state president, Murt Malone of Oshkosh and state conductor, George Stutz of Lena; state secretary, Chris Schade of Manitowoc and state organizer, Harry R. McLogan, of Milwaukee.

Eagle aeries from Neenah, Eau Claire, Oshkosh, Chilton, Plymouth, Menomonee, Beaver Dam, Milwaukee and Appleton attended the meeting. Oshkosh had the largest representation at the meeting having sent 30 representatives. A program of music, songs and dancing and a lunch followed the business meeting.

CENTURY CLUB SETS DATE FOR ITS NEXT PARTY

A Christmas party on Dec. 30, will be the next program on the social calendar of the Century club. The party will be held at Elk hall with dancing from 8:30 to 12 o'clock. Gib Horst orchestra will play.

Dr. and Mrs. L. H. Moore are chairman of arrangements for the party. Other members of the committee are Dr. and Mrs. J. L. Benton, Dr. and Mrs. W. J. Frawley, Mr. and Mrs. W. J. Dicke, Mr. and Mrs. Morrow Herder, Mr. and Mrs. J. L. Johns, Mr. and Mrs. J. H. Morton, Mr. and Mrs. C. W. Nelson, Mr. and Mrs. T. Ray, Mr. and Mrs. Arthur Scheel and Mr. and Mrs. A. N. Stenberg.

WOMANS CLUB CAGING TEAM GIVES DANCE

The basketball team of Appleton Women's club will hold its annual dancing party at 8 o'clock Thursday evening, Dec. 15, at Appleton Women's club Playhouse. One of the features of the party will be a prize waltz. Music for dancing will be played by the Troubadour trio.

The chaperones will be Mrs. W. C. C. Vanneman of Greensboro, N. C., J. F. Ipen of Chicago, and Mr. and Mrs. Robert Overton of Appleton.

The committee in charge of arrangements for the party consists of the Misses Birdie Steiner, Evelyn Meyers, Lorraine Green and Mac Keating.

MISSION WORKER IS SPEAKER AT LEAGUE MEETING

The Rev. Enno Duening, an institutional missionary at Milwaukee will give an address on Ministrations to the Afflicted, the Sick and the Unfortunate at the weekly advent service at 7:45 Wednesday evening at Mt. Olive Lutheran church. This will be the first of a series of three lectures to be sponsored by the Senior Olive Branch Walther league society.

Prizes at schafkopf were won by Mrs. Alvin Boehme, Mr. Sonneleiter and Schmidt and at plumpack by Miss Lona Knut and Mrs. Joseph Bauer. About 30 guests were present.

Fred Radke, 174 N. Superior-st, was surprised by about 25 relatives and friends Saturday evening in honor of his birthday anniversary. Cards and a radio program furnished entertainment.

How To Play Bridge

By Milton C. Work

Many questions arise in connection with the bidding of every day hands which are perplexing to the average player merely because the conventions covering them have not been called to his attention. These conventions in the main are simple, logical and easy to remember; but that fact does not help a player who never heard of them.

The hands to be given this week will be the kind which are occurring constantly and will involve situations which affect all four players during the bidding. Following the plan which has proved very popular with readers of these articles, hands will be given one day and the answers the following day. Six questions will be asked concerning each hand.

It will be most interesting to keep your score for the week, there will be twenty-four questions in all. Enter on a slip of paper what you think the answer should be to each one of these questions, and then note on the succeeding day how many you have right. Get your friends to do the same thing, and compare your scores with them.

CARD PARTIES

THE QUESTIONS

With the above hand, what would you declare? (score low-all unless otherwise stated):

1. If you held it as South (Dealer)?
2. If you held it as South (Dealer), with a score of 24?
3. If you held it as West, South (Dealer) having bid one Heart?
4. If you held it as West, South (Dealer) having bid one No Trump?
5. If you held it as North, South (Dealer) having bid one Heart, and West having passed?
6. If you held it as North, South (Dealer) having bid one No Trump and West having passed?

Answers tomorrow.

RURAL SCHOOLS PLEDGE CHRISTMAS STOCKINGS

Thirty-five rural schools of Outagamie-co have pledged to make Christmas stockings in the drive underway by the Junior Red Cross, according to A. G. Neating, county superintendent of schools. The stockings are filled with gifts and are presented to veterans who are in hospitals at Christmas. While 35 stockings had been pledged up to Monday afternoon it is expected that many more schools will enter the campaign and will furnish a stocking. One 4-H club, the Wide Awake of District school no. 7, Greenville, has pledged a stocking and St. Mary parochial school at Black Creek is the first parochial school to send in its pledge.

PHI BETA KAPPA INDUCTS NOTED NEW YORK BANKER

Williamsburg, Va.—(AP)—Otto H. Kahn, New York banker and patron of music, is now a member of Phi Beta Kappa. Elected by the chapter of William and Mary college he said at the initiation that America is not the land of the almighty dollar, that it is concerning itself more with spiritual home-brew, with art, science, culture and other things of the spirit.

WISCONSIN WEATHER

Snow, probably tonight and Wednesday; colder tonight and in east and south portion Wednesday, with cold wave; winds becoming fresh to strong.

WEATHER CONDITIONS

A low pressure or storm area is moving into the central states from the Rocky Mountain region and increasing in intensity, with snows over the northern Rockies and northern Rockies and northern plains. This promises to curve northward and cause snow in this section tonight and Wednesday as it crosses the lake region, with strong northeasterly winds shifting to northwesterly after its center passes. It is followed by strong high pressure with a cold wave from the Canadian northwest which is expected to follow into the plains states and central valleys after the "low" moves away and spread its influence to this section by late tonight and on Wednesday, with a cold wave here.

The most common expression of these thankful women is "I feel like a new woman." And others, "I don't have any pains whatever anymore." I can hardly believe myself that our Wonderful Method has done so much good for me in such a short time. Write today. This advice is entirely free to you. She has nothing to sell.

adv.

Women, Weak, Tired, Rundown and Nervous

or who suffer ovarian pains, pains in the lower part of the stomach bearing down pains, female weaknesses, headaches, backache, melancholia, dependency, nervous derangements, flushes of heat, fleeting and indefinite pains, white, painful or irregular pains, should write to Mrs. Ellen Lovell, 6596 Mass., Kansas City, Mo.

She will entirely FREE and with out charge to the inquirer advise of a convenient home method whereby she and other women say they have successfully relieved similar troubles.

The most common expression of these thankful women is "I feel like a new woman." And others, "I don't have any pains whatever anymore."

I can hardly believe myself that our Wonderful Method has done so much good for me in such a short time. Write today. This advice is entirely free to you. She has nothing to sell.

INDIANS CLAIM RIGHT TO TRAP ON RESERVE

Charges of trapping without leases against C. Deinney and Miller Deeny, Oconto Indians, arrested Saturday by Louis Jeske, game warden, were dismissed by Judge Thelma Dog in municipal court Monday afternoon. The two men claimed they're state law which permits Indians to trap on reservations, though leases and they have promised to take the matter up with the attorney general.

TOWNSARRANGE H. S. GRID
GAME SCHEDULE FOR
1928 AT GREEN BAYInter - conference Musical
Tournament Also To Be
Held, Officials DecideSpecial to Post-Crescent
New London—A meeting of the
Northwestern Wisconsin High School
conference held recently at the Beau-
mont hotel at Green Bay, was attended
by R. J. McMahon, A. H. Koten, P.
C. Bergland, A. F. Christ and H. T.
Kohl. Athletic activities were the
chief discussion of the meeting, schedules
being worked out. Forensic was
discussed and a program of games
mapped out. Forensic and track work
also received attention.Seven games will be played by New
London high school during next year's
football season it was decided. The
schedule includes the following
games:
Sept. 22 Clintonville at Clinton-
ville; Sept. 29, Gillett at New Lon-
don; Oct. 6, Menasha at Menasha;
Oct. 13, Shawano at New London;
Oct. 20, West De Pere at West De
Pere; Oct. 27, Clintonville at New
London; Nov. 3, East De Pere at New
London.

PLAN MUSIC PROGRAM

Following another conference at
Green Bay, it was decided to engage
during the spring months in an inter-
conference musical tournament. New
London's band and glee clubs will
participate in this series of events
though no date, place or contestants
have yet been named. It is thought,
however, that the tournament will en-
gage practically all of the conference
schools, each school presenting either
the glee club or band, or both.H. T. Kohl, director of the high
school band announced that he will
present his group of 50 band players
in a public concert, which he hopes
may be scheduled for February. Mr.
Kohl is enthusiastic regarding the
band saying that he feels its pro-
gress has been excellent.In his concert Mr. Kohl will intro-
duce about five new members who
will don the striking band uniform
for the official concert appearance.
Rehearsals are still being held twice
a week.EASTERN STAR ELECTS
OFFICERS FOR SEASONSpecial to the Post-Crescent
New London—The annual election of
officers of Fountain City Chapter No.
28, Order of the Eastern Star was held
at the chapter room Monday evening.
Officers elected included C. J. Thompson,
worthy patron; Lela LaMay, con-
ductress; Lulu Nemischoff, associate
conductress; Cecil Wendland, secre-
tary; Bertha Oesreich, treasurer. M.
C. Trayser, trustee for three years.
Announcement of the election of
worthy matron and associate matron
will be made later. The following
committee has been appointed to serve
the installation dinner which will be
held Tuesday, Dec. 27: Mesdames Net-
tie Pierer, Doris Hartquist, Hazel
Calef, Grace Viel, Daisy Jillson, Helen
Pape, Lulu Thompson and Iris Smith.MRS. FRED THOMAS DIES
AT HOME IN BIRNAMWOODSpecial to the Post-Crescent
New London—Word has been re-
ceived here of the death of Mrs. Fred
Thomas, 57, of Birnamwood, last week.
Burial took place in the Birnamwood
cemetery. Mrs. Thomas, who was for-
merly Euphrama Mathews, is survived
by her husband, two sons and two
daughters. Mr. and Mrs. Ray Thomas
and son, Lewis, of this city, attended
the funeral.WOODSHED ON DAHLMAN
PLACE DAMAGED BY FIRESpecial to the Post-Crescent
New London—Fire of unknown
origin broke out shortly before 10
o'clock Monday evening on the August
Dahlman place on the Mosquito hill
road. The fire was discovered by
neighbors passing the Dahlman resi-
dence. An alarm brought the local
firemen to the scene. The fire had
started in a woodshed at the south end
of the bungalow, and had gained con-
siderable headway when the chemicals
arrived. The shed roof and walls were
practically destroyed, although the
supply of wood stored within was not
burned. Mrs. Dahlman is absent on a
visit, and Mr. Dahlman was asleep
when neighbors aroused him.COTTAGE IS THREATENED
A small fire was caused on Monday
night when a match thrown beneath
the burner of a gasoline range ignited
the drippings of oil beneath, at the
portable sheet iron bungalow owned
by F. C. Andrews, N. Water-st. The
stove was used in cooking corn and
had just been heated by Mr. Andrews.
The flames grew alarming and Mr.
Andrews managed to pull the stove
out of the little shop on to the street.
An alarm brought the fire department
and the flames were extinguished by
means of chemicals. Only slight damage
from smoke was done to the
bungalow.GREEN BAY PASTOR IS
ROTARY MEET SPEAKERSpecial to the Post-Crescent
New London—Joseph Bozart, chap-
lain at the McCormick Home for the
aged at Green Bay, was the speaker
at the meeting of the Rotary Club
Monday noon at Elwood hotel. The
Rev. Mr. Bozart discussed friendship
and fellowship as high ideals. He spoke
of the need of friendship more than
money and importance upon his audience
the fact that a man of wealth
but without a few warm friends is
really an outcast while one who has
met a few friends may feel the
backing of friends may be the
surest protection in life.NEW LONDON
PERSONALSPERSONAL AND SOCIAL
ITEMS FROM LEEMANSpecial to Post-Crescent
New London—Mr. and Mrs. Frank
Davis and Mr. and Mrs. Anthony
Huetter and children were Sunday
guests at the J. F. Mans home at
Northport.J. F. Seering was a business visitor
at Milwaukee Monday.Mrs. Leonard Maniske is spending
this week at the home of her brother,
Walter Charlesworth and family,
where Mrs. Charlesworth is recuperating
from a recent illness.Mrs. William Ostreich returned
Monday evening from Chicago where
she spent the past ten days at the
home of her daughter, Mrs. Harry
Peterson.Mr. and Mrs. Ralph Restle and chil-
dren were Sunday visitors at the
Hens Plunkett home at Hortonville.Mrs. J. F. Maas and Mrs. Elmer
Walker were visitors at the home of
Mrs. William Niemms, who has been
ill for the past few weeks.Miss Mable Imppermann was a week
end guest at the home of her sister,
Mrs. Benjamin Tari and family. Mrs.
Tari was formerly Miss Lorinda
Fuestel of this city.Mrs. Ida Fisher spent Saturday at
Appleton at the home of her son, Wal-
ter Fisher, and family.THIEVES STRIP JOST
SUMMER RESIDENCEAll Valuables Taken from
Place in Second Entry of
Marauders

Special to Post-Crescent

New London—On a recent visit to
the summer cottage owned by Mr.
and Mrs. E. C. Jost, south of the city
at the Wolf river, the owners discov-
ered that for the second time within
about two years the place has been
ransacked and nearly everything of
value taken. The cottage was locked
but the thieves entered by cutting
away the screens of the porch and
entered the building through a can-
vas covered window.The cottage was well equipped with
silver and china and cooking utensils
for large groups. The cupboard doors
were stripped of all china and silver. Sev-
eral rockers were taken and even
mattresses were missing from the
beds. The beds, being built into the
cottage, remained intact.Mrs. Frank Smith and daughter
Myrtle of Bear Creek visited at the
home of Mr. and Mrs. Emil Larson
Sunday.Mrs. Evaline Carpenter, son Cecil,
and Mr. and Mrs. Eli Guyette were
Appleton callers Friday.Miss Lillian Colson, student at
Shiocton high school spent the week
end at her home here.Robert Strong, of Shawano, was a
Leeman caller Sunday evening.Mr. and Mrs. Arnold Knapp,
daughter Eugenia and son Junior and
Miss Evelyn Abearis visited at the
home of Mr. and Mrs. Charles Knapp
at Deer Creek on Sunday.Sam Strong, Sr. went to Clinton-
ville Sunday where he will visit relatives.Ernest Henry of Shiocton was a
Leeman caller Sunday evening.ENTERTAINS AT CARD
PARTY AT MEDINA HOMESpecial to Post-Crescent
Medina—Miss Carolyn Plunkett en-
tained a few friends at a card party
at her home Thursday evening.Prizes were won by Miss Nila Van
Kee and Mrs. Arthur Krock. Those
present were Misses Nila and Laura
Yankee, Mrs. Mike Lesselyong, Mrs.
Ardie Van Alstine, Mrs. Arthur Krock
and Mr. and Mrs. Otto Wickert of
Appleton.Many FRIENDS PRESENT
AT JOHN REUTER RITESBlack Creek—Funeral services were
held Sunday afternoon at St. John
church for John Reuter who died last
Thursday evening following a two
year illness.Mr. Reuter was born April 15, 1847
in Germany and he came to the United
States at the age of 22 settling at
La Porte, Ind., and later at Chicago.He came to Black Creek in 1879
where he was married to Frederika
Schalau, Nov. 29, 1879. They made
their home on a farm east of the vil-
lage until 1903 when the family
moved into the village.Survivors are the widow, two
daughters, one son and six grand chil-
dren.People from away who attended the
funeral were Mr. and Mrs. Charles
Falk, Mr. and Mrs. John Falk, Christ
Groth and daughter Dorothy, William
Falk, Mr. and Mrs. Frank Krull, Mr.
and Mrs. George Dewall, Appleton;Mrs. Charles Schultz, Greenville; Fer-
dinand Schalau, Wisconsin Rapids;
Maynard Dewall, Menasha; June
Pooler, Shiocton; Mrs. Margaret Pooler,
Milwaukee.Palibearers were Philip Sassman,
Monas Eberhard, Henry Frechell, E.
P. Strasburger, Ferdinand Brandt
and Frank Schmitz.Prize winners at the card party at
the Hotel Arlington last Thursday
evening were: Schafkorf, high; Lou
Griesbach, low; Mrs. John Stadler,
five hundred, high; Miss Elizabeth
Huhn, low; Mrs. Roland Darling,
six, high; Miss Helen Stadler, low;
Miss Genevieve Kronschnabel, skat;
E. S. Nais.Mr. and Mrs. Thaxter Kinsman of
Fremont and Mr. and Mrs. Frank De-
wall were luncheon and dinner guests
last Friday of Mr. and Mrs. Arthur
Genske.Julius Bartholomew has returned home
from a Green Bay hospital where he
submitted to an operation.Oscar Kettner, route 4, is confined to
his home with illness.Mrs. William Husted of Rhinelander
who was a guest at the home of
her daughter, Mrs. R. E. Ananson for
six weeks, has returned home.Mrs. Laura Meyer is spending two
weeks with relatives at Milwaukee.Mrs. E. P. Strasburger and Mrs.
Frank Zulecer spent the two days last
week with Mrs. Fred Pantzelt at Ap-
leton.Mrs. Lynn Hagg of Starks and
Mrs. Florence Husted of Rhinelander,
were guests for several days of their
sister, Mrs. R. E. Ananson.WARNING
STRICT QUARANTINE ENFORCEDCity Health Department, Pittsburgh,
has quarantined all cases of pneumo-
nia. Doctors issue warnings to
never allow a cold to settle in the
chest or lungs. To conquer a cold, see
your doctor. Get a package of Buc-
kman's Herb Blood Tea. Its cost is
small. Take it steaming hot to stim-
ulate and heat the skin. A blood and
brush the cold germs and poison from
the system.

HORTONVILLE TAX
RATE IS FIXED AT
\$20.22 PER THOUSANDBank Officials Make Claim on
Village Board for Illegal Tax
PaymentsHortonville—A number of residents
from the east side of the village were
present at the meeting of the Village
Board Friday to make inquiries of the
board in regard to the extension of
electric light current to that part of
the village. This matter was laid over
for a special meeting to be held next
Friday evening. The village budget
was presented and the tax rate set.The rate of taxation for the village
for 1927 is 4.97 mills, the school tax
rate is .722 mills, and the rate of state
and school tax rate is .80 mills. The
tax rate per thousand is therefore
\$20.22.A demand was made by a committee
of officials of the Bank of Hortonville
that the village refund all taxes paid
by said bank for 1926, and 50 per cent
of the taxes paid in the years 1922
1923, 1924, 1925. This sum will amount
to \$3,251.41, according to the figures
presented by the officials of the bank.
The matter was discussed and a mo-
tion was made and carried that the
matter be referred until the board had
an opportunity to secure legal advice
on the subject. The finance commit-
tee was given charge of this affair.
Members of that committee are Frank
Schmitz, Jr., Edward Kluge and R. J.
Ringer.Mr. and Mrs. Sumner Greeley re-
turned to their home at Racine Satur-
day after having visited relatives
here the past two weeks. They were
accompanied by Mr. and Mrs. Sewell
Greeley, daughter Elaine and son Har-
land.Ed Strong was at Nichols Saturday
on business.Fred Ames and Sewell Greeley were
Shiocton callers on Friday.Mr. and Mrs. Ryle Strong and
daughter Betty Jane of Clintonville
were Leeman visitors Sunday.Miss Violet Cavener student at
Clintonville high school spent the
weekend with her parents Mr. and
Mrs. Laurel Cavener.Mr. and Mrs. Roland Rusch and
Harold Rusch of Kaukauna were vis-
itors Saturday at the home of Mrs.
Rusch's parents, Mr. and Mrs. Henry
Leeman.Those from out-of-town who at-
tended the funeral of Mrs. Matilda

MAN DOES BEST WORK AT THE AGE OF FIFTY

Chicago Physician Reaches Conclusion After Thorough Investigation

Chicago—(AP)—Fifty is man's most productive age, Dr. W. A. Newman Dorland, Chicago physician, says.

He reached the conclusion after long study of the lives and achievements of 400 of the world's greatest men, undertaken to find out whether the oft repeated statement that the world's work is performed by young men would "hold water."

Comparative old age, his research showed, produces the world's masterpieces in every line of human endeavor. Dr. Dorland has written three articles, embodying his conclusions, which will be published in the octal magazine of the Illinois department of welfare.

Records of the 400 men he studied give an average age of 50 for performance of the greatest work of their lives. The average age at which the laborer reached his zenith was 47; for thinkers, 52.

He studied the lives of Columbus, Lord Nelson, Dickens, Conrad, Chopin, Robert E. Lee, Huxley and a host of others of like calibre. His findings showed the production peak for men in various vocations at these ages.

Chemist and physicists, 41; dramatists and playwrights, poets and inventors, 44; novelists, 46; explorers and warriors, 47; musical composers and actors, 48; artists and ministers, 50; essayists and reformers, 51; physicians, surgeons and statesmen, 52; philosophers, 54; astronomers, mathematicians, satirists and humorists, 56; historians, 57; and naturalists and journalists, 58.

STAGE And SCREEN

INTIMATE BACKSTAGE LIFE
SEEN IN NEW ESTHER RALSTON
DRAMA

The story of a girl who sacrifices her own personality and identity to gain fame and then wishes desperately to be herself again. That is "The Spotlight," a Paramount picture starring Esther Ralston which opens at Fischer's Appleton Theatre today.

The action centers about the stage with the heroine struggling to gain renown behind the footlights. How she finally does win greater success than she had ever dreamed of and then longs to cast it all aside to obtain happiness makes the story an exceptionally absorbing one.

For the first time in her career Esther Ralston plays a dual part, or it might better be termed a triple role. She is first seen as timid Lizzie Stokes, a New England girl who is too sensitive to give her own natural ability and potential good looks a chance. Then she blossoms forth as Olga Rostova, the dazzling Russian that Lizzie has been transformed into for stage purposes. Finally she again becomes Lizzie but a different Lizzie Stokes that she was, before having been Olga Rostova.

Intimate and authentic scenes of backstage life are given in the picture as much of the action occurs in the dressing room. Beautiful gowns add their allure and an able supporting cast, including Neil Hamilton as the leading man and Nicholas Sousan as the theatrical producer, contribute to make what the critics unite in praising as one of the best filmed in a long time.

Recollections Of Appletonians And Others

HOWARD WOOD

COL. H. A. FRAMBACH

EDWARD P. HUMPHREY

Midway between Los Angeles and Pasadena, separated from Los Angeles by as invisible a boundary as that between Menasha and Neenah, lies the suburban city of Glendale, which has the distinction of being the fast-growing city in the United States. The Glendale Chamber of Commerce, which has much to do with the growth of Glendale, was presided over for some time up to a year or so ago, by Howard Wood, who will be remembered by many Appleton people as having once been reporter for the Appleton Post, leaving Appleton about eighteen years ago. After several fruitless attempts to find him, I finally succeeded the other day, and had a delightful visit, in which he told me some incidents in his eventful business career since leaving the Post. Howard was a hard and efficient worker on The Post, and it was evident from what he said of his life since then, that he had not changed in this characteristic, which I gathered had rewarded him with substantial material returns. Nevertheless, it is possible to overdo a good thing, and I fear Howard did that, for he was obliged about a year ago to relinquish his work with the Chamber of Commerce, to rebuild his own physical and nervous energy.

HE DOES THE IMPOSSIBLE

Upon leaving The Post, Howard went to Maumette, where for a time he was employed on the Eagle Star. Becoming interested in the advertising end of the newspaper game, which had not particularly engaged his attention previously, he withdrew from the Eagle Star and established an advertising agency of his own, which he built up to a point where it was returning him a good income. A certain large real estate firm of Martineau noticing his work, and believing he might benefit them, offered him management of their advertising activities. After some hesitation over giving up a sure thing for a new venture, Howard made the change. Into the minutiae of exactly what he did for this firm I am not going to enter, for one reason because Howard did not explain it fully, but in general it may be said that in one respect at least he revolutionized their business. That is to say, up to that time the selling of farm lands had always been a seasonal business — in the autumn it ceased till spring. It had come to be regarded as impossible to sell in the winter. One day a member of the firm casually remarked: "The men who could devise a plan by which farm lands could be sold in the winter, would be worth a salary of \$10,000 a year to us." This sounded so stimulating that Howard put his brains to work and after no small travail perfected and submitted a plan for selling such lands by mail in winter.

COL. AND MRS. FRAMBACH TOO

One of the features of Forest Lawn Memorial Park is its mausoleum building, a great structure built into the side of a hill, so that although it is several stories in height, each "foot" at the rear is level with the ground. This building is of steel and concrete, designed to endure indefinitely. Its corridors are vistas of marble, onyx, broad staircases, wonderful statuary and stained glass windows. Within it carries the same strange atmosphere of friendliness as the Park outside. Obviously this too is a place of communion between two related conditions of existence, separating which here there is no great gulf fixed. At the side, just within the main entrance of the building is a pedestal with an urn holding the ashes of Wally Reid. Standing before this urn one recalls with pleasure the slender, gracious figure on the silver screen. A few steps within the corridor to the right on the wall at about the height of one's head are two marble-faced crypts marked: "Col. H. A. Frambach," and "Mrs. Frambach."

"Col. Frambach" — what a flood of

memories! A figure not so slender, but very gracious, — a personality not so polished, but calm, forcible and impressive. During twenty years or more of acquaintance, and I called on him two or three times a month, I never saw Col. Frambach out of patience from any cause, or not confident that any clouds that might be in the paper-business skies, and there

didn't get enough guessing over that, may put in some healthy practice on this later puzzle!

TAKING POIGNANCY FROM GRIEF

The city of Glendale has not been single-purposed in striving for material greatness as to neglect matters of sentiment, and a notable instance of this is its creation of Forest Lawn Memorial Park. If, without previous knowledge of it, you should be taken to Forest Lawn Memorial Park, and should see its countless acres of greenest possible lawn, broken only at first sight by clumps of sprawling live-oaks and feathery eucalyptus and pepper trees, interlaced by winding drives and footpaths, and beautified by flowers and shrubs, and at intervals by groups of marble statuary and graceful and stately buildings, you would exclaim with delight, and the thought would be furthest from your mind that this lovely place had been created to hold the bodies of those mortals who have put on immortality. Not a "gravestone" is to be seen, nor does any suggestive indulgence break the smooth surface of the sward. When one looks closely he sees occasionally along the turf a small stone or metal plate let into the ground uniformly with its surface, which is the only indication of the true nature of the park. That dismal "cemetery" has no application here, and in fact is never used. No one who has experienced the spirit of the place can realize how strangely and beautifully the grave here has been robbed of its grawsome victory. This is a place of beauty, light and life — even joy, where one may come to visit in meditation with loved ones who are not lost, but gone before.

W. L. RHODES RESTS HERE

Who would think of being married in a "cemetery"? Yet such is the spirit of Forest Lawn Memorial Park that never a day passes when its beautiful chapel is not chosen by one or more couples as the scene of the happiest ceremony of their lives. Flowers perpetually are banked about the altar where youth thus comes to pledge its vows of fuller life, and wedding bells sound ceaselessly in the spiritual ears of the great company outside, who may almost be conceived as joining their felicitations to those of guests within the chapel. One member of this outside company is Appleton's former townsmen, W. L. Rhodes, and if high integrity, gentleness and unselfish consideration for the prosperity, comfort and happiness of others are characteristics of human and divine virtue, than no nobler spirit than his lends presence to this beautiful spot.

One of the features of Forest Lawn Memorial Park is its mausoleum building, a great structure built into the side of a hill, so that although it is several stories in height, each "foot" at the rear is level with the ground. This building is of steel and concrete, designed to endure indefinitely. Its corridors are vistas of marble, onyx, broad staircases, wonderful statuary and stained glass windows. Within it carries the same strange atmosphere of friendliness as the Park outside. Obviously this too is a place of communion between two related conditions of existence, separating which here there is no great gulf fixed. At the side, just within the main entrance of the building is a pedestal with an urn holding the ashes of Wally Reid. Standing before this urn one recalls with pleasure the slender, gracious figure on the silver screen. A few steps within the corridor to the right on the wall at about the height of one's head are two marble-faced crypts marked: "Col. H. A. Frambach," and "Mrs. Frambach."

"Col. Frambach" — what a flood of

memories! A figure not so slender,

but very gracious, — a personality not so polished, but calm, forcible and impressive. During twenty years or more of acquaintance, and I called on him two or three times a month, I never saw Col. Frambach out of patience from any cause, or not confident that any clouds that might be in the paper-business skies, and there

were many and black ones from time to time, would not duly roll away and reveal the shining sun of prosperity which they always did. For many, many years Col. Frambach was Kaufman's first citizen, and his home was the "big house" pointed out to visitors.

THE COLONEL'S EARLY VENTURES

Col. Frambach had the pioneer spirit, — for one thing he was a pioneer paper manufacturer in the Fox River valley, his Kaukauna Paper Co. mill, now the Union Bag Co. mill, being one of the earliest on the river. After disposing of this mill he built the Badger Paper Co. mill on the opposite side of the stream, and operated it until it was destroyed by fire. The colonel too was the first paper manufacturer on the Fox river, and I believe in the Middle West generally, to undertake the making of wall paper, not only making the paper itself, but printing it in its ultimate designs. The designing and printing of wall paper obviously is a special industry, and my impression is that the colonel oftentimes found its unfamiliar problems difficult of solution.

HIS CONTRIBUTION TO THE WORLD'S FAIR

Col. Frambach had much to do with the establishment and operation of the model paper mill at the World's Fair in Chicago in 1893. At that time the Fox river valley was the principal seat of paper making in the Middle West, and if the process of making paper was to be demonstrated at the World's Fair, it developed primarily upon the nearest paper-making district to bear most of the responsibility. While other Fox River Valley manufacturers were interested in the project and contributed to it, my understanding is that it had not been for Col. Frambach's effort the World's Fair would have been without the model paper mill. Certainly, the colonel sent down his best machine tender, E. C. Pope, to take charge of the exhibit.

FORCE TO LEAVE KAUKAUNA

One of the most notable law suits in the Fox River valley that ever dragged its long and weary way through all the courts up to the United States Supreme court itself, was the one between the Green Bay & Mississippi Canal Co. and the Kaukauna Water Power Co., to determine whether or not the last named corporation might appropriate surplus water not needed for navigation from the river at Kaukauna, to which the former company claimed exclusive privilege. The Canal Co. wvn. The Badger Paper Co.'s mill was situated on the Kaukauna Water Power Co.'s canal, and after the mill burned it was deemed best not to rebuild it. This circumstance led to Col. Frambach's removing his residence and business activities to Chardon, Michigan, where he built and operated a paper mill. In due time came the World War, causing a shortage of all manufactured products, paper among the rest. Not only did the price of paper go rocketing, but the procuring of paper at any price became almost or quite as much a matter of favor as of money. To such a pass did matters come that many newspapers in frantic fear of suspension from lack of white paper, began to buy paper mills at extravagant prices for prices that would have been considered extravagant before the war, to protect themselves.

HIS LAST DAYS

Col. Frambach was one of those manufacturers who accepted such opportunity and sold. In age he was

along in the late seventies. He had had a long and arduous business life and doubtless felt ready to hand over the new business problems caused by the war to younger brains. So he came to Los Angeles with the fruits of his labors, lingered here in peace and comfort for the few more years that remained to him, and now with his wife companion still at his side rests in Friendly Forest Lawn Memorial Park, perchance awaiting the sound of Gabriel's trumpet to reassemble the elements of his temporal body to be changed and arrayed in the shining garments of eternity.

NOTED FOOTBALL COACH
TO BE GUEST OF LIONS

A. A. Stagg, football coach at the University of Chicago, will speak before Appleton Lions club sometime next month, according to announcement made by Murf Catlin at the noon luncheon of the club Monday. Coach Stagg was at Chicago in the days when Catlin was a member of the grid squad and recently promised his former pupil he would speak to the local club at some convenient date next month.

Lack of funds has compelled German to give up completion of its housing program.

She fooled Broadway but it finally beat her! "The Spotlight" shifted and then —

USE OF POWER DEVICES GROWING ON FARMS IN WISCONSIN

SURVEY REVEALS 17 PER CENT NOW HAVE ELECTRICITY

20 Per Cent of Badger Farms
Equipped With Radio; 24
Per Cent With Furnaces

Madison—(P)—Improvements of the "machine age" are fast sweeping Wisconsin farms.

Under supervision of Walter J. Elling, agriculture statistician of the Wisconsin and United States Department of Agriculture, rural school teachers of Wisconsin have collected a mass of information that gives a cross-section of conditions that prevail in farm homes. This work was done by teachers at the request of the state statistician and the state superintendent of schools, John Callahan, and is being published by a farm periodical.

While reports were not obtained from every farm in the state enough were received to make the survey "one that may be considered an unusually reliable indication of conditions in all parts of Wisconsin."

Over 6,000 rural and state graded school teachers sent in reports covering nearly 53,000 farms. Briefly the report showed: farm homes equipped with electric lights, 17 per cent; farms with home lighting plants, 9 per cent; farms using electricity for power, 12 per cent; farms with radio, 20 per cent; farm homes equipped with power washing machines, 25 per cent; farm homes with furnace heat, 24 per cent; running water in kitchen, 14 per cent; running water in bath, 20 per cent; equipped with bathtubs, 11 per cent; running hot water in kitchen, 7 per cent.

A portion of the farm paper's account of the survey follows:

"Of the farms covered by the survey 17 per cent have electricity. Carrying it to Wisconsin's 183,000 farms this means that there are more than 32,000 farm homes in the state where the family reads in the long winter evenings by simply turning a switch for light. Of these homes nearly one-half are lighted from the high tension lines that pass their doors. To be exact, nine per cent are lighted by home light plants."

TSE MACHINE POWER

"In 18 per cent of the farm homes of the state electric power is in daily use. It does the washing, the ironing, the separating, the pumping, water heating and a number of other things both in and out of the house."

Speaking of the labor saved by the use of these modern appliances the survey shows that nearly one-fourth of all the farm women in the state have now discontinued the old hand-power washer. Now 25 per cent of them do their washing with power.

"Not only does the Wisconsin farm woman boast of her modern equipment in the kitchen, but she too, is proud of the fact that her home is heated with a furnace. In these 52,000 homes 24 per cent have furnished heat. The whole house is in use as much in the winter as in the summer. How important that for the house is needed much more during the winter months than during the summer, when the children are forced to play and live within doors."

In this great dairy state, where running water plays such an important part in the economical production of milk, the cow still leads the woman in accessibility to water. Only 14 per cent of the farm kitchens have running water while 30 per cent of the dairy barns are equipped with running water. Over twice as many barns have this modern convenience as homes. But running water in the home is on the increase and it will not be long until the average farm woman will no longer have to travel over 60 miles a year, lugging water for household uses.

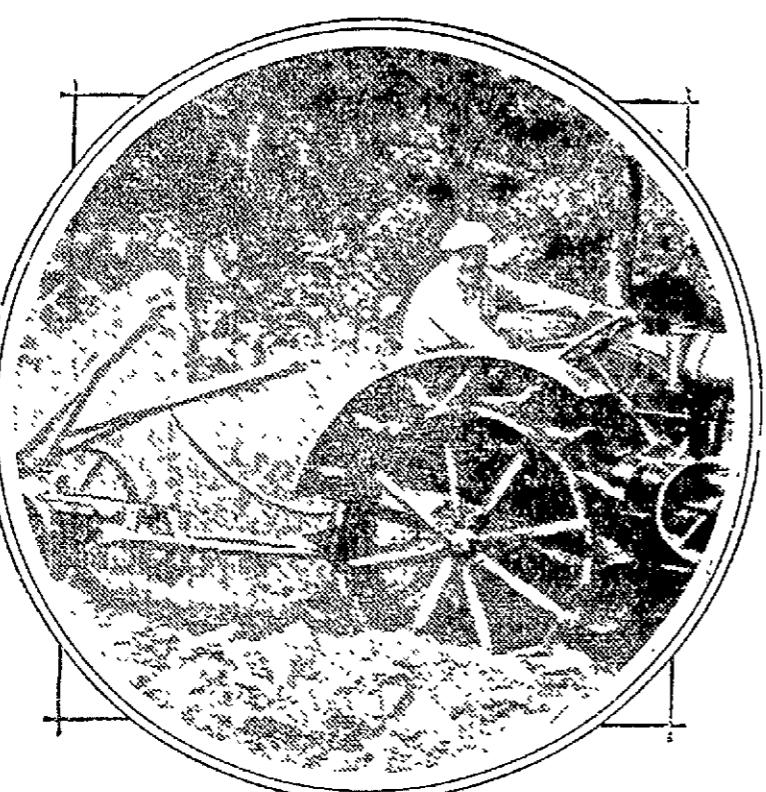

"WASHED" DISAPPEARS

"How well we remember drawing down the shades after the other members of the family have gone to bed, then getting out one of mother's washtubs and taking a bath in front of the kitchen stove. Now the old washtub does not serve its double purposes in 11 per cent of the farm homes in the state, for a white bathtub has been put in.

"Even dish washing has been made easier in 7 per cent of the farm homes. In those houses running water is constantly on tap in the kitchens. It is hardly necessary to mention the fact that there is running water for the kitchen and bath, there too, is sewage disposal."

American football was first organized in 1892 by Gerrit Smith Miller at the Epes Sargent Dixwell school in Boston, Mass.

BILLY SUNDAY IN TRAINING

Billy Sunday, the evangelist, goes into training for a strenuous revival campaign by "making a hand" on his ranch in the Illinois river valley of Oregon. Only modern equipment satisfies him, as his photo shows. Besides work on the farm, there are a tennis court and a swimming pool to keep him in trim.

FERN-DELL ANIMALS BACK FROM CONTESTS

Numerous Prizes Taken by Cattle in Trip from Coast to Coast of U. S.

By W. F. WINSEY
Special Farm Writer

Green Bay—The Fern-Dell show herd in its various swing around the United States from coast to coast, from one big cattle show to the next, finished up at the American Royal Livestock show at Kansas City, Nov. 24, by winning junior bull, junior female, senior cow, and senior bull championships, and also grand champion bull and grand champion cow, in addition to these championships this herd of 14 animals at this show where cattle from all parts of the world are brought into competitive contact, won 12 of first prizes out of a possible 12 in competition with 80 purchased.

Starting out on its itinerary on June 19 and visiting 12 big shows including state fairs, expositions and national shows, the Fern-Dell herd traveled 12,000 miles and won 60 championships out of a possible 76 as judges. The prize-winning record made by the Fern-Dell herd this season has never been equaled by any other herd. The calf herd, a part of the exhibit last year and this year, has not been beaten. The calves in herd, each of the two past years, sired by Danny Duff, won trophies each year at the Portland, Ore., show.

At the farmers' institute to be held at De Pere, Dec. 13 to 14, the Fern-Dell farms are to demonstrate seven or eight of the animals of their 1927 show herd.

Most of the representatives of this show herd to be demonstrated at the De Pere Farmers' Institute are known as "tops" in the Guernsey breed. At this institute, the Fern-Dell herd, Elsie's Rader of Fern-Dell 137932 will be offered for sale.

INVITE FARMERS

The Fern-Dell farm owners are inviting farmers and cattle breeders to attend a 1927 roundup of their nationally known show herd Friday, Dec. 9. Hot coffee and sandwiches will be served.

"It is not thought probable," the report says, "that our receipts will be as light as last year, when they dropped to within 3,000 pounds of the low point for the year. The low point for 1926 was reached with the week ending Dec. 18. It should be remembered that during the winter months receipts are often irregular on account of climatic conditions. Cheese prices are about 5 cents higher than this time last year."

"As a result of liberal supplies, hog prices have declined 25 to 35 cents, according to the weekly review. Declines are more pronounced on weights settling 220 pounds upward. Hen prices are \$2.75 lower than last year at this time."

"Cheese prices advanced during the winter. Dairy runs were below trade requirements, and last week's decline was not only unusual, but in many instances new high price levels were established. The advance was very uneven, ranging all the way from 25 cents to one dollar. Cattle prices are said to be higher than last year."

"Pork prices advanced during the winter. The review says, "the highest point since Aug. 15. This advance is due to more liberal receipts upon the market, so that most of the cheese is sold. Sheep prices are said to be higher than last year."

STUDENTS SHOWING BETTER GRADES IN SECOND SIX WEEKS

Big Improvement Shows in Appleton Schools as Winter Season Starts

About a 40 per cent improvement is shown in the grades of the students six weeks ago over those of the first of Appleton high school the second day afternoon during assembly period. Six weeks it was announced Thursday.

The Juniors on the "A" honor roll are Mildred Albrecht, Veronika Lechner, Ruth Cohen, Jean Embrey, Alice Louise Ford, Annette Heller, Julia Hinck, Mildred Koehnke, Esther Merkle, Jean Owen, and Howard Stammer; on the "B" honor roll, Roger Abraham, Marcella Berg, Robert Elias, Michael Gochauer, Hilda Harn, Eva Hendricks, Lenore Matus, Lawrence Morris, Lucille Neils and Charlotte Tracy.

Sophomores on the "A" honor roll are Bernice Merkl, Betty Meyer, Robert Mortimer, Lawrence Oesterhouse, Lila Radtke, Elmira Schulze and William Scott; on the "B" honor roll, Emauline Bauman, Frances Brewer, Dolores Dorr, William Foutz, Bernice Gage, Esther Grimmer, Doris Koehnke, Lila Locksmith, Ruth Pierre, Ethel Schenck, Mae Schroeder, Mary Stilp and Rosella Vanderlouise.

Dr. O'KEEFE, DENTIST-X-ray

TAX DEED NOTICE

Nov. 3, 1927

NOTICE is hereby given that all of the following described tracts of land and City and Village lots, situated in Outagamie County, State of Wisconsin, were sold by the County Treasurer, of said County on the 9th day of June A.D. 1925 for the Delinquent Taxes of 1924 and remained unredeemed at the office of the County Treasurer of said County.

NOW, THEREFORE, unless the Taxes, interest and charges set opposite the several tracts and lots thereafter specified, together with the sum of one-half the amount of the taxes, interest and charges, and the costs of redemption and advertising, shall be paid at the office of the County Treasurer of the said County on or before the 13th day of June, 1928, the same will be converted to the purchaser thereof, pursuant to the statute in such cases made and provided. Interest is computed to the last day of redemption. Redemption fees and advertising fees are to be added to the amount stated in this notice.

Given under my hand and official seal at the office of the County Treasurer in the City of Appleton, in said County and State this 3rd day of November, A.D. 1927.

MARIE ZIEGENHAGEN,
County Treasurer, Outagamie County.

WESTERN CONFERENCE SCHOOLS TURN TO "TWO-TEAM" PLAN

Michigan Leads Mates In Favoring System Of Dividing Grid Squads

New Method, if Attempted, Will Give More Men Chance to Play Gridiron Game

Chicago—(AP)—The two-team football system, long talked of both in the Western conference and in other sections, is to become a reality in the Big Ten next fall, with Michigan taking the initiative. Iowa also has announced definite plans for a second team.

Fielding H. Yost, director of athletics, and Dr. Clarence Cook Little, President of Michigan, have announced that games for the second Michigan team are being sought among both conference and non-conference schools.

As most conference teams have completed their 1928 schedules, and none have yet indicated any intention to follow the Michigan system, the two teams will be rated as first and second for the 1928 season, the Michigan authorities said, but eventually they are to be developed into two squads of equal power.

Wisconsin is considering the "two-team" plan, also. George Little, director of athletics and Glenn Thistlethwaite, football coach, laid the plan before the recent Western conference annual and got a ruling from the faculty athletic committee that would permit the dual system.

George Huff, director of athletics, and Robert C. Zuppke, football coach, at the University of Illinois, were a bit skeptical of the success of the "two-team" plan.

"Nobody knows whether the two-team plan is good or not," Zuppke said, "because nobody knows what it will lead to."

The "two-team" plan is a fine thing for schools with big undergraduate enrollments, A. A. Stagg, of Chicago, dean of the Big Ten coaches, said, but not for him. He pointed out that conference rules specify football games on eight days of the fall term, with no limit on the number of games. A team may play on each day, if it wishes. One of the teams always will be regarded as the varsity and the other as the second team, Stagg said, for conference championship purposes.

The system has its advantages in giving opportunities for more students to play, Stagg said, but with a small enrollment, he was sure he wouldn't have enough good material to put a second team in the field next fall.

Minnesota has no two-team plans for 1928. Fred Luehring, director of athletics said, adding that this must not be taken to mean that the experiment might not be tried there next year.

"How successful the plan will be remains to be seen," Luehring said. "But it is likely that most schools will give it a trial within a year or so."

Sooner or later all the Big Ten schools will have at least a partial schedule for a second team, in the opinion of Major John L. Griffith, athletic commissioner of the conference, for all the coaches and athletic directors voted favorable on the second team plan when it was proposed last May.

RIVERSIDE KEGLERS BEAT P-R BUTCHERS

The Riverside Fibre and Paper Co. Independents took three games of a match with the Peterson-Reinbein Butchers Saturday evening at the Arcade alleys, winning the match by 269 pins. J. Guiltigoy of the winners had high game of the match, a 242, and high series of 550. For the losers H. Kronberg and W. Liest each had high game of 181 and Kronberg had high series of 511. No other 200 games were rolled.

Marquette Cagers Face Toughest Card In Years

Milwaukee—No sooner had Coach Frank J. Murray of the Marquette university Golden Avalanche football squad wound up a successful season with his Hilltop grididers than he rushed out on the basketball floor in the Marquette varsity gymnasium and took up the task of developing a strong quintet to carry through the heavy schedule arranged for the local eagles.

The Murraymen will be at a disadvantage for that reason early in the season. Capt. Floyd Kazmer Stevens Point, Wis., has been working out with his men, informally since Nov. 1, but Murray did not assume command until this last week and a half-dozen of his most likely candidates did not report until Thursday, after taking a week's rest following a season's work with the Marquette football team.

Among the notables lost from the 1926-27 Hilltop basketball machine are the Jett brothers, Ed and Erv, a fine pair of forwards. It also is believed that three other veterans, lettermen who still are in school, will be unable to report this season. Oliver Festinger and Tom Johnson have asked Coach Murray to be excused because of heavy class schedules, and the others were granted since both of them were on the football team. Harry Anger and Crighton will be through the winter with the North Western boys at Marion, Ill. Dec. 13, as the start of a preliminary home game may be arranged.

FIVE APPLETON MEN CHOSEN TO HANDLE VALLEY CAGE GAMES

MANAGERS WANT CARD MINUS FISTIC STARS

New York—(AP)—Leo P. Flynn and Jimmy Johnston have entered into an arrangement whereby they will guarantee \$20,000 to Tex Rickard if he will allow them to experiment with a heavyweight show at Madison Square garden on Jan. 20. Flynn and Johnston desire to prove that card minus fistic stars will yield handsome profits.

Rickard said he was willing to go through with the proposition but would take his guarantee in advance. That feature has yet to be completed with Rickard's topnotch boxers, Jack Dempsey, Jack Sharkey, Paulino, Tom Heeney, Johnny Rizzo and Jack Delaney, cannot be used in the competition, it is stipulated.

JOLLY FIVE LADIES BEAT CHUTE MALES

The Jolly Five girls pin squad of Appleton took three games of a match with the Five Jolies. Little Chute male squad Sunday at the Arcade alleys, winning the match by 314 pins. The girls were assisted by a handicapped of 450 pins, without which they would have been defeated. F. Hammel of the male quint had high game of the match, a 212, and high series of 552.

For the girls L. Dunn had high game of 183 and high series of 458. No other 200 scores were rolled. Jolly Five

SALESMEN WIN FROM BAKERS IN PIN GAME

Modern Bakery Salesmen took two games of a match with Modern Bakery Bakers Monday evening at the Eagle alleys, squeezing out a 62-pin win. The Salesmen opened with a 15-pin loss to the Bakers but won the second game by 5 maples, to still trail by 10. The third game gave the Salesmen the margin of victory when they pounded out a 72-pin triumph.

E. DeWitt of the winners had high game of the match, a 179, and a team mate, W. Keefe, had high series, a 474. For the losers A. Breaker had high game of 163 W. Hawkes had high series of 457.

HILLER FACES TOUGH RIVAL IN KID GREEN

"Nubby" Hiller, Shiocton's classy grappler, is in line for one of the toughest battles of his career Wednesday evening at Black Creek auditorium when he meets Kid Green of Appleton, who is said to have thrown Nubby in a practice go. Hiller has been undefeated in these parts for the last two years, being held once to a long draw by Conrad "Tuffboy" Riebel, Little Chute, whom he may meet soon again. Green is a newcomer to Appleton but has piled up an impressive record of wins in Illinois.

The matches starts at 8:30 with good preliminaries. J. E. McLaughlin is promoter.

RETSON-JIMOS QUINT WHIPPED BY TWO PINS

The Retson and Jimos Hat Cleaners took a pair of games in a match with the Big Five Sunday at the Arcades alleys but the Big Five pinmen still squeezed out with a total pin victory by the narrowest of margins, two pins. All of the games were exceedingly close. The Big Five clinched the match in the first game with a 36-maple triumph. In the second game the Hat Cleaners won by 24 pins and pulled up to 22 pins from the Big Five crew but in the final game the R-J men could win by only 20 pins, two too few.

J. Behnke of the R-J crew and A. Mitchell of the Big Five tied for high game with 213 each, but Mitchell took high series with a 562 while Behnke had high series for his team, a 572.

Behnke had another game of 209 and Mitchell had another game of 209. No other double century marks were rolled.

SKATERS! PLANS FOR ANNUAL RACES STARTED

Plans already have been started by members of the editorial and sporting staffs of the Post-Crescent to make the annual winter Fox River skating tournament sponsored by the Post-Crescent and held at Jones park, one of the best ever held in Appleton. With the increased interest in skating in the valley, prospects are bright for one of the largest entry lists in years and the 100 mark already has been passed for the last two years.

The races probably will be held earlier than usual this year and side attractions such as a hockey game between two star teams also may be part of the program. A special class also may be organized for champions and winners of previous years and in that case the event should be a thriller. As has been stated plans already are underway for a real ice carnival and Appleton and Valley skaters are advised to sharpen up the old-blades and get in plenty of practice as soon as there is real ice, for there'll be harder competition than ever this year and real ice is here for all of the city rinks were flooded this week. Skaters, watch the sport page of the Post-Crescent for "it won't be long now" before more definite news on the races will be forthcoming now that the tang of winter has really struck the city.

I-C BASKET LEAGUE STARTS ON TUESDAY

Coated Paper, Kimberly Club Open 1927-28 Season of Circuit

TUESDAY GAMES

Coated Paper Co. vs. Kimberly Club, Co. D vs. Kaukauna Mulford's.

SATURDAY GAMES

Citizens Banks vs. Kaukauna X Club.

Weber Cozy Knits vs. Fox River Paper.

Industrial league basketball in Appleton will get off to a start Tuesday evening at the Y. M. C. A. gymnasium when the first two games of the 1927-28 Appleton Industrial-Commercial loop are played. Tuesday games this year will start at 8:15 and Saturday games will open at 7:30 with a forfeit limit of 15 minutes after game time in which the teams must be ready to play. An admission fee of 10 cents or 5 cents a game will be charged.

Thirty-four players, four varsity coaches, three freshman coaches, Dr. Arthur Light, team physician, six managers and the trainers Mike Deen and Bill Morris, will be in the official party. H. Jamison Swarts, assistant graduate manager will accompany the party while Ernest B. Cozens, graduate manager, will leave in advance.

A number of rooters and newspapermen will also leave with the official party on Dec. 17. A special train that will run as a second section of the regular train, will carry the party from coast to coast and return whenever a layover permits it but otherwise there will not be any signal drills or regular workouts.

Arrangements have been made for practice at Berkeley between Nibs Price, California coach and Lou Young. Price scouted Pennsylvania on Thanksgiving day, when Cornell was defeated 35 to 0, and made all arrangements after the contest.

Pennsylvania will practice the first few days late in the afternoon and as the day of the game approaches, practice will be held closer to game time.

This plan has been suggested as the best method of getting the players acclimated.

The game itself is not a post season affair but a regular scheduled game for the purpose of honoring the late Andy Smith, famed California coach.

A memorial bench will be dedicated to the memory of Smith prior to the game.

Smith was a star fullback at Penns

sylvania in 1903 and 1904, winning All-American honors his last year.

From 1909 until 1913, Smith was head coach at Pennsylvania.

He afterwards coached Purdue and later went to California where he produced the famous wonder teams of the coast.

For four seasons his teams did not suffer a single reverse.

JOHNSTON PLACED ON ALL-STAR TEAM OF GREEN BAY MEN

Local Back Credited With
Longest Punt of Year, 78-
yards; Schaefer on Second

One Appleton man, Swede Johnston, fullback, is placed on the first all Valley-conference team chosen Monday by Green Bay sport writers; Schaefer, Orange end is placed on the second squad, and honorable mention is given Getschow, tackle, Hartung, end and Strutz, quarterback of the 1927 Shields eleven. The first team contains five West high players, four from East, Johnston and Aspatore of Fond du Lac, Adams of West is placed ahead of Tadych of Oshkosh on the squad.

In a summary of the best plays in each department that goes with the story, Johnston is given credit for the longest punt of the season, a drive of 78 yards. Leading point scorers were Klaus, 68; Borchers, 60; Herber, 57. Points after touchdown were Herber, 11, Klaus 8. Herber had the only goal from the field and he also had the longest run from scrimmage 88 yards. He has the longest run from the kickoff, a 92-yard sprint for a touchdown against Appleton. Shekore has the longest run in returning a punt, 75, and Klaus and Herber each have one of 60. The longest completed pass was from Herber to Borchers, 55, and the shortest DeTemple to Dionne, one yard. The most passes completed were to Borchers of West.

Daman, E. Green Bay; Bruehner,
Manitowoc.

Green Bay—All-conference team of nine players from the Bay schools, five from West and four from East and one from Appleton and Fond du Lac. Football at West, East, Appleton, Marinette and Oshkosh typified how the fall pastime should be played while that at Fond du Lac, Sheboygan and Manitowoc, although good at times, showed the effects of having new men spotted around in many of the blocking and backfield positions.

West Green Bay emerged from the scrambled with their second successive Conference championship beating out East for the coveted award 7 to 6. East, however, finished as runner up, with Marinette in third place while Appleton and Oshkosh closed their football seasons by battling to a 0 to 0 score Thanksgiving Day and ranked fourth in a two-cornered tie.

GOOD PASSING ATTACK

Although the West high team under the tutelage of Murph White were winners of the Valley championship banner, they did not excel the other elevens at all departments of the game considering blocking, tackling, passing and running. With a star like Herber back of the line of scrimmage tossing passes, it is unquestionable that the Purple and White team was far superior to the other elevens in the "Lindbergh" style of football. Herber can toss a pass 55 yards with ease and the accuracy with which he drilled his throws was a barrier which the opposition could not get around. Borchers, second up in points scored in the Conference, was usually Herber's target and it was his policy to cut the rival backs, reach up, pull down the pass and travel unmolested goalward. Most of the touchdowns scored by the Purple team resulted by employing the aerial attack which White developed to perfection every season.

As a running team it is obvious that most critics would give the East high team the credit of having the best attack in that phase of cossack chasing. In Klaus and Shekore, Wiley has two fast men ideal in running the ends of smashing off the tackles for countless yardage. Klaus was fast, clever and a halfback par excellence. Once he laid his hands on the ball he would start a cyclonic sweep toward the end and then slip back over the tackle and travel considerably before he was snared by the opponent's secondary. Shekore carried the brunt of the end running. With the ball tucked in his left arm he would outrun the ends, reverse his field and use the wealth of speed which he has, in tallying touchdowns for the Crimson and White. These two Red Devils with their spectacular runs were plenty troublesome. When blocking is under consideration West High is given the unanimous decision. The Purple linemen pawed their tails down like reapers and afforded Capt. Herber the fine interference which has made him the outstanding figure returning punts and running the ends. The Purple halfbacks too were instrumental in blocking out the opposing ends enabling Herber to stay under the spotlight. Tackling is a harder proposition to get around for it appears to be a draw between West and East. Both of the teams shifted their opponents around considerably and when they put 'em down, they were there to stay.

HERBER CAPTAINS TEAM

This boy Herber who plays the game without a headcan is the class of the Valley. As he is a wonderful leader the lot of captaincy suits nicely with his name, while his feet lead work going down the chalk marks have prompted critics to stamp a label of Big Ten caliber on him. Football players have come to West high and football players have left West high, but never in the history of our teams has there been a man with

triplo threat abilities like Herber. He is a crafty end runner, a dangerous open field man an accurate passer, and a general whose leadership alone is spectacular in itself.

Klaus is another man who has won much comment from the Valley sport writers. Although a bit slight in stature but built strongly, he is fast, passes well, an excellent man returning punts, and a fair punter. Klaus is given one of the halfback posts for his ability to run the ball off tackle. Johnson, the thundering Appletonian, is awarded fullback for he flies in nicely with his express train speed. Besides this he would be a capable assistant to help with the punting. And Oh! how that boy bumps them when they come over the line. They sure hit concrete. His part in the backline would alone be to plunge the Scheuerle, with Irv Sulph, former Neenah high star, playing a forward for the first time since an injury to his leg, this fall. Ehrgott, his high school teammate, will be at the other forward, with Klutz, old Menasha high player, at center. The Two Rivers lineup includes Curran and Red Dunn, prides of Marquette in the old days, and several other stars including the high scoring pro in Illinois last year.

Adams will play the other half of the All-Conference team. He is a good passer, kicks well, and is the only real blocking halfback in the Conference. True, nothing much has been heard from him on the offense but his ability to block and his consistency added greatly to the success of West. What about two halfbacks like Shekore of East and Tadych of Oshkosh? Shekore is the best yearling backliner in the Valley loop. Tadych did wonders at Oshkosh snaring passes and running with the ball. True his offensive abilities were more spectacular than Adam's. But these days the standard of All-Conference men is measured up by the way in which they look against the weak team as well as the strong. Tadych was inconsistent. He was every once an All-Conference prospect the first game against Fond du Lac but when he hit East and West in his next few games he was a marked man. In the last few games, he led Oshkosh to a glorious finish which finally pulled them up from seventh place to a tie for fourth with Appleton. But he didn't do this in all the games and he only can be rated on the offense, for his defensive work, especially blocking, was weak.

Willems and Queoff, the first from West and the second East, will play the ends. Willems is another man who has not been "written" much but is the best offensive and defensive end in the Conference. Herber did pass most to Willems but when he tossed to Willems it can be said that he never missed. It throw during the year. Puring with Adams, the two worked wonderfully knocking down passes and in the Marinette game he pulled down an enemy pass on their 35 yard line and dashed off through the broken field for a touchdown. His height and his ability to scent the play has made him hard man to run around, in fact, not a single first ten has been completed around his wing during the year. He is a smashing, crashing type of player who breaks in fast and sets them down hard for losses. Queoff is next in line for the other end post. Although built on the order of a fullback, he lacked some of the offensive prowess but retaliated quarterfold on the defense where he was a "bear" at stopping the opposition's backs and downing them before they could do much damage.

Hanley and Roeser are the choices on any All-Conference team. Hanley carries 187 pounds of beef but he gets around nicely despite his superfluous form. He is a great blocker, tackler and can open up a considerably large breach for his backs to cross through. Shekore produced a 32 yard for a touchdown over his department and incidentally broke a record for the linemen on this side of the Purple Line. It was the only first ten completed all season. Roeser has the edge over Aspatore of Fond du Lac for the other tackle post. He drives through the line hard, has been on the blocking end of many punts, and

Judging is the way which Whitney handled himself during the first three games on the Purple schedule, he would have been to the front in line to be the shaner-back post. Whitney was of All-Conference caliber and had not missed a second of play until the accident occurred at Manitowoc which has kept him in a hospital bed ever since. After his misfortune, White shifted McWilliams, his clever guard, over to the pivot duties and he came through as the best man in the Valley at that position. In fact, he is the best lineman in the conference. His work in the line was as spectacular as Herber's was running the ball. Man is not built on the order of a frontliner for he is a little fellow but here's a good example how brain ex-

ists brains brawn.

A Fine Gift

for the man who spends his evenings at home and prefers something more comfortable than his suit coat.

For the man who is a great deal out of doors, for sports or on business—

For any man who enjoys great comfort in anything he does—

A SWEATER COAT, makes an unusually fine gift.

Our assortments include only coats that are worth while and we offer very durable coats in plain and fancy patterns \$5 at .

A special is of fine all-wool material in new small figured—diamond and jacquard designs —usually shown at \$7.50, \$6 special .

Fine worsted coats—that endure for years—in plain navy are smart as are also the new mulberry, reindeer, dawn, autumn and heather shades \$7 1/2 at .

Splendid Crickets in new Scotch mixtures and \$5 London patterns at .

Each Sweater in a Holly Box

is absolutely invulnerable when the opposition tried out his position.

ASTAPORE AND DU PONT

Aspatore and Du Pont are the two best linemen in the Valley Conference. Primarily the two did hold tackle berths but their defensive abilities would necessitate placing them on the first team. At Fond du Lac, Coach Baker had several weak spots in his team so he used Aspatore at nearly every position from halfback to guard. With his 190 pounds it can be said that he never missed a play in returning a punt to a tie for fourth with Appleton. But he didn't do this in all the games and he only can be rated on the offense, for his defensive work, especially blocking, was weak.

Willems and Queoff, the first from West and the second East, will play the ends. Willems is another man who has not been "written" much but is the best offensive and defensive end in the Conference. Herber did pass most to Willems but when he tossed to Willems it can be said that he never missed.

Judging is the way which Whitney handled himself during the first three games on the Purple schedule, he would have been to the front in line to be the shaner-back post. Whitney was of All-Conference caliber and had not missed a second of play until the accident occurred at Manitowoc which has kept him in a hospital bed ever since. After his misfortune, White shifted McWilliams, his clever guard, over to the pivot duties and he came through as the best man in the Valley at that position. In fact, he is the best lineman in the conference. His work in the line was as spectacular as Herber's was running the ball. Man is not built on the order of a frontliner for he is a little fellow but here's a good example how brain ex-

ists brains brawn.

PRESIDENT URGES FARM RELIEF IN MESSAGE TO CONGRESS

COOLIDGE URGES FEDERAL BOARD TO WORK WITH FARMER

Chief Executive Discusses Government Business in An- nual Letter

Washington, D. C.—Following is the text of President Coolidge's message to congress today:

It is gratifying to report that for the fourth consecutive year the state of the Union in general is good. We are at peace. The country as a whole has had a prosperity never exceeded. Wages are at their highest range, employment is plentiful. Some parts of agriculture and industry have lagged; some localities have suffered from storm and flood. But such losses have been absorbed without serious detriment to our great economic structure. Stocks of goods are moderate and a wholesome caution is prevalent. Rates of interest for industry, agriculture, and government have been reduced. Savers and investors are providing capital for new construction in industry and public works. The purchasing power of agriculture has increased. If the people maintain that confidence which they are entitled to have in themselves in each other, nad in America, a comfortable prosperity will continue.

CONSTRUCTIVE ECONOMY. Without constructive economy in Government expenditures we should not be enjoying these results or these prospects. Because we are not now physically at war, some people are disposed to forget that our war debt still remains. The Nation must make financial sacrifices, accompanied by a stern self-denial in public expenditures until we have conquered the disabilities of our public finance.

While our obligation to veterans and dependents is large and continuing, the heavier burden of the national debt is being steadily eliminated. At the end of this fiscal year it will be reduced from about \$26,600,000,000 to about \$17,975,000,000. Annual interest, including war savings, will have been reduced from \$1,055,000,000 to \$670,000,000. The sacrifices of the people, the economy of the Government, are showing remarkable results. They should be continued for the purpose of relieving the Nation of the burden of interest and debt and releasing revenue for internal improvements and national development.

Not only the amount, but the rate, of Government interest has been reduced. Callable bonds have been refunded and paid, so that during this year the average rate of interest on the present public debt for the first time fell below 4 per cent. Keeping the credit of the Nation high is a tremendously profitable operation.

TAX REDUCTION. The immediate fruit of economy and the retirement of the public debt is tax reduction. The annual saving in interest between 1923 and 1925 is \$21,000,000. Without this no bill to relieve the taxpayers would be worth proposing. The three measures already enacted leave our Government revenues where they are not oppressive. Exemptions have been increased until 115,000,000 people make but 2,500,000 individual taxable returns, so that further reduction should be mainly for the purpose of removing inequalities. The Secretary of the Treasury has recommended a measure which would give us a much better balanced system of taxation and without oppression produce sufficient revenue. It has my complete support.

Unforeseen contingencies requiring money are always arising. Our probable surplus for June 30, 1928, is small. A slight depression in business would greatly reduce our revenue because of our present method of taxation. The people ought to take no selfish attitude of pressing for removing, moderate and fair taxes which might produce a deficit. We must keep our budget balanced for each year. That is the corner stone of our national credit, the trifling price we pay to command the lowest rate of interest of any great power in the world. Any surplus can be applied to reduction, and debt reduction is tax reduction. Under the present circumstances it would be far better to leave the rates as they are than to enact a bill carrying the peril of a deficit. This is not a problem to be approached in a narrow or partisan spirit. All of those who participate in finding a reasonable solution will be entitled to participate in any credit that accrues from it without regard to party. The Congress has already demonstrated that tax legislation can be removed from purely political consideration into the realm of patriotic business principles.

Any bill for tax reduction should be written by those who are responsible for raising, managing, and expending the finances of the Government. If special interests too often selfish, always uninformed of the national needs as a whole, with hired agents using their proposed tenets as encases of propaganda, are permitted to influence the withdrawal of their property from taxation, we shall have a law that is unbalanced and unjust, bad for business, bad for the country, usually resulting in a deficit, with disastrous financial consequences. The Constitution has given the Members of the Congress sole authority to decide what tax measures shall be presented for approval. While welcoming information from any quarter, the Congress should continue to exercise its own judgment in a manner so vital and important to all the interests of the country as taxation.

NATIONAL DEFENSE. Being a nation not yet on the field, but on fair dealing and good will to maintain peace with others, we have provided a moderate military force in a form adapted solely to defense. It should be continued with very sincere sympathy of officers and with the present lack of personnel subject to fluctuations which may be temporary.

WESTERN HEMISPHERE AIR MAIL. The five-year program for our air forces is in keeping with the same policy and commitments with the notable contributions of America to the safety of aeronautics. The provisions of the law lately passed are being executed as fast as the practical

difficulties of an orderly and stable development permit.

While our Army is small, prudence requires that it should be kept in a high state of efficiency and provided with such supplies as would permit of its immediate expansion. The garrison ration has lately been increased. Recommendations for an appropriation of \$6,168,000 for new housing made to the previous Congress failed to pass. While most of the Army is well housed, some of it which is quartered in poor houses. In the past three years \$12,523,000 have been appropriated for reconstruction and repairs, and an authorization has been approved of \$22,301,000 for new housing under which \$8,070,000 has already been appropriated. A law has also been passed, complying with the request of the War Department, allocating funds received from the sale of building and land for housing purposes. The work, however, is not completed, so that other appropriations are being recommended.

Our Navy is likewise a weapon of defense. We have a foreign commerce and ocean lines of trade unsurpassed by any other country. We have outstanding territory in the two great oceans and long stretches of sea-coast studded with the richest cities in the world. We are responsible for the protection of a large population and the greatest treasure ever bestowed upon any people. We are charged with an international duty of defending the Panama Canal. To meet these responsibilities we need a very substantial sea armament. It needs aircraft development, which is being provided under the five-year program. It needs submarines as soon as the department decides upon the best type of construction. It needs airplane carriers and a material addition to its force of cruisers. We can plan for the future and begin a moderate building program.

This country has put away the Old World policy of competitive armaments. It can never be relieved of the responsibility of adequate national defense. We have one treaty secured by an unprecedented attitude of generosity on our part for a limitation in naval armament. After most careful preparation, extending over months, we recently made every effort to secure a three-power treaty to the same end. We were granted much cooperation by Japan, but we were unable to come to an agreement with Great Britain. While the results of the conference were of considerable value, they were mostly of a negative character. We know now that no agreement can be reached which will be inconsistent with a considerable building program on our part. We are ready and willing to continue the preparatory investigations on the general subject of limitation of armaments which have been started under the auspices of the League of Nations.

We have a considerable cruiser tonnage, but a part of it is obsolete. Everyone knew that had a three-power agreement been reached it would have left us with the necessity of continuing our building program. The failure to agree should not cause us to build either more or less than we otherwise should. Any future treaty of limitation will call on us for more ships. We should enter on no competition. We should refrain from no useful program. It should be made clear to all the world that lacking a definite agreement, the attitude of any other country is not to be permitted to alter our own policy. It should especially be demonstrated that propaganda will not cause us to change our course. Where there is no treaty limitation, the size of the Navy which America is to have will be solely for America to determine. No outside influence should enlarge it or diminish it. But it should be known to all that our military power holds no threat of aggrandizement. It is a guaranty of peace and security at home, and when it goes abroad it is an instrument for the protection of the legal rights of our citizens under international law, a refuge in time of disorder, and always the servant of world peace. Whenever our flag goes the rights of humanity increase.

MERCHANT MARINE. The United States Government fleet is transporting a large amount of freight and reducing its drain on the Treasury. The Shipping Board is constantly under pressure, to which it too often yields, to protect private interests, rather than serve the public welfare. More attention should be given to merchant ships as an auxiliary of the Navy. The possibility of including their masters and crews in the Naval Reserve, with some reasonable compensation, should be thoroughly explored as a method of encouraging private operation of shipping. Public operation is not a success. No investigation of which I have caused several to be made, has failed to report that it could not succeed or to recommend speedier transfer to private ownership. Our exporters and importers are both indifferent about using American ships. It should be our policy to keep our present vessels in repair and dispose of them rapidly as possible, rather than undertake any new construction. Their operation is a burden on the National Treasury, for which we are not receiving sufficient benefits.

COMMERCIAL AVIATION. A rapid growth is taking place in aeronautics. The Department of Commerce has charge of the inspection and licensing system and the construction of national airways. Almost 8,000 miles are already completed and about 4,000 miles more contemplated. Nearly 4,000 miles are now equipped and over 3,000 miles more will have lighting and emergency landing fields by next July. Air mail contracts are expected to cover 24 of these lines. Daily airway flying is nearly 15,000 miles and is expected to reach 25,000 miles early next year. Flights for other purposes exceed 22,000 miles each day. Over 300 airports, completed and incomplete, have been laid out. The demand for airmail has greatly increased. The policy already adopted by the Congress is producing the sound development of the commercial industry.

The five-year program for our air forces is in keeping with the same policy and commitments with the notable contributions of America to the safety of aeronautics. The provisions of the law lately passed are being executed as fast as the practical

ability to cooperate. Their physical features, the undeveloped state of their transportation, make an air service especially adaptable to their usage. The Post Office Department should be granted power to make liberal long-term contracts for carrying our mail, and authority should be given to the Army and the Navy to detail aviators and planes to cooperate with private enterprise in establishing such mail service with the consent of the countries concerned. A committee of the Cabinet will later present a report on this subject.

GOOD ROADS

The importance and benefit of good roads is more and more coming to be appreciated. The National Government has been making liberal contributions to encourage their construction. The results and benefits have been very gratifying. National participation, however, should be confined to trunk-line systems. The national tax on automobiles is now nearly sufficient to meet this outlay. This tax is very small, and on low-priced cars is not more than \$2 or \$3 each year.

While the advantage of having good roads is very large, the desire for improved highways is not limited to our own country. It should aim to include all the Western Hemisphere. The principal points in Canada are already accessible. We ought to lend our encouragement in any way we can for more good roads to all the principal points in this hemisphere south of the Rio Grande. It has been our practice to supply these countries with military and naval advisers, when they have requested it, to assist them in national defense. The arts of peace are even more important to them and to us. Authority should be given by law to provide them at their request with engineering advisers for the construction of roads and bridges. In some of these countries there is already wonderful progress being made in road building, but the engineering features are often very exacting and the financing difficult. Private interests should look with favor on all reasonable loans sought by these countries to open such main lines of travel.

This general subject has been promoted by the Pan American Congress of Highways, which will convene again at Rio de Janeiro in July, 1928. It is desirable that the Congress should provide for the appointment of delegates to represent the Government of the United States.

CUBAN PARCEL POST

We have a temporary parcel-post convention with Cuba. The advantage of it is all on our side. During 1926 we shipped twelve times as many parcels, weighing twenty-four times as much, as we received. This convention was made on the understanding that we would repeat an old law prohibiting the importation of cigars and cigarettes in quantities less than 3,000, enacted in 1866, to discourage smuggling, for which it has long been unnecessary. This law unjustly discriminates against an important industry of Cuba. Its repeal has been recommended by the Treasury and Post Office Departments. Unless this done our merchants and railroads will find themselves deprived of this large parcel-post business after the 1st of next March, the date of the expiration of the convention, which has been extended upon the specific understanding that it would expire at that time unless this legislation was enacted. We purchase large quantities of tobacco made in Cuba. It is not probable that our purchase would be any larger

if this law was repealed, while it would be an advantage to many other industries in the United States.

INSULAR POSSESSIONS

Conditions in the Philippine Islands have been steadily improved. Contentment and good order prevail. Roads, irrigation works, harbor improvements, and public buildings are being constructed. Public education and sanitation have been advanced. The Government is in a sound financial condition. These immediate results were especially due to the administration of Gov. Gen. Leonard Wood. The six years of his governorship marked a distinct improvement in the islands and rank as one of the outstanding accomplishments of this distinguished man. His death is a loss to the Nation and the islands.

GOOD ROADS

Agriculture has not fully recovered from postwar depression. The fact is that economic progress never marches forward in a straight line. It goes in waves. One part goes ahead, while another halts and another recedes. Everybody wishes agriculture to prosper. Any sound and workable

proposal to help the farmer will have the earnest support of the Government. Their interests are not all identical. Legislation should assist as many producers in as many regions as possible. It should be the aim to assist the farmer to work out his own salvation socially and economically. No plan will be of any permanent value to him which does not leave him standing on his own foundation.

GOOD ROADS

In the past the Government has spent vast sums to bring land under cultivation. It is apparent that this has reached temporarily the saturation point. We have had a surplus of production and a poor market for land, which has only lately shown signs of improvement. The main problem which is presented for solution is one of dealing with a surplus of production. It is useless to propose a temporary expedient. What is needed is permanency and stability. Government price fixing is known to be sound and bound to result in disaster. A Government subsidy would work out in the same way. It can not be sound for all of the people to hire some of the people to produce a crop which neither the producers nor the rest of the people want.

Price fixing and subsidy will both increase the surplus, instead of diminishing it. Putting the Government directly into business is merely a combination of subsidy and price fixing aggravated by political pressure.

These expedients would lead logically to telling the farmer by law what and how much he should plant and where he should plant it, and what and how much he should sell and where he should sell it. The most effective means of dealing with surplus crops is to reduce the surplus acreage. While this can not be done by the individual farmer it can be done through the organizations already in existence, through the information published by the Department of Agriculture, and especially through banks and others who supply credit referring to finance an acreage manifestly too large.

It is impossible to provide by law for assured success and prosperity for all those who engage in farming. If acreage becomes overextended, the Government can not assume responsibility for it. The Government can, however, assist cooperative associations and other organizations in orderly marketing and handling a surplus clearly due to weather and seasonal conditions, in order to save the producer from preventable loss. While it is probably impossible to secure this result at a single step, and much will have to be worked out by trial and rejection, a beginning could be made by setting up a Federal board

to control the surplus acreage.

PANAMA CANAL

The number of commercial ships passing through the Panama Canal has increased from 3,967 in 1923 to 5,475 in 1927. The total amount of tolls turned into the Treasury is over \$16,000,000, while all the operations of the canal have yielded a surplus of about \$80,000,000. In order to provide additional storage of water and give some control over the floods of the Chagres River, it is proposed to erect a dam to cost about \$12,000,000 at Alajuela. It will take some five years to complete this work.

AGRICULTURE

The past year has seen a marked improvement in the general condition of agriculture. Production is better balanced and without acute shortage or heavy surplus. Costs have been reduced and the average output of the worker increased. The level of farm prices has risen, while others have fallen, so that the purchasing power of the farmer is approaching a normal figure. The individual farmer is

entitled to great credit for the progress made since 1921. He has adjusted his production and through cooperative organizations and other methods improved his marketing. He is using authenticated facts and employing sound methods which other industries are obliged to use to secure stability and prosperity. The old-fashioned haphazard system is being abandoned, economies are being applied to ascertain the best adapted unit of land, diversification is being promoted, and scientific methods are being used in production, and business principles in marketing.

This is not a proposal to lend more money to the farmer, who is already fairly well financed, but to lend money temporarily to experimental marketing associations which will no doubt ultimately be financed by the regularly established banks, as were the temporary operations of the War Finance Corporation. Cooperative marketing especially would be provided with means of buying or building physical properties.

The National Government has almost entirely relieved the farmer from income taxes by successive tax reductions, but State and local taxes have increased, putting on him a grievous burden. A policy of rigid economy should be applied to State and local expenditures. This is clearly within the legislative domain of the States. The Federal Government has also improved our banking structure and system of agricultural credits. The farmer will be greatly benefited by similar action in many States. The Department of Agriculture is undergoing changes in organization in order more completely to separate the research and regulatory divisions, that each may be better administered. More emphasis is being placed on the research program, not only by enlarging the appropriations for State experiment stations but by providing funds for expanding the research work of the department. It is in this direction that much future progress can be expected.

THE PROTECTIVE TARIFF

The present tariff rates supply the National Treasury with well over \$600,000,000 of annual revenue. Yet, or commission of able and experienced men in marketing, granting equal advantages under this board to the various agricultural commodities and sections of the country, giving encouragement to the cooperative movement in agriculture, and providing a revolving loan fund at a moderate rate of interest for the necessary financing. Such legislation would lay the foundation for a permanent solution of the surplus problem.

This is not a proposal to lend more

money to the farmer, who is already fairly well financed, but to lend money temporarily to experimental marketing associations which will no doubt ultimately be financed by the regularly established banks, as were the temporary operations of the War Finance Corporation. Cooperative marketing especially would be provided with means of buying or building physical properties.

PRESIDENT URGES FARM RELIEF IN HIS NOTE TO CONGRESS

Wants Federal Board to Extend Help to Farmers of U.S.

Continued from page 16

nitrate plants on this project are of little value for national defense and can probably be disposed of within two years. The oxidation part of the plants, however, should be retained indefinitely. This leaves this project mostly concerned with power. It should, nevertheless, continue to be dedicated to agriculture. It is probable that this desire can be best served by disposing of the plant and applying the revenues received from it to research for methods of more economical production of concentrated fertilizer and to demonstrations and other methods of stimulating its use on the farm.

FLOOD CONTROL

For many years the Federal Government has been building a system of dikes along the Mississippi River for protection against high water. During the past season the lower States were overcome by a most disastrous flood. Many thousands of square miles were inundated, a great many lives were lost, much livestock was drowned, and a very heavy destruction of property was inflicted upon the inhabitants. The American Red Cross at once went to the relief of the stricken communities. Appeals for contributions have brought in over \$17,000,000. The Federal Government has provided services, equipment, and supplies probably amounting to about \$7,000,000 more. Between \$5,000,000 and \$10,000,000 in addition have been provided by local railroads, the States and their political units. Credits have been arranged by the Farm Loan Board, and three emergency finance corporations with a total capital of \$3,000,000 have insured additional resources to the extent of \$12,000,000. Through these means the 700,000 people in the flooded areas have been adequately supported. Provision has been made to care for those in need until after the 1st of January.

The Engineer Corps of the Army has contracted to close all breaks in the dike system before the next season of high water. A most thorough and elaborate survey of the whole situation has been made and embodied in a report with recommendations for future flood control, which will be presented to the Congress. The carrying out of their plans necessarily extend over a series of years. They will call for a raising and strengthening of the dike system with provision for emergency spillways and improvements for the benefit of navigation.

Under the present law the land adjacent to the dikes has paid one-third of the cost of their construction. This has been a most extraordinary concession from the plan adopted relating to irrigation, where the general rule has been that the land benefited should bear the entire expense. It is true, of course, that the troublesome waters do not originate on the land to be reclaimed, but it is also true that such waters have a right of way through that section of the country and the land there is charged with that easement. It is the land of this region that is to be benefited. To say that it is unable to bear any expense of reclamation is the same thing as saying that it is not worth reclaiming. Because of expenses incurred and charges already held against this land, it seems probable that some revision will have to be made concerning the proportion of cost which it should bear. But it is extremely important that it should pay enough so that those requesting improvements will be charged with some responsibility for their cost, and the neighborhood where works are constructed have a pecuniary interest in preventing waste and extravagance and securing a wise and economical expenditure of public funds.

It is necessary to look upon this emergency as a national disaster. It has been so treated from its inception. Our whole people have provided with great generosity for its relief. Most of the departments of the Federal Government have been engaged in the same effort. The governments of the affected areas, both State and municipal, can not be given too high praise for the courageous and helpful way in which they have come to the rescue of the people. If the sources directly chargeable can not meet the demand, the National Government should not fail to provide generous relief. This, however, does not mean restoration. The Government is not an insurer of its citizens against the hazard of the elements. We shall always have flood and drought, heat and cold, earthquake and wind, lightning and tidal wave which are all too constant in their afflictions. The Government does not undertake to reimburse its citizens for loss and damage incurred under such circumstances. It is chargeable, however, with the rebuilding of public works and the humanitarian duty of relieving its citizens from distress.

The people in the flooded area and their representatives have approached this problem in the most generous and understanding way. They should be met with a like spirit on the part of the National Government. This is all one country. The public needs of each part must be provided for by the public at large. No required relief should be refused. An adequate plan should be adopted to prevent a recurrence of this disaster in order that the people may restore to productivity and comfort their fields and their towns.

Legislation by this Congress should be confined to our principal and most pressing problem, the lower Mississippi, considering tributaries only so far as they materially affect the main flood problem. A definite Federal program relating to our waterways was proposed when the last Congress authorized a comprehensive survey of all the important streams of the country in order to provide for their improvement, including flood control, navigation, power and irrigation. Other legislation should wait pending a report on this survey. The recognized needs of the Mississippi should not be made a vehicle for carrying other projects. All proposals for development should stand on their own merits. Any other method would

result in ill-advised conclusions, great waste of money, and instead of promoting would delay the orderly and certain utilization of our water resources.

Very recently several of the New England States have suffered somewhat similarly from heavy rainfall and high water. No reliable estimate of damage has yet been computed, but it is very large to private and public property. The Red Cross is generally undertaking what is needed for immediate relief, repair and reconstruction of houses, restocking of domestic animals, and food, clothing, and shelter. A considerable sum of money will be available through the regular channels in the Department of Agriculture for reconstruction of highways. It may be necessary to grant special aid for this purpose. Complete reports of what is required will undoubtedly be available early in the session.

INLAND NAVIGATION

The Congress in its last session authorized the general improvements necessary to provide the Mississippi waterway system with better transportation. Stabilization of the levels of the Great Lakes and their opening to the sea by an effective shipway remain to be considered. Since the last session the Board of Engineers of the War Department has made a report on the proposal for a canal through the State of New York, and the Joint Board of Engineers, representing Canada and the United States, has finished a report on the St. Lawrence River. Both of these boards conclude that the St. Lawrence project is cheaper, affords a more expeditious method of placing western products in European markets, and will cost less to operate. The State Department has requested the Canadian Government to negotiate treaties necessary to provide for this improvement. It will also be necessary to secure an agreement with Canada to put in works necessary to prevent fluctuation in the levels of the Great Lakes.

Legislation is desirable for the construction of a dam at Boulder Canyon on the Colorado River, primarily as a method of flood control and irrigation. A secondary result would be a considerable power development and a source of domestic water supply for southern California. Flood control is clearly a national problem, and water supply is a Government problem, but every other possibility should be exhausted before the Federal Government becomes engaged in the power business. The States which are interested ought to reach mutual agreement. This project is in reality their work. If they wish the Federal Government to undertake it, they should not hesitate to make the necessary concessions to each other. This subject is fully discussed in the annual report of the Secretary of the Interior. The Columbia River Basin project is being studied and will be one to be considered at some future time.

The Inland Waterways Corporation is proving successful and especially beneficial to agriculture. A survey is being made to determine its future needs. It has never been contemplated that if inland rivers were opened to navigation it would then be necessary for the Federal Government to provide the navigation. Such a request is very nearly the equivalent of a declaration that their navigation is not profitable; that the commodities which they have to carry, can be taken at a cheaper rate by some other method, in which case the hundreds of millions of dollars proposed to be expended for opening rivers to navigation would be not only wasted, but would entail further constant expenditures to carry the commodities of private persons for less than cost.

The policy is well established that the Government should open public highways on land and on water, but for use of the public in their private capacity. It has put on some demonstration barge lines, but always with the expectation that if they prove profitable they would pass into private hands and if they do not prove profitable they will be withdrawn. The problems of transportation over inland waterways should be taken up by private enterprise, so that the public will have the advantage of competition in service. It is expected that some of our lines can be sold, some more demonstration work done, and that with the completion of the Ohio project a policy of private operation can be fully developed.

PROHIBITION

After more than two generations of constant debate, our country adopted a system of national prohibition under all the solemnities involved in an amendment to the Federal Constitution. In obedience to this mandate the Congress and the States, with one or two notable exceptions, have passed required laws for its administration and enforcement. This imposes upon the citizenship of the country, and especially on all public officers, not only the duty to enforce, but the obligation to observe the sanctions of this constitutional provision and its resulting laws. If this condition could be secured, all questions concerning prohibition would cease. The Federal Government is making every effort to accomplish these results through careful organization, large appropriations, and administrative effort. Smuggling has been greatly cut down. The larger sources of supply for illegal sale have been checked, and by means of injunction and criminal prosecution the process of enforcement is being applied. The same vigilance on the part of local governments would render these efforts much more successful. The Federal authorities propose to discharge their obligation for enforcement to the full extent of their ability.

THE NEGRO

History does not anywhere record so much progress made in the same length of time as that which has been accomplished by the Negro race in the United States since the Emancipation Proclamation. They have come from slavery to be prominent in education, the professions, art, science, agriculture, banking, and commerce. It is estimated that 30,000 of them are on the Government pay rolls, drawing about \$50,000,000 each year. They have been the recipients of presidential appointments and their professional ability has risen to a sufficiently high plane so that they have been intrusted with the entire management and control of the great veterans' hospital at Tuskegee, where their conduct has taken high rank. They have shown that they have been worthy of all the encouragement which they have received. Nevertheless, they are too often subjected to thoughtless and inconsiderate treatment, unworthy alike of the white or colored races. They have especially been made the target of the foul

crime of lynching. For several years these acts of unlawful violence had been diminishing. In the last year they have shown an increase. Every principle of order and law and liberty is opposed to this crime. The Congress should enact any legislation it can under the Constitution to provide for its elimination.

AMERICAN INDIAN

The condition of the American Indian has much improved in recent years. Full citizenship was bestowed upon them on June 2, 1924, and appropriations for their care and advancement has been increased. Still there remains much to be done.

DEPARTMENT OF LABOR

Industrial relations have never been more peaceful. In recent months they have suffered from only one serious controversy. In all others difficulties have been adjusted, both management and labor wishing to settle controversies by friendly agreement rather than by compulsion.

The welfare of women and children is being especially guarded by our Department of Labor. Its Children's Bureau is in cooperation with 25 State boards and 80 juvenile courts.

Through its Bureau of Immigration it has been found that medical examination abroad has saved prospective immigrants from much hardship.

The needs along health, educational, industrial, and social lines, however, are great, and the Budget estimates for 1926 include still further increases for Indian administration.

To advance the time when the Indians may become self-sustaining, it is my belief that the Federal Government should continue to improve the facilities for their care, and as rapidly as possible turn its responsibility over to the States.

COAL

Legislation authorizing a system of fuel administration and the appointment by the President of a Board of Mediation and Conciliation in case of actual or threatened interruption of production is needed. The miners themselves are now seeking information and action from the Government, which could readily be secured through such a board.

It is believed that a thorough investigation and re-consideration of this proposed policy by the Congress will demonstrate that this recommendation is sound and should be adopted.

PETROLEUM CONSERVATION

The National Government is undertaking to join in the formation of a cooperative committee of lawyers, engineers, and public officers, to consider what legislation is to be adopted before the Federal Government becomes engaged in the power business.

The States which are interested ought to reach mutual agreement. This project is in reality their work.

If they wish the Federal Government to undertake it, they should not hesitate to make the necessary concessions to each other.

This subject is fully discussed in the annual report of the Secretary of the Interior.

The Columbia River Basin project is being studied and will be one to be considered at some future time.

The Inland Waterways Corporation is proving successful and especially beneficial to agriculture.

A survey is being made to determine its future needs. It has never been contemplated that if inland rivers were opened to navigation it would then be necessary for the Federal Government to provide the navigation.

Such a request is very nearly the equivalent of a declaration that their navigation is not profitable;

that the commodities which they have to carry, can be taken at a cheaper rate by some other method,

in which case the hundreds of millions of dollars proposed to be expended for opening rivers to navigation would be not only wasted,

but would entail further constant expenditures to carry the commodities of private persons for less than cost.

The policy is well established that the Government should open public highways on land and on water, but for use of the public in their private capacity.

It has put on some demonstration barge lines, but always with the expectation that if they prove profitable they would pass into private hands and if they do not prove profitable they will be withdrawn.

The problems of transportation over inland waterways should be taken up by private enterprise, so that the public will have the advantage of competition in service.

It is expected that some of our lines can be sold, some more demonstration work done, and that with the completion of the Ohio project a policy of private operation can be fully developed.

From Us,
Our Service Just Begins!

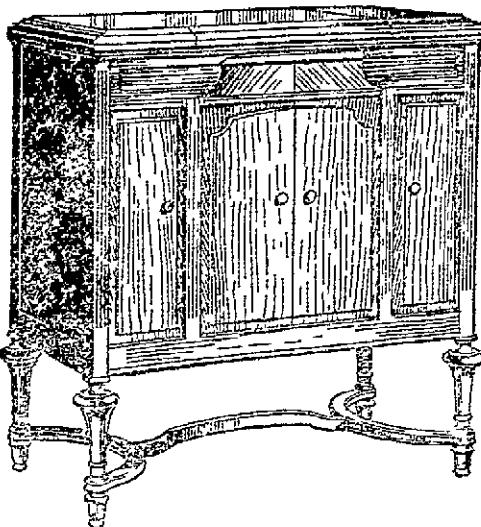

BY ITS pleasant and efficient service, our store has built up a long list of friends and customers.

Drop in and look over our wide selection of Orthophonic Victrola models. You'll find

Number Four-forty.
A very popular model
in classic design.

one that is just suited to your taste and your pocketbook.

Enjoy the latest Victor Records on the instrument you like best. Our convenient payment plan will make it easy for you to have an Orthophonic Victrola in your home this Christmas. Let us explain —today!

Radiola (R.C.A.) Model 17 is now available with Orthophonic Victrola.

JACK LOCKWILL BACK AT ROCKLAKE

"Though you are unknown to one another, you all know me and I know you all, for I called you together," the leader went on. "Our first work is to prevent the election of Stan Coburn as manager of the class football team. Coburn's a Lockwill man, and he'll make that fellow captain of the team." "Hark!" broke in one of the others. "Somebody's knocking on the door!"

They listened breathlessly. The rapping on the door was repeated. "It's the signal knock!" whispered an alarmed fellow. "We're all here! Somebody's betrayed us!"

The leader hurried to the door. "Who's there?" he called cautiously. "Me-Piper!" was the answer. When the door was opened, Custard Pie staggered in, panting.

"Some fellows nabbed me and took my hood!" chattered Custard. "They locked me up, but I got away." "There are seven of us here, wearing hoods!" said the leader sharply. "One is an outsider! The only way to find out which one, is to unmask. Off with your hood, everybody!" As they obeyed the command, there was an explosion and a blinding flare of light. (To Be Continued)

CALUMET
COUNTY

KAUKAUNA - LITTLE CHUTE - KIMBERLY

NEARBY
TOWNSSCHOOL BOARD FOR
ADDING GYMNASIUM
TO H. S. BUILDINGSecretary instructed to
Ascertain Cost of Addition
to High School

Kaukauna—Kaukauna's dreams of a modern high school auditorium and gymnasium may be realized within the next year or two because of action taken by the board of education at its regular monthly meeting Monday evening in the high school offices. The board was unanimous for the building and believed the coming year as opportune as any. The secretary was instructed to get in touch with Parkinson and Dochendorf, La Crosse architects who designed the high school building, and get an estimate of the cost of the proposed addition. It was believed that it would cost around \$60,000. Early in the new year the board proposes to present the matter to the city council and immediate action will be urged. If the council does not care to vote on the matter the board will ask that it be put up to the citizens at the spring election.

INSTALL BOILER

James McFadness was authorized by the board to enter into negotiations with the Feller Plumbing Co. of this city for the installation of 900 gallon hot water boiler for the high school shower room.

The board granted permission to Superintendent J. F. Cavanaugh to attend the national city superintendent's meeting in Boston from Feb. 25 to Mar. 3. Mrs. Leona Hale, supervisor of grades, was appointed as Kaukauna delegate to the city grade school supervisor's meeting to be held at Fond du Lac on Friday of this week.

Coach Harry McAndrews will attend the physical education clinic to be held at the University of Wisconsin on Friday and Saturday of this week. Basketball will be discussed on Friday and track on Saturday.

Social Items

Kaukauna—Miss Dorothy Goldin entertained seven couples at her home Sunday evening. The time was spent in dancing and playing games. Lunch was served at Mulholland's Tea Shop.

The Junior class of Kaukauna High school held a party in the high school building on Friday evening. Dancing and games furnished the entertainment. A 10 o'clock lunch was served. Music for the dance was furnished by the high school orchestra.

A regular meeting of the Kaukauna post of the American Legion will be held at 7:30 Tuesday evening. A committee will be appointed at the meeting to take care of the Christmas basket distribution. A roast pig will be served the members following the business meeting.

Jacob Walls was surprised at his home on Wednesday evening by a group of friends. A 6 o'clock dinner was served. Music for the occasion was furnished by the Green Bay Boys' orchestra. Those who attended the party from out of town were: John Walls Jr., Mr. and Mrs. John Rose and Mrs. M. Moe, all of Green Bay.

A regular meeting of Brotherhood of Andrew and Phillip of Emmanuel Reformed church was held Friday evening in the church hall. A social hour followed the business meeting.

START TICKET SALE
FOR LYCEUM NUMBER

Kaukauna—Adult tickets for the second number of the lyceum course sponsored by the Kaukauna High School Athletic association were placed on sale Monday morning. The Slout players will present a three act play at the high school auditorium on Monday evening, Dec. 12.

The association is attempting to give the city a splendid lyceum course at low cost. Olin G. Dryer, principal of the high school, said "It is not the aim of the association to make money but to just be satisfied with breaking even."

The four classes will compete in the adult ticket sale and the class selling the most tickets will receive everything made above expenses. It is costing the association approximately \$80 to present this number.

Student tickets will be sold at the high school all of this week.

25 BOYS SEEK PLACES
ON BASKETBALL SQUAD

Kaukauna—Approximately twenty-five boys turned out for the first high school basketball practice held Monday afternoon. Coach Harry McAndrews spent the afternoon teaching the squad the fundamentals of the game. Those out for basketball are: Robert Grogan, Charles Block, Myron Eiler, Peter Hansen, Ralph Sager, Melvin Sager, Herman Dix, Joseph Toman, Joseph Schmidt, John Taylor, William Rohan, Willie Miller, Lloyd Derry, Karl Farwell, Robert Main, Gordon Nicholson, Jack Hilgenberg, Harvey Doering, Robert Driessens, Richard Ferguson, Vincent Solberg and Marvin Miller.

The Post-Crescent's representative at Kaukauna is Gordon Patton. His telephone numbers are 298 J and 10. Business with The Post-Crescent may be transacted through Mr. Patton.

The Misses Josie O'Donell, Mabel

GREEN BAY MAN WINS
IN SKAT TOURNAMENT

Kaukauna—Fred Altlinger of Green Bay won first place in the skat tournament held at George Giesler's place on Second Sunday. He received a prize of \$12. Other winners were: Second, Gottlieb Ristau, Kaukauna; third, Peter Vandervoort, DePere; fourth, August Parman, Kaukauna; fifth, Fred Reichel, Kaukauna; sixth, Wilbur Dietzler, Hortonville; seventh, Louis Vetsch, Kaukauna.

There were twelve tables in play. Those from out of town at the tournament were: Fred Altlinger, Paul Hoffman, M. Thomas, J. Foller and Dr. W. A. Stuart of Green Bay, George Fraser of Appleton, Leon Dietzler, Peter Olk, R. Reid, Walter Dietzler and Wilbur Dietzler of Hortonville, Joseph Woltinger and James Coonen of Dundas, Frank Sommers and John Walschlager of Greenleaf, Robert Reinholz of Brillion and Herman Brochtrup of Forest Junction.

6TH GRADE OF PARK
SCHOOL WINS CONTEST

Kaukauna Public School
Youngsters Take Part in
Music Theory Race

Kaukauna—Park school sixth grade won the music theory contest conducted in the fourth, fifth and sixth grades of the city grade schools with an average of 57.76 per cent. Second place went to Park school fifth grade with 53.81 per cent. Winners of first place will receive a framed picture of Mozart and second place a picture of Beethoven. Those receiving honorable mention were Nicolet sixth grade with 50.88 per cent and Park school fourth grade with 48.55 per cent.

Two examinations on key signatures and time signatures, one written and one oral, were given by Miss Eleanor Wooster, city supervisor of music, to decide the winners. Preparations for the examinations have been underway for the last three weeks under the direction of the music teacher who also prepared study sheets for the children.

Winners of first place scored 35 in the oral and 80.52 in the written work while second place made 45 in the oral but only 62.62 in the written work. Scores made by other grades were: Nicolet fifth, 44.95; and Nicolet fourth, 20.15. Easter examinations were given the lower grades to put them on an equal basis with the more advanced pupils.

Those students who made a grade of ninety or more in the written examinations were: Nicolet school, fourth grade, Robert Mooney, 95; Eunice Starkie, 95; and Carl Anderson, 92; fifth grade, Jennie Golden, 100, Arden Tousey, 100, Raymond Elpp, 95 and Henry Corp., '35; sixth grade, Leslie O'Dell, 100, Marcella Rodel, 97, Dorothy Look, 94, Stanley Dix, 93 and Donald Wenzel, 92; Park school, fourth grade, June Cech, 100, Delores Becker, 94 and Harriet Cleland, 90; fifth grade, Wilma Denzer, 100, Nedra Rademacher, 98 and Harold Brainer, 90; sixth grade, Twanette Rademacher, 100; Margaret Eichenne, 100, Melvin Lorenzen, 100, Gordon Ristau, 99, Milton Rohan, 98, Matilda Castaway, 98, Margaret McNaughton, 98, Lillian Sitez, 96, Harold Heiting, 94 and William Cech, 92.

DRYER IN SCOUT HIRE

Kaukauna—Olin G. Dryer, member of the Kaukauna Boy Scout executive board, took part in the overnight hike made by about thirty Appleton and Neenah men on Saturday and Sunday. The troop left Appleton Saturday noon for Gardner dam.

MAN TAKEN TO APPLETON
TO SUBMIT TO OPERATION

Special to Post-Crescent

Stockbridge—Joseph Jeas of East Stockbridge, was rushed to the St. Elizabeth hospital at Appleton Sunday afternoon. He submitted to an operation.

A box social was held at the social hall on Monday evening.

A miscellaneous concert will be held at the M. E. Social hall at 8 o'clock Thursday evening. Songs and readings will be the features of the evening.

The sisters and pupils of Mrs. Anna Hammen attended the play "Ben Hur" at the Princess theatre in Chilton.

Mrs. Leo Schleszowski and daughter Helen Marie of Kaukauna, are spending several days at the Dales Denny home.

Mrs. Wilder Drake is visiting relatives in Fond du Lac.

James Dutcher spent the weekend with relatives at Oshkosh.

Mr. and Mrs. O. C. Hall and family spent the weekend at the Edward Hall home.

Mr. and Mrs. Fred Malloy spent the weekend with Oshkosh relatives.

Mr. and Mrs. Carl Gohmeyer visited at the home of their daughter, Mrs. R. A. Rissee at Appleton, on Sunday.

Mr. and Mrs. R. J. Finczel were business callers at Chilton Saturday.

Mr. and Mrs. Ray McHugh of Racine spent the weekend at the McHugh home.

Leopold Holzer spent the weekend with his daughter, Mrs. Ada Paulson, who is a patient at the sanitarium in Oshkosh.

Mrs. and Mrs. Alex Wolf and son of Kaukauna, visited at the John Dingel home Thursday. Mrs. Fugel returned to their home with them and remained until Sunday.

Miss Mildred Brown called at the R. J. Dingel home Sunday.

Miss Alice Barrett and Georgiana Sebomish of Kaukauna, spent the weekend at their homes here.

Miss Hildegard Giles, who has recently submitted to an operation for appendicitis, is reported to be doing nicely.

The Misses Josie O'Donell, Mabel

and Marvin Miller.

LEADERS OF SUNDAY SCHOOL WORK WOULD FORM ORGANIZATION

Representatives of Seven Local Churches Gather to Talk Over Plans

Plans for reorganization of the Appleton Church School Superintendents' club were started at a meeting of representatives of seven local churches and the Appleton religious day school Monday evening at the Y. M. C. A.

Four other churches signified their intention of joining the organization. The meeting was preceded by a dinner with the Y's Mens Club. Dr. J. R. Denyes presided.

Dr. J. A. Holmes, chairman of the promotion committee for the Sunday school teachers' training school, which will be held Feb. 23 to March 6 under auspices of local churches, gave a report and churchmen decided to report to their Sunday schools and ask their cooperation. The representatives also will report to their Sunday schools on the organization of the new superintendents' club with requests for cooperation. The schools will decide whether the club will be for the superintendents and their assistants only or for other Sunday school workers of the various churches.

Dr. Denyes outlined the work which a Sunday school superintendents' club can carry on if it is organized, emphasizing the training school for the superintendents. He added that it should also be for prospective Sunday school workers.

Other projects which the club could help were outlined. They included plans to partially avoid the annual summer slump in Sunday school attendance, more thorough Bible knowledge in the Sunday school, promotion of religious education on week days in the community schools and in such schools where there are such schools, enlisting Sunday school children as church members, how to hold older boys and girls in Sunday schools, inter-Sunday school athletic leagues with basketball for boys and volleyball and bowling for men, and relations of college students to the Sunday schools of their church affiliations. It was decided that a more thorough Bible curriculum in the Sunday school is needed to improve worship in the school.

The chairman was instructed to appoint a committee which will plan an organization for the superintendents' club and also will nominate officers. It is to meet within the next week.

DIETRICH PRESIDENT OF MT. OLIVE CONGREGATION

John Dietrich was elected president of the congregation of Mount Olive Lutheran church for 1928 at the annual meeting and election of officers Sunday evening at the church parsonage. Other officers chosen were John Hegner vice president; Alvin Falk, financial secretary; Louis Freud, trustee; Harvey Priebe, recording secretary; Henry Wichman, treasurer.

The business meeting was occupied entirely by the election of officers and was followed by a fish fry and social program. Approximately 125 members, the largest number at an annual congregation meeting, attended the session.

The case against Alfred Gottscoeler, Sheboygan, was dismissed when it was revealed that he was the porter of a soft drink parlor operated by Fred Heflin. Heflin was sentenced to serve six months in the house of correction on a charge of maintaining a nuisance.

The case against Alfred Gottscoeler, Sheboygan, was dismissed when it was revealed that he was the porter of a soft drink parlor operated by Fred Heflin. Heflin was sentenced to serve six months in the house of correction on a charge of maintaining a nuisance.

Edward Enders, proprietor of the Idlewild hotel, St. Cloud was given six months and a fine of \$200 after admitting he made and sold beer in his hotel. Emil Kramer, his bartender, was fined \$100.

Louis Horsch, Slinger, was given six months and Anthony Alberts, Okauchee, six months.

EQUIPMENT TO BATTLE SNOWDRIFTS IS READY

Employees of the county highway department are preparing trucks and snow plows for winter work. The trucks are being overhauled and repaired and snow plows repaired and attached. The work will be completed in a few days according to A. G. Druswitz, highway commissioner.

The opposing views of the east and west on this question will be mediated before the committee meeting adjourns seemed a questionable possibility.

CONCLUDE MISSION FEAST AT ZION CHURCH

The second half of the mission festival of Zion Lutheran church will be held Tuesday and Wednesday evenings at the church. An English service will be conducted at 7:30 Tuesday evening.

The Rev. Peter Euenting of Pittsfield, Wis., will be the speaker.

On Wednesday evening a German sermon will be preached at 7:30 by the Rev. Fred Ohlrogge of Seymour. The Zion Lutheran orchestra will accompany the choir and children's chorus.

TOWN OF CENTER MAY GET NEW SCHOOLHOUSE

Farmers in the town of Center will meet Tuesday evening to decide whether a new school building will be built in that district. The school board, if authorized to build the new school, will have plans of the new structure made so that work may be started early in the spring.

CITY BILLS SANCTIONED BY FINANCE COMMITTEE

The regular monthly meeting of the city finance committee was held at the city hall Monday afternoon at 5:30.

Routine matters, consisting of sanctioning the city's bills for November for presentation to the city council consisted most of their work.

SPANISH WAR VETS TO CONSIDER HIGHER DUES

Members of C. O. Base camp No. 2 United States War Veterans will hear an address by an assistant to Commander-in-chief John J. Morrissey at their regular meeting Monday evening. In addition to routine business, the matters of raising dues will also be considered.

TURROW FUNERAL

The funeral of Mrs. Martin Turrow, 52, W. High-st., who died Sunday night, will be held at 2 o'clock Wednesday morning at St. Joseph church, instead of on Wednesday as was previously scheduled. Interment will be in St. Joseph cemetery.

WIND PILES UP ICE ON LAKE WINNEBAGO SHORE

Menasha—Ice in Lake Winnebago between Waupaca and Brighton beach is piled up by the wind to a height of six or eight feet and great white mountains of it can be seen out in the lake several miles and along the North shore. The lake was practically frozen over Monday but there are now great fields of open water.

Mrs. ELLEN GLEISNER Mrs. John Schuh, 211 N. Appleton st., has received word of the death of her sister-in-law, Mrs. Ellen Gleisner, 55, which occurred at Blue Lake. Mrs. Gleisner was a guest of the home of Mrs. Schuh about a month ago.

CONTINUED FROM PAGE 1

representative and Mr. Melton considerate. The fight over that issue probably will begin in the open before the end of the week, for the leaders plan to clear away the legislative underbrush as quickly as possible and give tax legislation the right-of-way.

SEE FARM RELIEF FIGHT

Farm relief is certain to again be a storm center, for the president reaffirmed in his message that he could not accept the equalization fee of the McNary-Haugen bill, which a majority of both senate and house approved last session, only to encounter a presidential veto.

Mr. Coolidge proposed instead of the McNary-Haugen plan, a financing

of farm relief by the states.

OFFICIALS DISCUSS PROPOSED VIADUCT

Mayor and Committee Take Up McCarthy's Crossing Idea With Commission

Mayor A. C. Rule, C. D. Thompson, chairman of council; Alderman Mike Steinbauer and City Engineer L. M. Schindler went to Madison Monday night, where, at the invitation of the state highway commission, they will discuss the proposed viaduct under the Chicago and Northwestern railway tracks on Wisconsin Avenue.

The committee hopes to prove to the state railroad commission that considerable money will be saved by building a new road from Appleton to McCarthy's crossing on the north side of the track. This highway would eliminate the viaduct at Appleton and another proposed viaduct at Kaukauna. Highway 41 would be rerouted over this new road, thereby shortening the distance to Green Bay from Appleton by cutting off Kaukauna and Little Chute.

The rail commission has ordered the city to proceed with construction of the viaduct here and the road body with the city officials will attempt to secure a 60-day postponement while the proposed new road is investigated.

The chairman was instructed to appoint a committee which will plan an organization for the superintendents' club and also will nominate officers. It is to meet within the next week.

EAST-WEST BATTLE ON CONVENTION CITY

ained the party could not be sure of his president's stand unless he issued a more definite statement.

From the west, however, came a different story. Charles A. Rawson, Iowa, and W. E. Milligan, South Dakota, reported activity well under way on behalf of Frank O. Lowden, with an undercurrent of sentiment for Vice President Dawes if the former Illinois governor shows insufficient strength. The committee from Oregon, Washington, Wyoming, Colorado and California persisted in their previously expressed opinion that Mr. Coolidge had to be understood as meaning he was going to leave the White House, and all reported their states for Secretary Hoover.

That the opposing views of the east and west on this question will be mediated before the committee meeting adjourns seemed a question-possible.

DEATHS

JOSEPH PINGLE

A change in funeral services for Joseph Pingle, town of Bovina farmer, who died as the result of an accident Saturday evening, has been announced. The services will be conducted at 1 o'clock Wednesday afternoon from the home and at 2 o'clock from the Immanuel Lutheran church at Black Creek by the Rev. J. G. Marsh. Mr. Pingle was found in the woods near his home after his horses had returned to the farm without him. It is believed he suffered a stroke and fractured his skull when he fell from the wagon.

INFANT DIES

The infant daughter of Mr. and Mrs. Martin Bumann of the town of Clayton died Monday morning with pneumonia. Survivors are her parents and her grandparents, Mr. and Mrs. H. Sauer and Mr. and Mrs. Henry Bumann, both of Clayton. Funeral services will be held at 1:30 Wednesday from the house and at 2 o'clock from the Greenville Lutheran church. The Rev. Leonard Kasper will be in charge.

MRS. MARGARET CAMPAU

Mrs. Margaret Cavanaugh Campan, 64, a former resident of Appleton, died Dec. 1 at Seattle, Wash. She was born in Appleton and lived here for many years. Survivors are her widow, Henry Campan of Seattle, and three sisters, Mrs. W. S. Taylor and Mrs. Elmer Clark of Appleton and Mrs. Thomas Matney of Seattle, Wash.

VAN LOON FUNERAL

The funeral of Frank Van Loon who died Sunday night will be held at 5:30 Saturday morning at Scheurer's Funeral Home and at 2 o'clock at St. Joseph church, instead of on Wednesday as was previously scheduled. Interment will be in St. Joseph cemetery.

TURROW FUNERAL

The funeral of Mrs. Martin Turrow, 52, W. High-st., who died Sunday night, will be held at 2 o'clock Wednesday morning at St. Joseph church. Interment will be in St. Joseph cemetery. Mrs. Turrow was a member of the Christian Mothers society of St. Joseph church and was also a member of the F.W.C.

WIND PILES UP ICE ON LAKE WINNEBAGO SHORE

note cooperative associations and help handle surplus crops.

On such subjects as Boulder canyon and foreign relations, both of which were bitterly controverted last session, the president stood by his guns. He recommended a program of food relief without going into details.

The reading of the presidential message passed off in the usual prefatory manner in both senate and house. The message was read to the house by its veteran chief clerk, William Tyler Page.

The message was attacked immediately in a statement by Senator Robinson of Arkansas the senate Democratic leader. He said the presidential words were a "disappointment" as to flood relief proposals.

"There is real danger," Senator Robinson said, "that half way measures will be adopted now as they have been in the past."

"The references to measures for farm relief are so general in their character that they do not form a basis for substantial legislation."

FLOOD OF BILLS

Faced by a preliminary avalanche of more than 5,000 bills of national and local import, the house, having rejected Nicholas Longworth of Ohio, speaker, over Finis J. Garrett of Tennessee, the minority leader, and having decided by a Republican majority to swear in Representative James M. Beck of Pennsylvania, was ready to go to work.

Deck's right to a seat—that formerly held by Vane—was challenged by Representative Garrett on the ground that he was not a resident of Pennsylvania, but the house voted 243 to 157 to let him take the oath of office. It then adopted a motion by Garrett to direct an elections committee to investigate his case.

The Beck episode, coming as a complete surprise to those who believed the only opening day fight would be at the Senate end of the capitol, came after Longworth's election and his statement that he would rather be speaker than hold any other office "in the gift of the American people." The vote was 225 for Longworth and 187 for Garrett, reflecting party lines.

Construction of public buildings and local improvements were sought in a wide range of bills, which included a request for \$50,000 for a fish hatchery at Marquette co., Wis., by Representative Lampert, Republican, Wisconsin.

The rail commission has ordered the city to proceed with construction of the viaduct here and the road body with the city officials will attempt to secure a 60-day postponement while the proposed new road is investigated.

The chairman was instructed to appoint a committee which will plan an organization for the superintendents' club and also will nominate officers. It is to meet within the next week.

NATION SUFFERED HEAVY FLOOD LOSS DURING PAST YEAR

Three State Capitals, Many Cities and Much Territory Devastated

Washington —(O.P.)—An area larger than the combined states of Massachusetts, New Jersey, Delaware and Rhode Island, has been under water in the floods of 1927.

From the borders of Iowa to the deltas of Louisiana and all across New England rivers and streams left their banks, causing damage and putting residents of the lowlands to flights in parts of 15 states, taking a toll of millions of dollars, bringing death to 457 persons and starting the nation into contemplation of a comprehensive program for the control of flood waters.

In the Mississippi Valley and in New England, the two major centers of disaster, the American Red Cross has cared for upward of 600,000 refugees, outside of those who sustained themselves in relief camps and of this number 60,000 are still dependent upon the Red Cross for sustenance in Louisiana, Arkansas and Mississippi, five months after the re-occurring of the waters.

The 21,000 square miles of land flooded by the swelling of rivers and the breaking of levees, 1,000 square miles was in New England and the rest in the Mississippi valley. Kentucky, Tennessee, Arkansas, Missouri, Illinois, Iowa, Oklahoma, Mississippi and Louisiana felt the deluge in the latter region. Vermont, Massachusetts, New Hampshire, Connecticut and parts of Maine and Rhode Island were affected by the New England flood, which came in November, five months after the central and southern floods had their crest.

The Mississippi Valley floods began in the last two weeks of 1926 and lasted well into June of 1927. Torrential rains swelled streams "until every effort to keep them in their banks was futile, but in most cases the rivers rose slowly, making evacuation possible on a scale which greatly reduced loss of life."

As the head of water moved down the Mississippi from the Ohio and Missouri rivers and tributaries, thousands of men in scores of boats labored natural or artificial barriers to hold back the deluge. At Laconia, Ark., at Beardstown, Ill., and in many another community these efforts are epic, even though they failed in the end of stem the tide.

Louisiana bore the brunt of the Mississippi flood, and territory was inundated that had not been under water for 40 years. So great was the menace of the flood to the city of New Orleans that an artificial crevasse was made to relieve the pressure.

Christmas of 1926 in Nashville, Tenn., found more than 20 blocks under water. Arkansas City, Ark., was deluged thrice in spring and summer.

In New England no more damaging inundation ever was felt. The death toll in Vermont and adjacent states was 212, almost as great as the list of 245 dead in the Mississippi valley and property damage was assessed at upward of \$50,000,000.

Three state capitals were flooded—Montpelier, Vt., Concord, N. H., and Hartford, Conn. The little Winooski river of Vermont became a torrent overnight, and the dead in its valley alone were counted at 75.

Loss of livestock in both regions amounted to thousands of head. Intangible losses due to consequent stagnation of business added to the total, and in the central south and the middle west at least 6,000 square miles of farm lands were so washed by flood waters that they could not be tilled in the summer.

The Red Cross received for Mississippi Valley relief more than \$17,000,000, of which it had expended in late October some \$15,000,000. Although it was called upon for less assistance in New England it appropriated \$75,000 for immediate relief there, received \$35,000 in voluntary contributions and found its relief work supplemented by the Vermont and Massachusetts societies of New York, which sent \$55,000 and \$20,000 respectively into their own states.

The barn where John Wilkes Booth stabled his horse and from which he fled after the assassination of President Lincoln, has recently been sold by the War Department for \$250.

Liver Doesn't Hurt but Watch Out

The dangerous thing about liver trouble is that it may be present and not recognized as such. No pain probably in the vicinity of the liver, but mysterious sick headaches, dizzy spells, kidney disturbances and probably heart palpitation and high blood pressure. No organ will bear closer watching than the liver. It's the liver's important job to keep the blood clean of the poisons formed in food waste. Let the liver become sluggish, as it frequently does under the strain of modern living, and the whole system becomes toxic, which weakens stomach, kidneys and heart. The liver occasionally needs a little help, and there's nothing better for this, as medical men know, than a little oil of gall. Oil of gall is a remarkable natural stimulant for the human liver, promoting its normal, active functioning. Dose: Tablets are genuine oil of gall and tasteless form; each tablet representing 10 drops of pure oil of gall. To be sure of getting the genuine oil of gall, be sure of getting Dioral. They cost less than 2¢ each at good druggists' free test. Take this ad to the druggist named below and he will give you a free sample of Dioral tablets. Try them yourself. See the special quick results. One trial of Dioral and you will want a full package!

MOTORCYCLE POLICE CONTINUE PATROLS

County motorcycle officers will patrol Outagamie-co highways until Dec. 15 or later according to Frank R. Appleton, chairman of the highway committee. The officers usually finish their work and are ordered from the road about Dec. 1, according to Mr. Appleton, but owing to the good weather and the fact that county roads are still open to traffic, the highway committee has decided to leave the officers on the road longer. If the roads are still open to traffic after Dec. 15, it is likely that the officers will remain on duty beyond that date.

COUNCIL EXPECTS TO PAVE 25 BLOCKS WITH \$40,000

The expenditure of the \$40,000 for paving, announced in the budget for the city of Appleton for 1928, will include approximately 25 blocks, it was stated Monday by city officials.

Of this work, approximately 15 blocks will be paved with cement on Wisconsin-ave in conjunction with the proposed bridge project. Plans also include the paving of east and west Water-streets for 25 blocks in the hope that heavy diversion of traffic from the business streets will result. The type of paving to be used on Water street has not been decided on.

AID ASSOCIATION SHOWS BIG GAIN

The Aid Association for Lutherans needs only to secure 205 members in December to have acquired 10,000 new members during 1927, according to the report of the association for November.

During the month the association gained 908 new members with \$1,175,750 insurance, bringing the total for the first 11 months of 1927 to 9,710 members and \$12,525,500 insurance.

The November membership and insurance was a gain of 222 members and \$26,750 insurance over November, 1926.

A total of 142 juvenile certificates and with \$106,000 insurance also was issued by the association in November.

The city council of a town in India has prohibited the killing of mad dogs, holding that they are the same as lunatics and must be put into asylums.

To Make Pine Cough Syrup at Home

Has no equal for prompt results. Takes but a moment to make. Saves about \$2.

Pine is used in nearly all prescriptions and remedies for coughs. The reason is pine has a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup.

To make this home product merely that money can buy put 2½ ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified honey instead of sugar syrup. This makes a full pint—more than you can buy ready-made for three times the money. It is pure, and tastes good.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Piney and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, bronchitis, and all persistent coughs.

Pine is a highly concentrated compound of genuine Northern pine—tract and palatable guaiacol, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Piney" with directions. Guarantee to give absolute satisfaction or money completely refunded. The Piney Co., Ft. Wayne, Ind.
